Germany May Make Demand on Them.

Paris, Oct. 27.—The French foreign office received official notification today that Great Britain renounces the right of confiscation of German property in the United Kingdom. This has caused great surprise, which is freely expressed in French official circles, as there had been no previous intimation that such a move was probable.

French officials emphasize the gravity of this move, as they fear Germany will make a similar request of France, which, it is declared, could not be granted. However, they point Helmer, charged with the murder of James Learn on July 13 last. The jury were out out over two hours. Des Moines, Iowa, Oct. 27.—Iowa farmers today were urged to hold from market their commodities for the present, by E. C. Cunningham, secretary of the Iowa State Farm Bureau. He announced that he based his attitude on the recent changes in market prices of farm commodities and charged that markets have been manipulated.

"There is no justification for the decline in prices," he declared.

Mr. Cunningham said Iowa farmers were not "adverse to accepting their share of loss that must be shouldered.

RADIALS ARE DISCUSSED

Major Lewis and Major Kippen respectively Conservative and Liberal candidates in Northeast Toronto, became members of the G.W.V. A. last night, when they appeared at the North Toronto branch of the G. W.V.A. to explain the various planks

in their platform.

Major Kippen opened the meeting by saying that since Major Lewis was on the platform he wished the campaign to be conducted without "knocking" by supporters. He wished his supporters to play a clean game.

Major Kippen said he was out to look after the soldiers first, last and

all the time. He was standing as a straight Liberal candidate, but he was not party-bound on soldier questions, and considered that the claims of the man in the ranks were worthy of consideration and personally, he knew a great deal of the soldier problem. Regarding the gratuity question. Major Kippen said he was against handing out \$2,000 indiscriminately to any soldier, but thought that a man serial manager of the H. V. > POLICY OF SECRECY

London, Oct. 27 .- A new difficulty has arisen, delaying the complete settlement of the coal strike, which this afternoon was believed to have been attained on the basis of an increase in the miners' wages as set forth in the earlier announcement this afternoon. The difficulty is serious, as indicated by the fact that the cabinet has been summoned to meet early tomorrow morning before the conference of the niners and government officials re-

At the last moment the miners pre-sented a new demand, which compeled adjournment of the conference with the adjournment of the conference with the representatives of the government. Nothing has yet transpired as to the nature of the miners' new demand. The policy of secrecy regarding the agreement continued to be maintained, but apparently the objection of the miners was due to the fear that the agreement as drafted might have the effect of making permanent the application of the principle that wages are dependent upon output, and also to the idea that it might altogether preclude future nationalization.
