ROYALIST RISING BEING CRUSHED IN NORTH PORTUGAL

Concentration of Republican Troops is Effecting Defeat of the Monarchists.

FAILURE IN LISBON Manuel Reported to Have Crossed Into Portugal, But Secretary Denies It.

Lisbon, Jan. 26.—The Royalist movement in the north, which was restricted to Oporto to Braga, is now being put down by the concentration of Republican troops. The movement has been completely stamped out in Lisbon, where some infantry, cavalry and artillery occupied the two forts of Monsanto Hill and Duque and hoisted the Royalist flag Wednesday. These forces surrendered last night. Troops from Lisbon are now proceeding to the north. A dispatch from Lisbon reports that Ayres Ornelas, former King Manuel's representative, was killed in the fighting on Mont Santo Hill.

The Portuguese cabinet has resigned. In an official note the government explains that although the Monarchist movement in Braga, Oporto and other places has been overcome, in all other districts the military and civil elements are seeking to revive quarrels among the Republicans. Wherefore the ministers, not desiring to weaken the Republic, have decided to resign, but will continue their functions until a new government is formed.

Monarchists in Flight. Madrid, Jan. 25.—The Republican forces have captured Monsanto, 43 miles southeast of Guadalupe, a large number of Monarchist prisoners, according to dispatches from Lisbon. The remainder of the Monarchists are in flight, leaving their artillery behind. Among the prisoners was Ayres Ornelas, representative of former King Manuel. Count Monsaraz, chief of the "Integralist," was killed.

Republican forces at Coimbra have marched northward and defeated the Monarchists at Aveiro.

Manuel in Portugal? Vigo, Spain, Jan. 26.—Former King Manuel is reported to have entered Portugal at 6 o'clock this morning, having crossed the Minho River at Carvinha. Report is Denied.

Lisbon, Jan. 26.—The private secretary of King Manuel of Portugal is authority for the statement that Manuel still is in London and that he does not intend to go to Portugal.

On the other hand, close friends of the former King, who hitherto had denied rumors that he had left England, refused today to comment on the report that he had entered Portugal.

BRITAIN FACING MANY STRIKES

Railway Men Threaten to Go Out Unless Their Grievances Are Soon Remedied.

STRIKE ON THE CLYDE

Labor Communities Divided on Wisdom of Demanding a Forty-Hour Week.

London, Jan. 26.—Industrial unrest in England continues. Another conference of the railway union representing nearly the whole kingdom, was held in London today and a strong feeling was expressed regarding the government's continued neglect to deal adequately with the men's grievances and threatening to strike unless matters are settled by February 2.

Another meeting of 8,000 persons in shipbuilding and repairing in the port of London, decided to strike tomorrow for increased wages.

FIGHTING IN SIBERIA OF GUERRILLA CHARACTER

Situation Thruout Whole Country Is Baffling, as Bolshevik Idea Has Taken Deep Hold on Russian People.

By W. E. Playfair, Official Correspondent With the Canadian Forces in Siberia. Delayed in Mails. Vladivostok, Dec. 26.—The first and most natural question that occurs to the Canadian in arms when he lands in Siberia is: "Where is the war?"

It is also one of the hardest questions to answer. The actual fighting front at the present time is thousands of miles distant, along the Trans-Siberian railway, as far as the Ural Mountains and beyond.

Allied nations are now operating in Siberia under the supreme command of General Otani, who commands the Japanese Expeditionary Force, along the Amur line, which runs north from Vladivostok to Khabarovsk, and then turns west and south to meet the main Trans-Siberian line at Chita. But some little time ago the active Bolsheviki operations in that region broke down, and the work now is mainly of a police nature. The towns are being searched for arms, and many are being found.

At the present time American troops are being sent inland only in small detachments practically as guards in connection with Red Cross work. Front Changes Daily. The actual fighting is being done beyond Omsk, by Czech and Russian units. According to reports received at this base the war is of the most erratic character. The front changes daily, indicating that the fighting is guerrilla in character. Armed bands of Bolsheviki are reported to be wandering about the country in various directions, and forces sent inland will have to guard against the cutting of the line in their rear. Presumably the operations of the present winter will be concluded on Page 2, Column 5.

ARMISTICE ENDED FOR EVER THE ARGUMENT OF FORCE

Those Who Ask For Justice Must Come Into Court With Clean Hands, Says London Times.

London, Jan. 26.—Commenting on the action of the supreme war council in issuing a warning to those who are using armed force in Europe and the east to enlarge their possessions, the Times says: "The decisions of the conference will rest on two sets of considerations and two only. The first set is the result of the second set, which is the armistice of November. The armistice ended one and for all the argument of force and for any of the parties to the great suit in international justice which is now opening in Paris to continue to appeal to force is contempt of court."

