

To - Sir Arthur Currie, June 3rd, 1923.

altogether out of the question for my colleagues or myself to undertake the task of handling an affair of this magnitude.

If my anticipation that McGill University does not see its way to taking full responsibility is correct, I advise that Dr. Fields be informed officially that in our opinion the Congress, if held, should not be held here.

Please note that time is an essential element in this matter and that unless sufficient funds are definitely assured before the end of this month, McGill University should entirely withdraw from the scheme.

Yours very sincerely,

*J. Harkness*
