CHAMPIONSHIPCommittee Appointed by St.
John League to Arrange Series
With Society League.

A meeting of the executive of the St. John baseball league was held last night in the Y. M. C. A. rooms. J. Steele was elected to the chair and there were present Messrs. Armour, and Thomas for the Portlands; Case and Harding for the Exmouth Y. M. A.; J. McBride for the Clippers and Messrs. Donald and Clawson for the Marathons.

A protest from the Clippers was referred to a special meeting to be held on the 20th.

A communication from R. D. Isaacs, offering a cup for the championship of the city, between the winners of both leagues, was accepted, and the thanks of the league sent to Mr. Isaacs for his generosity. A committee composed of Messrs. Donald and Clawson was appointed to act with a like committee from the Inter-Society League, to elect a chairman to be mutually satisfactory and to arrange the details of the championship series.

The league moved a resolution of sympathy to be sent to Roy Cooke, a member of the Portlands, who lost his brother on Sunday.

Messrs. Armour and Donald were appointed to reply to the letter of A. M. Belding in Saturday's papers, also to the Every Day Club committee, regarding other matters referring to the agreement.

The following schedule of postponed games was arranged: Wednesday, Exmouth and Marathons; Friday, Clippers and Portlands; Saturday, Clippers and Portlands.

ALL ST. JOHN TEAM FOR HALIFAX

Harry Ervin has chosen an all-St. John baseball team to take to Halifax for games there, and also likely to other towns. The names of the players chosen could not be obtained last night. The trip is not definitely arranged yet, but more will be known in a few days. St. John could turn out a strong team from the clubs now on the local diamond.

MARATHONS WON

On the Every Day Club grounds last evening, the Marathons and the Exmouth street team played an interesting league match, the former winning by the score of 5 to 4.

ST. JOSEPH'S WIN ANOTHER

St. Joseph's baseball team is keeping up their record of coming strong in the league. In their game last evening with St. Rose's they won 9 to 7. The race for second place promises to be close.

National League.

At Pittsburgh—First game: Pittsburgh, 2; New York, 7. Second game: Pittsburgh, 4; New York, 7.

At Chicago—Philadelphia, 6; Chicago, 5.

At St. Louis—St. Louis, 3; Brooklyn, 2.

At Cincinnati—Cincinnati, 3; Cincinnati, 2.

American League.

At Washington—First game: Washington, 2; St. Louis, 4. Second game: Washington, 2; St. Louis, 4.

At Philadelphia—First game: Philadelphia, 6; Chicago, 5.

At Boston—First game: Boston, 2; Detroit, 1.

At New York—New York, 9; Cleveland, 2.

Eastern League.

At Baltimore—Baltimore, 3; Jersey City, 2.

At Toronto—Toronto, 1; Buffalo, 4.

At Montreal—Montreal, 1; Rochester, 5.

At Newark—Newark, 5; Newark, 5.

BALL PLAYER MOBBED.

Jersey City, July 10.—In the ninth innings of the Providence-Jersey City game, with two out, Jack Cronin hit safely to left field, but in his eagerness to stretch his hit into an extra base, failed to touch first base and when the ball was returned Cronin was declared out by Umpire McTague. Cronin, enraged, rushed at the umpire and jumped on his legs with both feet, ripping his trousers and cutting the flesh badly. The crowd broke from the stands and rushed for the big Providence pitcher, prepared to mob him, and only prompt action by the police saved Cronin's scalp. President Powers, who saw Cronin's attack on the umpire, declared that it would be a long time before he would be permitted to play ball again.

McTague is a reporter of the Newark Star, who has been induced to take to umpiring by President Pat Powers.

SKULL FRACTURED BY BASEBALL.

New York, July 11.—Peter Joseph Jensen, 20 years old, of North Hackensack, N. J., died yesterday at his home as the result of a blow on the left temple from a baseball. Jensen and a few friends enjoyed a game before supper last night. He was struck by a pitched ball and rendered unconscious for a few minutes.

