EXPORT CONTACT

Mr. Ernie Rowlands

General Manager

Vitacare Medical Products Inc. was started in 1984, and has since grown to be a major medical foam product manufacturer in Canada. Vitacare is also part of the British Vita Group which maintains many plants internationally around the world. Being part of this group enables them to keep abreast of what is happening locally as well as internationally in the medical foam industry. Being an environmentally conscious company Vitacare is working with some of the major hospitals in the Toronto area to recycle some of their foam products to help eliminate dumping in land fill sites.
