PURITY ICE CREAM
Never out of place, at
dinner, at meals, in
between meals or even
at bedtime. That's why
parents never say "No"
when the kiddies beg for
it, for they know it is the
healthiest sweet that a
little boy or girl can eat.
It's made so well, and so
pure that's the reason.

INTERNATIONAL INTEREST IN BOAT RACE TOMORROW
Australia and United States Men in Crews Which Will Row On Thames—An Historic Event.
(By Associated Press.)
New York, March 28.—Over the four-mile course from Hammersmith to Mortlake on the Thames River, England, the rival crews from Oxford and Cambridge universities will renew their annual struggle for rowing honors, Wednesday. Eighty-two years ago the initial boat race between these two universities was a two-mile contest on the Thames at Henley, and Oxford was the winner. All subsequent races, however, were decided over a four-mile course. The following six races were contested during a period of seventeen years up to 1864. The first race which either crew rowed in the present style of eights without keels, and both used round oars, and sliding seats were introduced in 1873. Owing to a cessation of all sporting events during the war no race was staged from 1915 until last year, when Cambridge won by four lengths in 21 minutes and 11 seconds, excellent time considering the unfavorable conditions of wind and rain which prevailed throughout the afternoon.
In all, seventy-two races have been rowed by representative crews from these rival universities. Cambridge has won thirty-nine of them, Oxford thirteen, and the race has been a dead heat twice. On March 30, 1912, both boats were swamped during a storm, and the race was rowed over two days later, Oxford scoring a win.
This year international interest is added to the event, because an Australian, J. A. Campbell of Melbourne, is a member of the Cambridge crew, while the United States will be represented in the Oxford boat by E. B. Lohrop, who rowed No. 2 on last year's Harvard Varsity eight. Lohrop will bowl since that American collegians took part in the Cambridge regatta in 1909. John G. was No. 8 and Devereux No. 2, in the Oxford boat that year, and in 1909 Devereux rowed No. 6 for Oxford. Since that time Devereux Milburn has become more prominent as a polo player, and will leave for England to captain the American polo team in the international match at Hurlingham in June.
Speaking of Lohrop's winning a place on the Oxford crew, Coach Haines of Harvard recently said: "It is a very unusual feat. The principle difference lies in a mechanical factor, the length of stroke. We use a long stroke, while they use a short one. The result is that the English have to use the body for the drive, while we use the legs. It is comparatively simple for a man to make the change from long stroke to short, but it is not so easy to change from short stroke to long."
Another factor which increases interest in the race on the part of Americans is the fact that one of the crews which row tomorrow may accept the invitation extended to both Oxford and Cambridge to take part in the Foughkeppie regatta June 22.
The crews are exceptionally heavy this year, and if they maintain the order in which they are named they will constitute a new record in this respect. In 1914 Cambridge averaged 177½ lbs. a man, the heaviest up to date. Cambridge shows an average of 181 lbs., and Oxford 178½, according to the latest available statistics.

SPORT'S PLACE IN EDUCATION
Eminent Educationists and Sportsmen on Ontario Educational Association Card
Spartanmen will find much to interest them in the program of the Ontario Educational Association, which opens here next week. The association is convinced of the necessity of sport in education as the program states:
"Athletics in the Life of a People" will be the subject of an address at the Convention Hall, University of Toronto, by Principal Dr. Bruce MacDonald, Principal of St. Andrew's College and President of the Canadian Association of Principals. Mr. MacDonald, C. C. B. C. M. G. D. S. O., commandant of the Royal Military College, will speak on "Ideals in Sport" and a motion picture entitled, "Demonstrating the Coaching of Boys in Track Athletics" will be shown. The picture was posed by Walter Knox, George Goulding, "Bobby" Kerr, Jack Tait and other equally well-known athletes.
On Tuesday afternoon at 8 o'clock there will be talks of not more than fifteen minutes duration on the practical handling of each of the following branches of high school athletics: Football, H. C. Griffiths, B. A. Ridley College, St. Catharines; Hockey, W. E. Galle, M. D. F. R. C. C. formerly honorary coach of the University of Toronto team; Track Athletics, G. M. Brock, B. A. Secretary-Treasurer Western University Athletic Association, London; Swimming, A. L. Cochran, President Royal Life Saving Society; Boxing, E. A. Chapman, Physical Director St. Andrew's College.
After the brief talks as outlined above an adjournment will be made to the gymnasium floor of Hart House, where a practical demonstration of the coaching of schoolboys will be given by members of Canadian Olympic teams.
There will be demonstrations of coaching schoolboys and girls in indoor baseball, boxing, track athletics, basketball, volleyball, swimming and diving.