Jensen went home, had some water hazel rubbed on the bruised spot and

the Dangerous Time of Life

In between the years of fifty-seven and sixty-two, Nature's power shows in vitality becomes less, and the process of decay sets in. A means of extending old age and renewing decreasing vigor is to take Ferronze after meals. Ferronze keeps up the appetite, and in the formation of red, vitalizing blood, imparts clearness to the tiring brain, force, energy and spirits just when they are needed most. To take Ferronze regularly means adding from ten to twenty years of life. Large boxes 50c, or 6 boxes for \$2.50 at druggists or Polson & Co., Kingston, Ont.

THE MARITIME CIRCUIT

Next Race Meeting Will Be Held
at Moncton on Friday and
Saturday.

The next turf meet will be at Moncton on Friday and Saturday next. The strings owned by Fox and Brison which have been quartered at Moosepass will leave for the railway town today. The Pink Free stable's string passed through the city on Saturday en route to Moncton. E. Ireland, driver for Brison, has been here for a day or two and will accompany the horses.

Fred. Duncan took his horses direct from Sackville.

The meet at Moosepass will be held on Wednesday and Thursday of next week.

SHOULD NOT
DISCREDIT UMPIRE

The ball player who attempts to discredit an umpire with patrons by panhandling his disgust at a decision should be forthwith ordered from the field and the umpire who condones this grievous offense should be discharged as soon as his successor can be secured, says the Sporting News. It is not uncommon for a pitcher to cut a pigeon wing around the slab if a ball is called when he is of the opinion that the ruling should be a strike, or for a batsman to toss his bat in the air when penalized with a strike when he thinks that a ball should be called against the pitcher. Recently a pitcher of a visiting team at a local park, who had excepted to the calling of a ball, placed his hand on his breast, inclined his head and mockingly said "Thank you" to the umpire, when his next offering was adjudged a strike. A player-manager, who was on second base when one of his players was declared out on strikes, clapped his hands in derision of the league's representative. The third baseman of the same team yelled at the umpire, who called "Strike three, you're out," when an opponent was the victim: "That's the sixth he's had." How can discipline be maintained, when disrespect for the umpire goes unrebuked and unpunished?

How many major league umpires enforce presidential orders to stop cheering, criticism or censure from the bench? It is not difficult to detect offenders, for the voice of each is easily distinguished, but it is not unusual for the chorus to be in full blast throughout an inning without even an official attempt to check it. Ball players who complain that umpires have too much authority, continually go beyond the limit of baseball law when the representative of a league is lax in the discharge of his duties. All the disorder and disturbance that occurs on a ball field is due, primarily and directly, to the failure of the umpire to enforce the rules. Players will be more tractable and the game cleaner and more enjoyable, when league presidents and umpires to strict action for failure to impose the penalty for every offence immediately on its commission.

THE RING

LITTLEJOHN HEARD FROM

Dan Littlejohn called at the office of this paper this morning and left the following challenge:—

St. John, July 14.

To the Sporting Editor:

I hereby challenge the winner of the round bout between Mike (Twin) Sullivan and Tom Foley, which is to take place Wednesday night, the 15th, to take place within a reasonable time.

DAN LITTLEJOHN.

LOOKING INTO THE
SHAD INDUSTRY

Professor E. E. Prince, of Ottawa, Dominion commissioner of fisheries, and S. P. Morrison, of Poly Village (N. S.), who were recently appointed to investigate the shad fishing in the upper waters of the Bay of Fundy, arrived in the city yesterday from Digby. They will remain in St. John several days making enquiries in connection with their work.

Professor Prince said last evening, the commission was appointed about a month ago on account of the decline in the shad fishing. Their investigations would be confined for the most part to the coast of Nova Scotia, but on account of the importance of the shad fishing in the St. John, they had come here to make some enquiries.

