OFFERED WITH BACK FOR TEN YEARS

Men are the greatest sufferers from lame and aching backs owing to continual stooping, bending and so on necessary to perform their household duties. The cause of the backache comes from derangement of the kidneys, for there is not something wrong with the kidneys, but the back will be strong, well, and without a pain or an ache, if the kidneys will take out all the poisons, twitches and twinges, limping the stiff back, and give perfect comfort to all poor, weak, aching, suffering women. Chas. T. Deane, Church Point, writes: "For ten years I suffered my back, and was so weak I could do no washing or any hard work, a little round the house. One day I read of a man who had a little kidney pills, and they helped me so much after I had taken two boxes I do my washing and since then I have been in perfect health. My wife's kidneys are the original kidney pills. Do not accept any substitutes up under similar names. See that the oblong grey box, the trade mark 'Maple Leaf' is on the wrapper. Frank E. Deane, town moderator, tax collector and town council of Dudley, Mass., is dying as the result of self-inflicted bullet wounds. Apparently crazed by drink he shot and killed his son, Robert, and the latter's wife, and then shot himself."

MARY PICKFORD HAS A REAL ADVENTURE

Marblehead, Mass., Nov. 15.—Mary Pickford's new picture was staged in Marblehead Harbor in a manner so realistic that the "Queen of the Movies" might have lost her life. Miss Pickford enacts the role of a fisherman's daughter in a part of Marblehead Neck labeled Scotland. Angry because her father refuses his consent to her marrying, she leaves him and goes to an old vessel in search of her lover. The old fishing schooner Eddie Miner was accordingly sailing out of the harbor with Miss Pickford at the helm, the camera man hidden in the bow, and director Charles Tourneur and his assistants in the cabin. Far in the lead, at the end of a long towing line were two tugs. All went well until the fair skipper and her craft were about a quarter mile off shore. Then it was found that the old tub had sprung a leak—and this is no press agent's yarn. The people in the cabin rushed on deck. Miss Pickford's maid ran below to gather up her mistress' belongings, and the camera man shinned the mast to get one more picture before he perished. The heroine stuck to her post, and when Mr. Tourneur reached her the Eddie Miner's deck was awash and Miss Pickford was in water up to her waist. A group of spectators on shore looked on admiringly, thinking it was all in the play. Their unconcern was dispelled only when the fourteen persons aboard the schooner were seen getting into the boat. The author of the scenario, who was among the onlookers, knew there was nothing of this sort called for, and raised a cry of alarm. Motor boats put off, and all hands were brought to shore. All were drenched, but none of them appeared to be otherwise affected. Miss Pickford confessed that she was frightened. Just Rebut. Two doctors met for the first time at a reception. Both were famous, though each adopted a different system of treatment. Said the one, loftily, as he shook the other by the hand—"I am glad to meet you as a gentleman, sir, though I cannot admit that you are a physician." "And I," said the other, smiling faintly, "am glad to meet you as a physician, though I can't admit that you are a gentleman."

BASEBALL

Giants Made Big Money. New York, Nov. 13.—Conservative baseball men believe that the Giants made more money than any other major league club this year. The profits of the stockholders who pay the Giants salaries are estimated at about \$300,000. It is said that the New York club was on velvet—that is to say, enough money had been taken in to pay all expenses for the season—on July 4 and that the profits exceeded \$100,000 when the Giants began their record breaking run of twenty-six straight victories.

During that sensational streak, which took place at the Polo grounds, the club's profits reached \$200,000 additional, it is believed, so that the stockholders enjoyed their most prosperous year. The expenses of the Giants were enormous. More than \$100,000 was paid out for new players, the salary list amounted to \$120,000, it is said, while rent, taxes, traveling bills, advertising and other items consumed \$80,000 more. The total expenses and profits resulted from more than 1,600,000 paid admissions.