BRITISH ARMIES TO BE SMALL, BUT EFFECTIVE

London, Jan. 26.—Anticipating an announcement to be made Thursday by a conference of Sir Eric Geddes, former first lord of the admiralty; Field Marshal Haig and Major-General Henry H. Wilson, chief of the general staff of the British army, now meeting in Paris, a statement issued by the war office tonight says: "The proposal of the conference will make sure that we have in every theatre of the war sufficient forces during the present year to see that we are not robbed of our victories, and the Germans and their confederates will be made to execute faithfully and punctually the conditions not only of the armistice, but the treaty of peace, when that is signed, and they will not be asked to do more than their share and that the United States, France and Italy will act with her in maintaining the common interest and securing the advantages gained together."

Further, Great Britain's special obligations in maintaining the Indian Empire and the wide regions which we now hold in the Middle East, as well as the part played by the royal navy, have been taken into consideration in computing what that share should be.

"The task to be undertaken is therefore the formation and maintenance of an army of occupation of moderate size, compared with what we now have, but of the highest discipline and efficiency, which will discharge our duty and safeguard British interests during the period which must elapse before the ordinary peace time volunteer army can be created."

MANY CASUALTIES IN BERLIN FIGHTING

London, Jan. 26.—There were numerous casualties in heavy fighting between Spartacists and government troops in Berlin Thursday night, says an Amsterdam despatch to the Exchange Telegraph Company. The fighting was mostly in the vicinity of the newspaper offices and at the Anhalt station.

BOLSHEVIK MESSAGE TO MEETING OFFERED BY PEACE CONGRESS

Foreign Minister Expresses Opinion That Princes' Islands Are Too Far Away.

CLAIMS VICTORIES Proposal Has Come, He Says, at a Time When They Are Winning Everywhere.

Paris, Jan. 26.—M. Tchitcherine, the Bolsheviki foreign minister, has sent a wireless message to the Soviet representative in Sweden asking continuation of the action of the supreme council of the peace conference to send a mission to confer with representatives of the different factions in Russia on Princes' Islands.

M. Tchitcherine's message declares that Princes' Islands are too remote for such a mission. He objects to the isolation of the islands as tending to surround the conference with mystery, and also to leaving to the entente the choice of participants.

This proposal of the supreme council, the message says, is made at a time when the Bolsheviki are victorious over their opponents and the internal situation of Russia has been settled by the Soviet government upon receipt of the confirmation requested will carefully consider the proposal.

Attitude Is Hostile. The general opinion expressed this evening was that the wireless message sent yesterday by M. Tchitcherine, minister of foreign affairs, to the Soviet Government in Russia, is the only direct expression provoked thus far by the Bolsheviks regarding their invitation to the Russian factions, and that this fact must be taken as indicating that the final attitude of the Bolsheviki Government is decidedly hostile under the conditions proposed.

It is regarded possible that a more formal reply will be received from the Bolsheviki, but the dissatisfaction expressed by the Soviet commissioner for foreign affairs is considered as almost a rejection of the invitation. It was indicated by Stephen Pichon, the French foreign minister, in an interview today, that it rests with the Soviet government to decide upon the course to be followed in case the Princes' Islands meeting is also declined.

It is declared that the supreme council will not consent to hold the meeting anywhere where the Bolsheviki will have an opportunity to indulge in speeches calculated to spread their doctrine.

Joint Expedition Unlikely. Among the peoples of the entente countries and the United States, such opinions as could be gathered today were regarding the probability of a joint expedition to the Princes' Islands. It was declared to be even more pronounced than that of any other nation, that the entente powers looked to the United States to undertake this operation in view of the fact that the entente powers have suffered more losses as a result of the war.

DRUG CLERK HELD ON SERIOUS CHARGE

Five Arrests Made in Connection With Sales of Morphine.

Five men were arrested Saturday night in connection with the trafficking of morphine in the downtown section of the city. Benjamin Cohen, 41 Claremont street, clerk in the Star Drugstore, at Dundas and Elizabeth streets, was arrested by Plainclothesmen Ward and Scott, and is held charged with selling morphine. Four other men, alleged to be victims of the drug, were also taken into custody.

Inspector Bond remarked that he intended stamping out the drug traffic, before it breaks out again on a large scale such as was experienced in the division some time ago. Cohen, the police allege, has been supplying morphine to a number of "slope" vendors, at the price of four grains for \$1. Roy Volker, no home, is charged with having morphine in his possession. John Smith, no home, is charged with vagrancy, as is Abraham Gross, 156 Baldwin street. Harvey Hill, 95 Edward street, is charged with having morphine in his possession. Hypodermics and other articles used in preparing the morphine for use were found on the last four mentioned prisoners.

The police claim to have sent one of the men, now in custody, into the store with a marked \$2 bill, and purchased 8 grains of morphine, as further evidence of their charge against Cohen.