PERSONALS

J. D. Frier, of Sussex, was registered at the Dufferin yesterday.

W. J. Shannon, of Annapolis Royal, was registered at the Victoria yesterday.

J. A. Harding Price, of Boston, son of George Price, of H. M. Customs, is on a visit to his parents' home here. His brother, George Price, Jr., of New York, is here also.

Miss Alice G. Jardine, who has for more than a year been with her brother, Graham Jardine, manager of the east end branch of the Royal Bank of Canada in Vancouver (B. C.), is spending a few days with friends in the city before returning to her home in Hexton, Kent County.

G. S. Harris and C. H. Edgett, of Moncton are at the Victoria.

Miss Grace Moore, of Providence (R. I.), is visiting her aunt, Mrs. C. W. Stockton, at 22 Clarence street.

R. A. Irving, of Buctouche and W. D. Carter, of Richibucto, were at the Royal Monday.

A PRIZE DOG

Pat Ryan has now in his possession an Irish terrier bitch that will be a prize winner in the next dog show here. She has all the points and color. She was brought here from Belfast, Ireland, and has a splendid pedigree.

Joseph Watts fell out with his wife at dinner time yesterday and so great was the falling out that the stock of dishes was demolished. Police Sergeant Baxter was called into the house to quiet matters but the trouble was renewed on his departure. On his second visit he took Watts in charge from his wife, who alleges he was drunk and disorderly and that he destroyed a quantity of deft.

THE EXHIBITION

Management Makes an Important
Change in Season
Ticket System—Plans For
the Opening.

At a meeting of the executive of the Exhibition Association last evening, it was decided to make an important change in the system of issuing season tickets. This year a book containing six admissions will be obtainable for \$1 and the coupons will be transferable as long as not detached. By this concession a family party of six people, by buying a book can obtain admission to the exhibition instead of having to pay twenty-five cents each as on previous occasions.

Some consideration was also given at the meeting to arrangements for the opening ceremony and a committee was appointed to draw up a programme which it has been decided will have more attractive features than the programme of the past.

It is also the intention of the executive to rearrange and beautify the grounds in front of the buildings and render them attractive for visitors by providing a hand or some other form of entertainment which can be listened to while resting in the chairs.

The features for the entertainment have not yet been settled, but an attractive programme is under consideration.

The industrial committee, with W. S. Fisher in the chair yesterday afternoon, made an encouraging report on the prospects of receiving many interesting exhibits from manufacturers both in and outside the city.

A firm in Montreal was negotiating yesterday for a truck carrying exhibits and it is expected that quite a number of machines will be seen in motion. A subcommittee, consisting of Messrs. Stephenson and Myers was appointed to arrange for a supply of power.

SHOT DOWN MAN WHO
MADE HER A WIDOWMrs. Bartley Horner Likely
Mortally Wounded Her Son-
in-Law.

Northport, L. I., July 13.—Standing within a few feet of the spot where, a little more than two years ago, she shot and killed his aged father-in-law, Dr. James Weddell Simpson, a dentist, Mrs. Bartley Horner was shot and mortally wounded today by her mother-in-law, Mrs. Bartley T. Horner, the woman he made a widow.

Dr. Simpson's wife, from whom he has been estranged for many months, was near when the shot was fired, but she did not witness the shooting. Upon learning that it was her husband who had been wounded she refused to go near him, but his body above the head received word that he was to have his wound attended to. Mrs. Horner was later arrested and held in \$5,000 bail, while Dr. Simpson, with the assistance of two friends, made his way to Roosevelt Hospital in New York.

The bullet lodged in his liver and an immediate operation was performed to take the bullet out. The doctors said tonight that Dr. Simpson has only a small chance of recovery.

Statements from Dr. Simpson and from Mrs. Horner as to the circumstances attending the shooting disagree. The dentist says that he had received word that his wife intended to see him for a divorce and that he went to the Horner home to talk with her about it. He says he took the door-bell and, upon receiving no response, peered through the door pane.

