

Hamilton Happenings

World subscribers in Hamilton are requested to register complaints as to the delivery of the Hamilton office, room 7, Spectator Building, Phone 955.

RUSH AT COLLEGIATE NEW TEACHER ENGAGED

Miss Emsley Transferred—An Investigation Into Election Crookedness Is Probable.

HAMILTON, Sept. 17.—(Special.)—There are so many pupils registered at the Collegiate Institute that the board of education has been forced to engage still another new teacher. The chairman of the board and the board of trustees met this afternoon and decided to transfer Miss Emsley from the King Edward School to the Collegiate, and to increase her salary to \$650 a year.

P. H. Bateman has been appointed returning officer for East Hamilton, and C. B. Linton, returning officer for West.

To Be Investigated.

Many more cases of crooked work came out to-day in connection with the voting on the bylaws Wednesday. Edwin Green and H. Fischer found when they went to vote that persons had voted in their names. They will be a full investigation, and it is hinted that some politicians will find themselves in trouble. The Hamilton Street Railway Company has not yet accepted the bylaws. Col. J. M. Gibson denies that the directors have already decided not to accept it, and says that he hopes before long to see the board of the Dominion Power and Transmission Company will meet Friday morning. Among the interesting matters on the program is the election of Col. J. Robert Moodie as president.

John Warner and Richard Tobin, two of those on the list, were fined \$10 this morning for getting drunk. They declined to tell where they got their jags.

Judge Snider this morning awarded Dewey and O'Hair \$5000 damages against Daniel R. Dewey for using his name in a similar business in the city after withdrawing from the firm, violating an agreement he had entered into.

The New Arrivings.

New open for visitors. Complete new building, home comforts, very central. Excellent cuisine. Terms \$1.50. Geo. Midwinter, Phone 442.

Skedden & Son, Painters, Decorators, Paperhangers, 163 King St. West.

NEW STRIPES FOR SERGEANTS

"Greens" Will Sport Fine Chevrons—First Parade.

The Royal Grenadiers had a fine turnout last night for their first parade of the regular fall drill, the regiment marching out 450 strong, including recruits. Colonel Gooderham was in command.

On behalf of Mrs. Gooderham the colonel presented the sergeants of the regiment with a new set of chevrons, more commonly known as "stripes". Mrs. Gooderham ordered these from London, Eng. The pattern is worked out in marie leaf.

"Joe" Noble, Q.M.S.I., will go to Quebec on Saturday to start a week's course on the Ross rifle. The government extended the invitation to the other city corps as well, but it is understood that the Grenadiers will be the only regiment to accept.

When the Boy Gie's Wrong.

With tears in his eyes and his mother's kiss warm on his lips, Edward Williams, 16 years old, walked from the police court, dock yesterday to serve a sentence of seven days in jail. The sentence was not a harsh one, as Col. Denison explained to the boy's mother, a respectable-looking young widow, but before he had been let go on suspended sentence for a theft.

Williams with two other boys, named James Smith and Harry Hill, were found guilty of stealing some iron from the Grand Trunk Railway.

To Err Is Human.

GUELPH, Sept. 17.—Emma Walker, who deserted her infant child in a this morning, before Judge J. J. Chadwick on a charge of child desertion. She was allowed to go on suspended sentence.

A CRIME THAT IS NOT PUNISHABLE.

How many people reading this article have gone into a drug store and asked for some well known highly tried medicine and some unscrupulous drugist has said, "Yes I have that, but have you ever tried this remedy, it is just as good and costs less." Any drugist doing this has not the interest of your health at heart, but the interest of his pocket, as he can make more profit out of the cheap substitute.

For the protection and benefit of the public, we wish to say that Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY has been used in thousands of homes for the past twenty-three years and has never failed to give prompt relief and cure in all cases of Diarrhoea, Dysentery, Colic, Stomach Cramps, Summer Complaint, Cholera, Cholera Infantum, Cholera Morbus and all Fluxes of the Bowels. When you buy Dr. FOWLER'S, you are not experimenting with a new and untried remedy, but are getting one that has stood the test of time.

Miss Lettie Reid, Vivian, Ont., writes: "Last year I suffered untold agony from cramps in the stomach and did not know what to do until a friend suggested I should try Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY and as I was glad to try anything I purchased a bottle.

"When I had taken four doses I found relief and since then I never fail to keep a bottle."

When costs of appeal to the house of lords have been given they are not subject to the rules of practice which apply to ordinary procedure in the lower courts," ruled the chancellor.

HOBSON OF HAMILTON NEW C.M.A. PRESIDENT

Halifax Wants Next Meeting—Commission on Technical Education Asked for by Committee.

MONTREAL, Sept. 17.—(Special.)

The election of officers for the Canadian Manufacturers' Association today resulted as follows: President, R. Hobson, Hamilton; first vice-president, J. Hendrie, Vancouver; provincial vice-presidents: Ontario, Wm. Gartsch, London; Quebec, W. H. Rowley, Hull; Nova Scotia, W. Lewis, Halifax; New Brunswick, C. McDonald, St. John; Manitoba, C. McKenney, Winnipeg; Alberta and Saskatchewan, P. Burns, Calgary; British Columbia, W. J. G. Woods, Vancouver; Prince Edward Island, F. L. Hassard, Charlottetown.

An invitation was read from the Halifax branch to have the next annual there, and referred to the executive council.

