

SABBATH SCHOOL REPORT, 1876.

The Report of the attendance and progress of the Sabbath School for the year that is past is very satisfactory, and will be read with pleasure by those interested in the workings of the Sabbath School. The average attendance for the year has been an increase of 17 per cent., or over $\frac{1}{3}$ of the average of the preceding year. New scholars have been introduced; and also it is gratifying to report new teachers have been secured to aid the Superintendent in the good work of instructing the young in the precious truths of the Bible.

The lessons during the year have been very interesting, treating in the Old Testament of very instructive portions of the history of the early kings of the Jewish Monarchy, some of the teachings of the wise Solomon, and the history of the early Christian Church as contained in the Book of "Acts." Interesting, and also successful, reviews of the lessons were conducted quarterly, at which the knowledge displayed by the scholars was very good. The Infant Class has continued to prosper, and its numbers have greatly increased during the year. Under the guidance of Miss Jamieson, aided by new lesson charts, the interest taken by the little ones in the lessons is encouraging. The Infant Class, during the year, has also recruited the Sabbath School proper, by supplying it with a number of pupils promoted from the Infant Class.

The Sabbath School has also engaged in Mission efforts, and has contributed funds for the support of a pupil at the Pointe Aux Trembles Mission School, and has also aided the Sabbath School Association of the Ottawa Valley. With such an encouraging Report of the past year, let us implore the blessing of God upon our labors for the future, and strive by His aid and guidance to make prosperity still more prosperous, and progress even more encouraging.