He saw Mrs. Horner, who was alone, and he went to her. Then, Dr. Simpson says, Mrs. Horner grabbed up a revolver and shot him. The bullet hit him in the body above the head and he fell back against the door sill. A second shot was fired at him, he claims, but the bullet went wild.

Mrs. Horner does not deny that she did the shooting, but she claims justification. Through her lawyer, she says she told him that Dr. Simpson had several times called at the house and that his visits were very annoying. She says she told him that she would take the door-bell and when he refused to go she shot at him.

The shooting of Bartley T. Horner by Dr. Simpson aroused the countryside in December, 1905, and when the dentist was put on trial his wife turned against him and went so far as to take the witness stand against him. Mrs. Horner also gave damaging testimony against her son-in-law.

After the verdict of acquittal, Dr. Simpson resumed the practice of dentistry.

SIR CHARLES TUPPER

Canadians of all classes, irrespective of political sympathies, will be sure to heartily endorse the sentiments expressed in the following, which we find in the Vancouver News-Advertiser.

We congratulate Sir Charles Tupper, Bart., on having entered the eighty-eight years of his age, and on having done so with the vigor and energy of a man of 60.

Far past the allotted span, Sir Charles retains almost to the full those characteristics of a public man, who in his youth were so closely interwoven with the history of Canada. His "natural force is not abated," and he is today, as he was in 1867, a factor in the fortunes of the Dominion. Though he has laid aside the active participation in affairs which his age and energy have for several decades, his name and reputation stand yet as a power in the councils of the Conservative Party and therefore in the policies of the nation. Sir Charles may look down the vista of the years and feel that his talents have not been buried. As a Father of Confederation his name stands as one of that galaxy of statesmen which assured unity to Britain's greatest colony. His influence was profound in the inception of the Canadian Pacific Railway. In a word the name of Tupper is synonymous with the fortunes of the Dominion since its birth.

The following have been reported for carrying on a junk business in the city without a license: William Trotsky, Morris Kulevsky, Isaac Carl, Joseph Ross, Nathan Meltzer, Alexander Selek, John Epstein, Isaac Lavigne, Samuel Lavigne, David Baig, Simon Meltzer, Myer Perchuk, Abraham Freedman and Myer Budovitch. The reports represent the industry of Detective Killen.

Five Years' Hay Fever Cured.

Don't leave home—don't experiment—use Catarrhine—cure every case as quickly as it did Thomas Eaton, of Westwood, Ont., who says: "Five years I suffered from Hay Fever and had to leave this part of the country a month previous to the time of attack. Since using Catarrhine I have not been bothered. My cure is complete."

For Summer Catarrh, Asthma and Hay Fever, Catarrhine is guaranteed. Get it for \$1.00 from any dealer.

COINCIDENCE IN
CELEBRATION OF
GOLDEN WEDDINGRev. Dr. Kierstead Who Attended
Celebration Last Night Was at
the Wedding of Happy Couple
Half Century Ago.

In Waterloo street United Baptist church last evening, a large gathering of friends honored Mr. and Mrs. Thomas Graham, of Portland street, on their golden wedding. A happy coincidence was the presence of Rev. Dr. E. M. Kierstead, of Toronto, who, when but a lad, was present when Mr. and Mrs. Graham were married half a century ago, at Millstream, Kings county. Dr. Kierstead has been spending his vacation here and was greatly pleased to be in St. John at this particular time. He made a happy address at the celebration last night.

The gathering was in the vestry of the church, which had been nicely decorated. The industrial committee, with W. S. Fisher in the chair yesterday afternoon, made an encouraging report on the prospects of receiving many interesting exhibits from manufacturers both in and outside the city.

