

SECTOR: Industrial Materials and Construction Products
AREA: Multiple Markets
DATE: Oct 1993
ACTIVITY: International Nickel Study Group
LOCATION: Netherlands
CONTACT: Robert Telewiak EMRC ISTC
TELEPHONE: 613-992-4481 613-954-1854

(record #: 662)

Canadian government officials, representatives of Canadian companies and representatives of fourteen other countries attend these meetings. The purpose of the meetings is to increase transparency of international nickel markets, thereby permitting producers and consumers to make more rational market decisions.

SECTOR: Industrial Materials and Construction Products
AREA: Multiple Markets
DATE: Feb 1994
ACTIVITY: Mining; symposia for potential foreign investors
LOCATION: Tokyo, Seoul, Bonn, Brussels, London
CONTACT: Keith J. Brewer EMRC
TELEPHONE: 613-992-2662

(record #: 663)

These symposia are to inform potential investors about the positive aspects of Canada's investment climate as it relates to Canada's minerals and metals industries, leading to increased investment. Federal and provincial government officials and industry representatives to participate both as speakers and in the audience. February and March 1994.

SECTOR: Industrial Materials and Construction Products
AREA: Multiple Markets
DATE: Mar 1994
ACTIVITY: Metals and minerals working group
LOCATION: Ottawa
CONTACT: Gordon Peeling EMRC ISTC
TELEPHONE: 613-992-4482 613-954-3122

(record #: 663)

This group meets annually to review policy developments affecting their respective minerals and metals industries. Discussions and activities cover three broad categories: information exchange on mining and regulatory policy; analysis of the international scene and respective positions, and cooperation on industrial research; seminars and conferences. Attended by Canadian governments and industry representatives, and EC officials.