The feature of to-day's session was the report of the committee on technical training, submitted by Prof. Morley Wickes. The report expressed the view if Canada was to maintain its place in the progress of national development it was incumbent to give attention to the requirements of educating its young along such lines as would enable it to compete with other countries in industrial work.

What was needed was a national system, and it was proposed that commissioners should be named for the purpose of visiting the various countries to examine their systems and decide on a plan for Canada, which would be urged on the government. For this purpose, it was recommended that \$25,000 be appropriated to pay the expenses of commissioners, who should hold sittings in Canada, the States and Europe. Of the cost of this \$5000 should be contributed by the Manufacturers' Association, and the provincial governments be appealed to for the rest. The Dominion government was prevented from acting by constitutional difficulties, one being the rights of the provinces on matters educational.

Louis Simpson, Valleyfield, took exception to a statement that the manufacturers care little or no effort to utilize by-products. He asked that the clause be struck out. It was unfair to old established concerns, and it was not to have the statement go forth unchallenged. He moved that the sentence be struck out, and this amendment was carried.

J. S. McKinnon, Toronto, drew attention to the fact that yesterday it was said that the tariff was responsible for the situation in the woolen trade, yet in this report the tariff was not mentioned. He asked that technical education would develop skilled workers and save the industry.

J. F. McKay, Toronto, said that the American Linotype operator is superior to the Canadian due to the better technical education there. Mr. Simpson said that the real cause of the trouble was that as soon as the Canadian was brought to a degree of skill he was taken away by the United States, where they paid higher wages.

The association passed a resolution on the wooden question, viewing "with alarm" the attitude of the government towards an industry established in so many parts of our Dominion, many Canadian people and workers against the government discrimination in favor of the outside manufacturer.

Mr. Riordan presented a strong report from the pulp and paper section. The effect of a resolution contained in pulpwood should be prohibited. This carried.

An important report was also presented on behalf of manufacturers in the natural gas districts of Ontario. They pointed out that the companies exported the gas to points in the United States and paid no attention to the manufacturers there. They asked that the association bring the matter to the attention of the Ontario Legislature and that the exportation of gas be prohibited.

The report of the commercial intelligence committee recommended the appointment of an additional trade commissioner in the United Kingdom, and this report was adopted.

DEPUTY NOT RETIRING.

A rumor is denied—Firemen's Salaries Up To-Day.

Deputy Chief Noble of the fire department denied last night, and most emphatically, when asked by The World, the truth of a rumor that he contemplates retiring from the department in October.

The story is said to have been circulated by a furious effect upon the board of control, who will to-day discuss the question of salary increases for the firemen. Of this phase, however, the deputy professed to be without knowledge.

The controllers talked the matter of increases over in private yesterday, but were all bound over to keep their decisions, if any, to themselves until to-day. Early in the summer they decided to do the square thing by the firemen. Certain it is, that the salary for men in the lower grades must be made more attractive if the right stamp of man is to be secured for the job.

The officers, too, have a strong claim for recognition, especially by comparison with the salaries received by similar grades in other cities.

As for the deputy chief, he didn't get at the best of it at the last re-arrangement in salaries, due to aldermanic pique rather than to the merits of the case, and it is believed the controllers will be inclined to make amends now.

DICKSON RETURNS.

Hopes to Straighten Out His Financial Affairs.

ST. JOHN, N.B., Sept. 17.—Walter B. Dickson, M.L.A. for Albert County, who disappeared suddenly two weeks ago, leaving it was reported, a shortage of \$15,000 in his accounts, and against whom an absconding debtor's warrant was issued, returned to-day. He says he disappeared on the advice of a few friends who believed his absence would be beneficial. Now he comes back with the intention of endeavoring to straighten out his accounts.

"TEXTILE REPORT DELAYED."

OTTAWA, Sept. 17.—It is understood that the report to be made by W. MacKenzie King, who enquired into the conditions of the textile trade, will not be made public until after the general elections.

The report, it is said, comments severely on the conditions of the employment of women and young children and also deals with questions of over-capitalization.

METAL WORKERS WIN.

Chancellor Boyd, giving judgment in the action of the Metallic Roofing Co. against members of Local No. 30, Sheet Metal Workers, has refused the application of the defendants to stay execution, the union having taken steps to recover \$428 costs granted by the privy council.

The chancellor says the company's application could be intelligible only with a view of escaping payment of \$428 costs of a set-off, and that there is no such right.

"When costs of appeal to the house of lords have been given they are not subject to the rules of practice which apply to ordinary procedure in the lower courts," ruled the chancellor.

BARNES BURNED.

Three Welland Farmers Suffer and Others in Danger.

WELLAND, Sept. 17.—(Special.)—A serious fire took place a mile east of Monticome, when the barns on the farms of I. E. Colliard and Nicholas Shaffley were totally destroyed with contents. The fire originated in the Colliard barn. Children playing with matches was the cause.

Ferdinand Sodkie, whose farm is over miles from Welland, lost his barn. Boys smoking cigars set it on fire.

A valuable bush farm belonging to George Yourex at Chantler has been burning since last night, and in several thousand dollars. Farmers have been fighting the flames night and day to save their houses and barns, and in some cases the supply of water has run out.

Danger Around Cornwall.

CORNWALL, Sept. 17.—Reports received in Cornwall from many of the villages in the County of Stormont are to the effect that bush fires are raging in almost every section, north, east and west of here, and the people are living in hourly dread.

Several bushes within a few miles of the town have by the greatest difficulty been saved.

A dense smoke has been hanging over the town for the past week or more.