A firm in Montreal was negotiating yesterday for a truck carrying exhibits and it is expected that quite a number of machines will be seen in motion. A subcommittee, consisting of Messrs. Stephenson and Myers was appointed to arrange for a supply of power.

FEAR FUEL FAMINE
AGAIN IN THE WESTStocks of Coal Very Light at
Distributing Points—Rail-
ways Will be Unable to
Handle Any.

Winnipeg, July 13.—Reports from various parts of the west outline rather serious prospects in regard to a fuel supply for next winter. The railways last winter had abundant rolling stock owing to the light crop and there was never anything approaching a fuel famine in any of the provinces. This summer, however, owing to financial stringency which forbade the carriers carrying large stocks, and preventing them from buying in even at the time when it is already clear the railways are likely to be blocked in the attempt to handle the crop this fall, and in a normal year a fuel famine is inevitable. If, therefore, a severe winter follows, the situation may become serious.

THE EVERY DAY CLUB
WILL BOOM PROJECT
TO DAM MARSH CREEKClub Will Ask City Council to In-
vestigate Feasibility of Plan—
Seaside Sports Proposed.

At a meeting of the Every Day Club last evening, a resolution was adopted to memorialize the city council to have the proper officials investigate the feasibility of damming the Marsh Creek above the bridge, so that the basin of the creek might be used for bathing, canoeing, boating and fishing.

The club decided to change the date of its August sports from the 26th to the 22nd, so as not to conflict with the championships at Halifax. One result of the club's efforts for the past two seasons to boom athletics will probably be that St. John will be well represented at the Nova Scotia sports later in the present season.

It was reported last night that entries are coming in well for Thursday evening's sports here.

A proposal to hold sports and boat races at Seaside park some Saturday afternoon, in conjunction with the street railway was a committee appointed to consider the subject and report.

P. E. ISLAND CROPS

Rain Would be Welcome but Crop
Prospects are Excellent.

Charlottetown, July 13.—There have been bush fires in one or two sections of the P. E. Islands, but they have done no damage to growing timber. There has been no rain for more than a fortnight and the farmers are gathering in a record crop of splendid hay.

Crop prospects are excellent, but rain would be welcomed.

THAW TO SPEND THE
SUMMER IN JAIL

White Plains, N. Y., July 13.—Harry K. Thaw appeared before Justice Mills in the Westchester County Court here today for a hearing as to his right to a jury trial to pass upon the question of his insanity. He had been brought down from Poughkeepsie early in the day in custody of officers and accompanied by his counsel, Charles Morchauer and Roger Omar, a former chief of detectives of Pittsburgh, who has been active in his defense. A large crowd awaited the party at the court house.

HURT WHILE WRESTLING

Halifax, July 13.—Francis Burke, of the commissary department of the I.C.R., was taken to the Victoria General hospital in a dying condition, shortly before midnight as the result of sky-jarking in a car at North street station with William Perrin, an employee of the same department. The two men were wrestling, when Burke lost his balance and fell against some sharp instrument, receiving a severe wound in the side from which blood flowed profusely.

The injured man lapsed into a state of unconsciousness and was removed to the hospital where an operation was performed, but his chances of recovery are very slight. Perrin was arrested by the police.

A BRITISH EXPLORER
GOING TO SOUTH POLELieut. Shackleton of the
English Navy Making a
Second Attempt.

New York, July 13.—When Commander Peary boards his steamer Roosevelt, at Sydney, C. B., this week and starts on his expedition in search of the North Pole, an inter-national race to the utmost ends of the earth will be on. Peary hopes to carry the Stars and Stripes to the North Pole, while a British Antarctic expedition, commanded by Lieut. Ernest H. Shackleton, is trying to place the Union Jack of the British Empire at 90 degrees South.

