

April 6, 1932.

Henry O. Howitt,
Dr.
Guelph,
Ontario.

My dear Dr. Howitt,

I received a letter this morning from President Fox of Western University, telling me that the function in honour of Doctor Waugh passed off very well and that they greatly appreciated your presence. I was very sorry that at the last minute Professor Campbell Howard of McGill found that he could not go, and I very greatly appreciate your making the sacrifice to go to London and represent your Alma Mater at a ceremony in honour of one of our oldest graduates and a man for whom we have the highest regard and affection.

Will you please accept my personal thanks and the gratitude of the Faculty of Medicine for your kindness in representing us all.

With kindest wishes always,

I am,

Ever yours faithfully,

Principal
