

When the last of the centres is completed, and local committees have been appointed, a suggested programme will be issued. This programme will include pageants, in which the school-children will take the leading part, and speeches by prominent men. In some centres there will be sports, either field or aquatic, fire-works displays and other features of a local character.

Each centre will include not only the city in which the celebration is held, but neighbouring towns, villages, and municipalities, covering a considerable area. It is intended that excursions shall be run and holidays granted.

It is proposed that there shall be a Canadian speaker at the principal American centres and an American speaker at the principal Canadian centres.
