Canada Business Service Centres

Canada Business Service Centres were established in each province to provide small businesses with a single access point for information on federal and provincial government programs, services and regulations. These centres are the result of a collaborative effort among federal and provincial governments as well as private-sector organizations.

Each Canada Business Service Centre (CBSC) offers a combination of products and services tailored to the needs of its distinctive client base:

- a toll-free telephone information and referral service;
- the Business Information System, a comprehensive database of information on the services and programs of participating federal and provincial departments and private-sector organizations;
- a FaxBack system;
- pathfinders which briefly describe the services and programs available by topic (e.g. exporting); and
- leading-edge business products, which could include videos, publications, business directories, how-to manuals, CD-ROM products, and external database access.
