ascribed to active export demand, had a bullish effect today on corn. The close for corn was unsettled, %c to 1%c net higher with January \$1.36 to \$1.36 %, and May \$1.33 % to \$1.33 %; oats finished %c to %c up, and provisions unchanged to a decline of 27c.

Before the advance due to the influence of rye and barley, the corn market was on the down grade. Continued liberal receipts of corn together with lower quotations on hogs was chiefly responsible, altho some selling resulted from fuel shortage interference with the operation of grain elevators here. Gossip, however, that big purchases of rye were in progress on foreign account gave a different aspect to the corn trade, especially as barley was sympathizing with rye, and there was also much talk of the high cost of spring wheat flour. Need of week-end adjustment of open deals tended further to lift corn as the session neared the close.

Oats followed the leadership of corn. Quartz Diabases of Shining Tree Have Effect Similar to Quartz Porphyries of Porcupine and the Quartz Syenite of Matachewan.

P. A. Robbins, E.M., formerly guneral manager of the Hollinger Cons., describes the intrusions of quartz porphyry on the great property as "like a fleet of boats at anchor in a stream." The likeness is, of course, in the shape, and it is notable that the intrusions of quartz diabase at Matachewan, and of quartz diabase at Matachewan, great property and syenite.

FRENCH JEWELERS DO RECORD TRADE

Theatres, Music Halls, Movies. Taking in Much More Money.

Paris, Dec. 6 .- Figures on the high cost of living published here today show that for the first 10 months of trade of Paris 7,200,000 pieces of gold and platinum jewelry and 23,300,00 pieces made of silver. In 1918 the figure the corresponding months 1919 there were sold by the jewelry

pieces of jewelry in gold and platinum sold amounted to 12,600 pounds. The price of gold increased from 3,400 or McInnie and other citizens. This francs per kilogram to 6,800 francs, afternoon the party will later leave and that of platinum from 6,000 francs to 30,000 francs.

Theatres, moving picture shows and music halls will take in 165,000,000 francs during the year if the average of the first ten months is maintained. This is an increase of 50 per cent. over the figures for 1913. At the race tracks in Paris and thereabouts 510,000,000 francs were spent between May 15 and November 30. In 1913 during the same period the mutuel betting machine took in only 40,000,000 francs. At the municipal pawn shops it was declared today that the number of articles pawned in 1919 was about 30 per cent, less than in 1913.