Lieut. Shackleton and party left London July 31, 1907, on board the Nimrod, a steam barkentine. Shackleton is an officer of the British Navy, and before leaving London, King Edward bestowed upon him the Victoria Order. He was a member of the British Antarctic Expedition of 1902-03, under Captain Scott, and with his commander and another member of the party accomplished a sledge journey with dogs to a point 82 degrees, 17 minutes, south latitude. Peary reached a point 87 degrees, 6 minutes, North, on April 21, 1908.

Shackleton took with him a specially built motor sledge which he hoped to use in his polar expedition and a number of Siberian ponies in addition to a pack of dogs. Peary will use only Eskimos and dogs.

Before leaving London, Lieut. Shackleton was presented by Queen Alexandra with a British Flag to carry with him on his southern dash. About the same time the daughters of the American Revolution

BRYAN'S CONCEPTION OF
A PRESIDENT'S DUTIES

New York, N. Y., July 13.—William J. Bryan, the Democratic nominee for president, has written an article entitled "My Conception of the Presidency" for the July 18th issue of Collier's Weekly. Mr. Bryan says:

"If all who were at the wedding there are now in addition to the principals, only four survivors: Mrs. Wm. Sharpe, of Mill Stream, formerly Miss Mary Tilling, who acted as bridesmaid; Mrs. Driscoll, a sister of Mrs. Graham; Miss Graham, and Mrs. Watson, of Boston. During the last twenty years Mrs. Graham has conducted a grocery business in the city and is still in business in Portland street. Their one daughter, who is now Mrs. T. B. Dean, of New Haven, with her three children, is now visiting her parents.

For forty years Mr. and Mrs. Graham have been connected with Waterloo street Baptist Church, and for the last twenty years Mrs. Graham has been a deacon.

SYRIAN AND HIS YOUNG
BRIDE HAVE RETURNEDJoy in the Syrian Colony Last
Night Over the Return of Elop-
ing Couple.

There was rejoicing in the Syrian colony last night for the prodigal had returned, bringing with him his thirteen-year-old wife. The anxiety and bitterness of many nights was forgotten in the joy of the homecoming, and Sadié Zaidy has just passed her thirteenth birthday returned home the lawful wedded wife of George Moses.

The girl was getting along nicely in Grade III in school but her ambition was to reach higher and she announced her intention of wedding George Moses. Mrs. Zaidy had no objection to Mr. Moses as a son-in-law, but she considered the girl's youth.

The young people then took the matter in their own hands and left the city without giving any future address. They were accompanied by Joseph Bechara for the sake of appearances and they were first heard from in Amherst. Then a telegram was received from Yarmouth saying that the marriage had been arranged and that the young couple would return home for the maternal blessing.

The reception was held at the groom's home and the bride's relatives attended in force and all went merry as the marriage bell.

GOMPERS TO SUPPORT BRYAN

Lincoln, Neb., July 13.—Samuel Gompers, president of the American Federation of Labor, will support William J. Bryan in the coming presidential campaign. In political circles today this announcement overhauled all others, even the refusal of John W. Dillards, vice-presidential nominee. While Mr. Gompers' support was promised to the ticket, he specifically denied any present intention of taking the stump in the coming campaign. He left Fairview after fifteen minutes' interview with Mr. Bryan. At present it is believed that he will be no need for Mr. Gompers' service in an oratorical sense and Mr. Gompers does not expect to be called on to speak publicly at the campaign.

To stop any pain, anywhere in 20 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—Blood—pressure—that is all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly coax blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women, etc. get instant help. 20 Tablets 25c. Sold by all Druggists.

ARTILLERY INSPECTION

The Third R. C. A. will meet at 8 o'clock sharp tonight for muster by the D. O. C. All companies will be inspected by Colonel Benson, of Quebec, inspector of artillery, who arrived here yesterday and the right section of No. 1 Company will be inspected in gun drill.

Wednesday night at 7:45 the left section of No. 1 and the whole of No. 2 company will be inspected in gun drill after which officers and non-commissioned officers will be asked the questions for the year.

