M^r. GEORGE WHITE,—

DEAR SIR,—With pleasure I inform you that the Threshing Machine is doing splendid work, and your engine cannot be competed with in this county. Last week we booked \$120, and not more than one day's threshing at one place.

MAIDSTONE, March 7, 1881.

M^s. GEORGE WHITE,—

SIR,—The engine we bought of you last summer gives us the most decided satisfaction. The little affair seems a thing of life; like a well trained animal, she is off at the touch, and continues on without jar or jingle, with a most surprising and well merited power. In a word, we consider our little steamer perfected perfection. Our engineer is an experienced one, has duly attended to its wants in care-taking, and our little horse has performed his part so well as not to have cost his owners so much as one cent as yet. All our customers are loud in their praise of our little steam horse. A due proportion of fire and water, with a little oil to smooth his joints, the little fellow will continue on his course, so smooth as to draw plaudits of praise and admiration from all who behold him. The sawing machine gives us entire satisfaction.

Yours truly,

JOHN & AMBOISE BUREAU.