PEACE CONFERENCE APPROPTS LEAGUE OF NATIONS PROJECT

Commission Named To Draft Chief Plan--Wilson Declares It Must Not Be a Casual Affair--Lloyd George For Saner Plan Than Organized Savagery--Committees Appointed.

Paris, Jan. 26.—The peace conference on Saturday weathered its first storm and, under the influence of the speech by President Wilson and the skilful guidance of Clemenceau, the chairman, unanimously adopted resolutions declaring for a league of nations. The conference also went on record in favor of incorporating the league as an integral part of the general treaty of peace, and admitting to the league "every civilized nation which can be relied upon to promote its objects."

Belgium, Serbia, Rumania, Portugal, Brazil, Siam, China and Czechoslovakia protested against the various committees being largely restricted to the great powers, and asked for proportionate representation, privileges, particularly on bodies dealing with the league of nations, labor and reparations for war damages.

Although this was a cloud no bigger than a man's hand, it threatened at one time to grow into a general alignment of the small powers against the five great powers. This, however, was averted by Clemenceau's goodtempered and skilful direction. The session had the same impressive dignity as the opening session, with a picturesque setting of Arabs and Indians in their turbans and tunics, as well as a distinguished array of prime ministers and other world figures. President Wilson for the first time was accompanied by the entire American delegation, Colonel House having recovered sufficiently from his illness to be present.

Although it had been expected that Premier Lloyd George would open the discussion on the league of nations, President Wilson said: "The league of nations seems to me to be necessary for both of these purposes. There are many complicated questions connected with the present settlements, which perhaps cannot be successfully worked out to an ultimate issue by the decisions we shall arrive at here. I can only conceive that the world, not only by the peace of settlement, but by the arrangements we shall make at this conference for its maintenance, will be made permanent."

Mr. Chairman: I consider it a distinguished privilege to be permitted to open the discussion in this conference of the league of nations. We have assembled for two purposes, to make the present settlements which have been rendered necessary by this war, and also to secure the peace of the world, not only by the peace of settlement, but by the arrangements we shall make at this conference for its maintenance.

CLEVER ARREST OF FAN-TAN PLAYERS

Chinese New Year Night Sees Two Raids by Police.

Sunday the Chinese population of Toronto commenced celebrating their "New Year's" in their club quarters on Elizabeth street. They started in at midnight Saturday to celebrate, and in two adjoining places their celebrations were marred by raids made upon them by Plainclothesmen Ward and Scott.

At 9 o'clock last night, a diminutive Chinaman was fitted by the police with a large piece of scantling sawed off to fit under his armpit and not to hang down any lower than the length of his overcoat. With the piece of two-by-four the Chinaman proceeded to a store at 108 Elizabeth street. Following closely behind him in the police motor car were Inspector Bond and Plainclothesmen Ward, Scott and Clarkson. When the Chinaman entered the doorway Ward and Scott ran up the stairs ahead of him and hid themselves from the "peep" on the door leading into the gambling room.

After knocking on the door and giving the password, the Chinaman opened the door, turned the lock, and as he opened the door, the Chinaman stepped with a large piece of scantling sawed off to fit under his armpit and not to hang down any lower than the length of his overcoat. With the piece of two-by-four the Chinaman proceeded to a store at 108 Elizabeth street. Following closely behind him in the police motor car were Inspector Bond and Plainclothesmen Ward, Scott and Clarkson. When the Chinaman entered the doorway Ward and Scott ran up the stairs ahead of him and hid themselves from the "peep" on the door leading into the gambling room.

A raid, early Sunday morning on the premises at 12 Elizabeth street resulted in 12 Chinamen being arrested, charged with gambling on the Lord's Day.

RED SHIELD TOTAL EXCEEDS APPEAL

Canvass of School Children Today Should Run Figures to \$272,000.

The final returns from the big Salvation Red Shield drive will not be made up until tomorrow. Meanwhile returns are pouring in from outside points. The total objective has already been more than attained. In all the schools of the city, today a collection will be taken up, and if \$10,000 is secured, Toronto's total contribution to the fund is expected to be about \$272,000. "We are putting it up to the school children now, and I am sure they will not fail us," said one of the campaign managers last night.

Hok: Smokes continue high matter! What are you and Johnny Gunn doing to get the returned men fair prices for their tobacco?

Tommy Boy: I will send a cable to Sir Douglas Haig and call up Danny Chinaman, our fuel commissioner. He could sell a lot of the coal he is stocked up with and lay in a line of cigars and chews and put up booths at the street corners. I'll ask Johnny Gunn to start a tobacco factory with returned men in the Artificial Lamb factory.

Hok: And what about the soldiers paying fifteen cents for a box of matches?

Tommy Boy: Here, Jimmy Somers, get me Sir Thomas White on the phone. Perhaps Sir Adam Beck can give every man a hydro-electric lighter in his pocket. I'll wire him, too.