2 in 1
SHOE POLISH

"I tell you, boys, people are particular about the Shoe Polish they use that they ask me each night to be sure and use '2 in 1'."

It's easier for me, too, and you should see the smile I get in the morning.

At all Dealers
10c. and
25c. tins

tion gave Commander Peary a beautiful flag, made of silk, consisting of the Stars and Stripes surrounded by a broad field of white, to carry with him to the North.

Steamship Manchester Corporation, Capt. Heath, which sailed on Saturday night for Philadelphia and Manchester, took from here 1,080,000 of spruce laths to land at Philadelphia.

BRYAN'S CONCEPTION OF
A PRESIDENT'S DUTIES

New York, N. Y., July 13.—William J. Bryan, the Democratic nominee for president, has written an article entitled "My Conception of the Presidency" for the July 18th issue of Collier's Weekly. Mr. Bryan says:

"If all who were at the wedding there are now in addition to the principals, only four survivors: Mrs. Wm. Sharpe, of Mill Stream, formerly Miss Mary Tilling, who acted as bridesmaid; Mrs. Driscoll, a sister of Mrs. Graham; Miss Graham, and Mrs. Watson, of Boston. During the last twenty years Mrs. Graham has conducted a grocery business in the city and is still in business in Portland street. Their one daughter, who is now Mrs. T. B. Dean, of New Haven, with her three children, is now visiting her parents.

For forty years Mr. and Mrs. Graham have been connected with Waterloo street Baptist Church, and for the last twenty years Mrs. Graham has been a deacon.

Even in the enforcement of law, he is hedged about by restrictions. He acts through an attorney general (whose appointment must be approved by the senate), and offenders against the law must be prosecuted in the courts so that here again the responsibility is divided. In the making of important appointments, too, he must consult the senate and is, necessarily, compelled to exercise care and discretion. The most important requisite in a president, as in other officials is that his sympathy shall be with the whole people rather than with any fraction of the population. He is constantly called upon to act in the capacity of a judge—between the opportunities of those who seek favors and the rights and interests of the public. Unless his sympathies are right, the few are sure to have an advantage over the many, for the masses have no one to present their claims. They act only at elections, and then trust to their representatives to protect them from all their foes.

"Second, the president must have a knowledge of public questions and the ability to discern between the true and the false; he must be able to analyze the conditions and to detect the sophistries that are always employed by those who seek unfair advantages.

"He must possess the moral courage to stand against the influences that are brought to bear in favor of special interests. In fact, the quality of moral

courage is as essential in a public official as either right sympathies or a trained mind.

"A president must have counselors, and to make wise use of counselors he must be open to conviction. The president is committed by his platform, to certain policies, and the platform is binding; he is also committed to certain principles of government, and these he is in duty bound to apply in all matters that come before him. But there is a wide zone in which he must act upon his own judgment, and here he ought to have the aid of intelligent, conscientious and faithful advisers.

"There ought to be cordial relations also between the president and those who occupy positions of influence in the coordinate branches of the government, for our government is not a one-man government, but a government in which the chosen representatives of the people labor together to give impression of the will of the voters.

"But the presidency is the highest position in the world and its occupant is an important factor in all national matters. If he is a devout believer in our theory of government, recognizes the constitutional distribution of powers, trusts thoroughly in the people and fully sympathizes with them in their aspirations and hopes, he has an opportunity to do a splendid work; he occupies a vantage ground from which he can exert a wholesome influence in favor of each forward movement.

"The responsibilities of the office are so great that the occupant ought to be relieved of every personal ambition, save the ambition to prove worthy of the confidence which he has been given. He ought to enter the position without thought or prospect of a second term.

"While the president is in office he is heavy, and while the terms of office are exacting and exhausting, the field of service is large, and measuring greatness by service, a president, by consecrating himself to the public weal can make himself secure in the affections of his fellow citizens and can exert a wholesome influence for himself a permanent place in the nation's history."
