Hospital Fees.—The Toronto General Hospital, \$20 for a perpetual ticket; the Lying-in-Hospital, \$5 for six months.

LIBRARY.

The Library is already large and is being added to every session. Last session many new and valuable works by the best authors were procured, and the intention is to have a copy of every standard work on medicine and surgery, midwifery, etc.

MUSEUM.

Special care has been taken in regard to the Museum in order to make it useful not only to the members of the Faculty in the teaching of their respective departments, but also as far as is possible, useful also to the Student himself in getting up his work. Great expense has been gone to by the School, in procuring Skeletons, Preparations, Models, Apparatus, etc., and the collection is not surpassed by that of any Medical Institution in the Dominion. In fact, while irrespective of cost, nothing PRACTICALLY USEFUL has been omitted, the mere multiplying of specimens of no practical value has been studiously avoided.

A large number of specimens gathered from hospital and private practice has been collected during past years, which are used in illustrating the several lectures of the Course. A considerable number of the very finest models and preparations, from Paris, have been this year added to the museum, and the collection is being constantly increased from year to year.

Students and friends of the School may help greatly to advance the interests of medical science, by contributing to the Museum, as many have already done, any interesting specimens they may meet with, in practice.

A printed Catalogue of the Museum is in course of preparation, and may be had on application; and the Curator will be in attendance at stated times, to give all required information to students regarding specimens and preparations.
