NATURE'S WAY OF **CURING DISEASE**

When she can't cure it is because she needs aid. Now, most people have an idea that this aid is drugs, and when they get sick or suffer from pain of any kind they proceed to dope their stomachs with the stuff that is sold for medicine. That doesn't help

help any; in fact, it does a great deat of harm. The dope you put into your stomachs is poison, and poison weakens the organs and nerves of your

body. What nature needs is electricity. When your stemach, kidneys, liver o digestive organs get out of order it is because they lack the necessary elec-tricity to enable them to perform their regular functions. The breaking down of one of these organs nearly always causes other trouble. Nature can't cure, then, because your body hasn't enough elec-

tricity to do the work, so you must assist Nature by restoring this electricity where it is needed. My Electric Belt does this while you sleep. It saturates the nerves with its glowing power, and these conduct the force to every organ and tissue of your

body, restoring health and giving strength to every part that is week.

My Belt is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It is Nature's way of curing disease, for it gives back to the nerves and organs the power they the nerves and organs the power they have lost, which is their life. It has cured hundreds of men who have wasted

their earnings for years on drugs, doctors

the nerves control the organs and muscles and electricity supplies to the nerves the power to control. Electricity is nerve food. When the supply is less than necessary the nerves become weak and the organs per-form the functions in an irregular man-

ness of any organ of the body, in Backache, Lum-bago, Rheuma-tism, Nerve

Weakness, Indi-gestion, Stomach, Kidney and Bowel Troubles.

Electric Belt has made me feel like a new man. FRED. J. CUTTERBUCK, Brockville, Ont. JOHN NOBLE, Hanover, Cint., cured of rheumatism.

Dr. McLaughlin: Dear Sir,-I have worn your Relt for several months, and it has cured me of Rheumatism and Piles, I would not take \$100 for the benefits I have received from it so far and be without it. I can recommend it to any one suffering from yroubles for which it is recommended. Yours very truly, J. H. MIKEL, Maplaview, Ont.

Dr. McLaughlin:

Dear Sir.—I purchased a Belt from you in October, 1901, and I have found it has done wonders for me, as I have never lost an hour's work since I got it. If this is any use to you you can use my name. It has been a blessing to me. I remain yours truly,

GEO. J. JOHNSTON. and quacks without getting benefit.

Nearly all my cures are of men who have done lots of doctoring. They usually try my Belt as a last resort. When a man gets tired dosing himself he begins to study, and common sense tells nim that Electricity will cure his trouble where drugs will not.

That is because a man can't live without Electricity; it's a part of his body, and when he loses it he gets weak, stupid, nerveless and slowly goes down hill and dies, just like a plant without sun and air.

A plant can live without sun and air if it gets Electricity. That is a scientific fact. Can't you see that Electricity is the state of the second secon Are you a weak person? Are you nervous, fretful and gloomy? Is your sleep broken? Have you pains and aches a different parts of your body? Is your back weak and painful? Have you lost the vigor of youth? Are you heumatic or Gouty? Does your back ache? These are the results of the waste of vital forces. The gentle stream are Electricity from

The Dr. McLaughlin Electric Belt

If is worn while you sleep, and pours a steady stream of electricity into the nerve centre, saturating the weakened tissues and organs with its life. This is strength. From it come the vim, the energy, the fire of perfect physical and mental action. It renews health and happiness.

This Belt, with special Electric attachment, will restore your rigor. It will check all loss of vitality and affects every organ of the body. It cures Nervous Debility. Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease that has not gone as far as Bright's Disease, Stomach Trouble, Construction.
