WEYLER'S LAST RESORT.

New York, April 21.—A special cable despatch to The Sun from Havana says that the war of extermination goes on ruthlessly on the part of the Spanish in Pinar del Rio. General Weyler is said to have issued orders to the Spanish column in that province to destroy all Cuban hospitals and kill every person caught inside.

According to these instructions, Col. Davos has already destroyed three Cuban hospitals and killed their inmates. Other Spanish commanders are pursuing similar methods.

The financial situation of the Spanish Government is so desperate that even by withdrawing 40,000 men from the island next month the treasury cannot afford to maintain the army that still remains there.

Washington, D.C., April 21.—Mr. Hattle Earle, an Englishman. who recently arrived here from Cuba, where he did war correspondence, was before a subcommittee of the Senate Foreign Relations Committee yesterday, and gave an interesting account of the condition of affairs in Cuba within the Spanish lines. His testimony was largely an amplification of what has already appeared in print. He confirmed the reports of the devastation of the island by the Spanish forces, and said that outside of the cities every house and hut within their reach had been burned and the fields laid waste. He gave an account of the execution at the Cabanas prison of a Cuban. whose only offence was that he had given water to Cuban soldiers who were passing

SCHOOLS AND ARBOR DAY.

This being the Jubilee year of the Normal School the Minister of Education has directed that Arbor Day be observed by planting three memorial trees. "The first will be in memory of the jubilee of our Gracious Sovereign; this will be known as the Victoria tree. It is appropriate that it should be planted by the representative of Her Majesty, and it is hoped that if Mrs. Kirkpatrick return in time she will kindly perform the ceremony. The second is to bear the name of the eminent man who founded and long administered the school system of Ontrito. Dr. Ryersom. Mrs. Hardy long administered the school system of Ontario. Dr. Ryerson. Mrs. Hardy will be asked to plant this tree. The third is to be called the Robertson tree, in memory of the first principal of the Normal School, and under whom the control of the second of the

this tree.

"It is expected that brief addresses will be delivered by the Minister of Education and others that appropriate songs will be sung by the students of the Normal School and pupils of the Model School and that many of our prominent educationists will be present on the occasion."