Minors Should Cut Expenses. Rock Island, Ill., Nov. 11.—Reforms in the direction of minor league baseball, especially as to business management, are recommended in a letter sent today to officers and members of the National Association of Minor League Baseball Leagues by M. H. Sexton, president of the association.

It is time for our members, from class C down to the major leagues, the letter concludes. "Dispense with high priced players and managers, cut down protracted training trips and seasons, reduce traveling expenses and hotel bills, extra park help and double umpiring, and get down to operation on a basis that revenue warrants."

HOCKEY

N. H. A. Season to Open on Dec. 27. Montreal, Nov. 11.—The National Hockey Association's season will begin on Wednesday, Dec. 27, and will conclude on Saturday, March 4, the N. H. A. having adopted the playing schedule at a meeting in the Windsor Hotel here today. The schedule will be played in two halves. The leaders of the first half will play off with the winners of the second half at the end of the season for the championship. Thus a club which gets off to a poor start may have a good chance to win the championship.

The single official system was adopted so the president can appoint either one man or two men for a match. The rule governing the throwing of a stick to prevent a goal being scored was changed, and now when a stick is thrown to prevent a goal being scored the referee shall allow a goal and face the puck at mid-ice. The point system, adopted last season, will govern the championship except in a tie the percentage rule will be applied to the games won and lost to determine the winners.

A complimentary luncheon was given to the retiring president, T. Emmet Quinn, and he was presented with a

Does Darcy Excel Ketchel?

Whether Les Darcy is a better man than Bob Fitzsimmons or Stanley Ketchel when in their prime is being argued now, writes Fred Keats in the New York Sun. One writer on the far coast points out that Darcy's record is more imposing than that of Ketchel and compares the men they both liked with the advantage in favor of Darcy's victims. When it is considered that Darcy has just turned 21 and takes the best care of himself it seems probable that if he is not a better man than Ketchel was he will be before he gets through.

But Darcy hardly can be compared to Fitzsimmons as yet. He will have to make a clean sweep of the heavyweights before it will be time to do that. However, it will be no great surprise if Darcy cleans up all the big fellows without much trouble as soon as he finds an opportunity to tackle the job. Barring Willard there is no one who should be too hard for Darcy. And even Fitzsimmons found Jeffries too big. Darcy, of course, is not the hitter that Fitz was, but he may be faster and more enduring. There is no way of telling how great this youngster will become as he continues to improve.

Edwards Won Title

Melbourne, Nov. 11.—Clew Edwards won the lightweight championship of Australia today in a 20-round bout with Herb McCoy. The match was fought brilliantly and went to the limit, Edwards winning on points.

K. O. Brown Wins Again.

Pittsburg, Nov. 14.—Knockout Brown, of Chicago, administered a severe lesson to Buck Cross in the final three rounds of their six-round bout here last evening, the Greek having the Pittsburg almost out in the fifth round and hanging on in the sixth.

Optimism in Yale Camp

New Haven, Conn., Nov. 14.—With the return of most of the hospital squad, head coach Tad Jones of the Yale football team on Tuesday marshaled his forces in preparation for the drive against Princeton on next Saturday. Baldrige, Galt, Taft and Jacques, who have been out of the game for some time, were expected to play with the varsity against the scrubs on Tuesday afternoon.

It is planned to have hard scrimmage work until Friday. On this day the drill will be light, after which the squad will leave for New York to remain over night. The trip to Princeton will be made on Saturday.

Foster Rockwell and Jack Cates, former Blue stars, have joined the coaching staff. The return of Baldrige, Galt and Taft will have the effect of bolstering up the line which played poorly against Brown last week. Optimism pervades the Yale camp, notwithstanding the defeat administered by the Brunonians.

ST. PETER'S HIGH TEAM

Despite unfavorable weather conditions a large number of people were in attendance at St. Peter's high tea last evening. The games and amusements were generously patronized and a large number of supporters were served. St. Peter's Y. M. C. A. orchestra furnished music during the evening.
