

Business of the House

Lawrence Seaway Authority Act and the Canadian Overseas Telecommunication Corporation Act.

Mr. Hamilton: I wonder whether the acting house leader would be able to give us any information on what departmental estimates are planned for the latter part of the week?

Mr. MacNaught: I am sorry, but I cannot give that information now. I understand that conversations will be carried on through the usual channels tomorrow to arrange a satisfactory program for Thursday and Friday.

It being six minutes after ten o'clock the house adjourned, without question put.
