

II Month.

Spring. MARCH begins on Sunday.

March ! we welcome now thy reign,

While the early shoots appear,

Destined in fair Ceres' train,
To enrich the ripen'd year.

Snows that whiten'd o'er the lands,

Melt before the approaching ray ;

Winter bids his grisly band,

Onward hold its wonted way.

Earlier from the glowing east,

Now the ruddy streaks appear,

'Till the sun in Aries placed,

Weights in equal scales the year.