STRONG FOR CLEAN AMATEUR SPORT
Addresses By Principal of St. Andrew's College and General A. C. MacDonnell.
Toronto, March 28.—Urging the importance of clean amateur sport, not only to young men and women, but to the community and the state, Rev. D. Bruce MacDonald, principal of St. Andrew's College, Toronto, and president of the Canadian Amateur Athletic Union, and Major General Sir A. C. MacDonnell, K. B., commandant of the Royal Military College, Kingston, Ont., addressed the opening gathering of the Ontario Educational Association, at its annual convention here last night.
Their advocacy of the encouragement of sports by school teachers was sympathetically received. Both speakers deprecated commercialized sport.

VIVIANI ARRIVES IN NEW YORK
New York, March 28.—René Viviani, former premier of France, arrived here today on the shipship Le Lorain on a mission of courtesy to President Harding.
MINERS ASK POOLING OF RECEIPTS AND PAY
London, March 28.—The coal miners have decided to fight the question of a national settlement of mine wages. This means that they want all the mine receipts pooled, irrespective of the actual profits of the various fields, and also want their wages paid on a national scale, irrespective of the capacity of the various fields to earn that amount of pay.
The mine owners say that a national wage scale which does not take account of the earning capacity of the various fields would be an economic impossibility, and the result would be the closing down immediately of the unprofitable fields.
IN HIS NAME CIRCLE
At the second annual meeting of the In His Name Circle of the King's Daughters held last evening in the Guild hall, Miss Mary Thorne read the secretary's report. The work of the year was reviewed and showed extensive activity on the part of the circle, which is composed of nineteen members. The treasurer's report showed receipts amounting to \$149.97. The retiring leader, Mrs. E. E. Thomas, was in the chair.
The election of officers resulted as follows: Honorary leader, Mrs. George Dahart; leader, Mrs. F. K. McArthur; first vice-president, Mrs. C. J. Stammers; second vice-president, Mrs. A. M. Stillwell; secretary, Mrs. R. C. Thomas; treasurer, Mrs. Guy Smith; house committee, Mrs. H. J. Murchum; hospital committee, Mrs. J. A. Johnston; spiritual committee, Mrs. Needham and Mrs. F. K. McArthur; ways and means, Mrs. E. E. Thomas; press, Mrs. F. L. Kipp.
NEW HAVEN WAGE CUT.
New Haven, Conn., March 28.—Reduction of wages of shop employees on the New York, New Haven and Hartford Railroad, to the schedule which prevailed prior to the last decision of the federal wage board, were announced today.

MORNING NEWS OVER THE WIRES
The River St. Lawrence is clear of ice from Montreal to the sea and it is expected that many freighters will have their original route on the Atlantic seaboard changed to Montreal. It is said that the river has opened up a month earlier this year than it has for the last decade.
Edmund Bigham of Pamplona, South Carolina, was convicted of the murder of his mother, brother, sister and the latter two adopted sisters by a jury yesterday. He asserts his innocence.
Nearly a score of buildings in Moncton were afire at one time yesterday. The warehouse and machine shop of the Record Foundry and Machine Co. were completely destroyed, some damage was done to the houses of George Allen, F. M. Tennant and houses were on fire in Lower Lutz street, Robinson street, and in Westmount street. There was a very high wind blowing at the time and only the prompt work of the fire department prevented a serious conflagration. The total loss aggregated nearly \$100,000, partly covered by insurance.
Damage to the extent of \$85,000 was done by fire in the St. Andrew's curling club building in Montreal yesterday. The damaged section was made up of bachelor apartments.
Grant Hall, vice-president of the C. P. R. held a conference yesterday with the Yarmouth board of trade regarding improved railway and steamship service. Asked whether the company would put another steamer on the Digby-St. John route while the Empress was being overhauled, Mr. Hall said they were endeavoring to secure a steamer now but it was difficult to get one for so short a charter, as the Empress would be off the route only about ten days. He also said that the establishment of a car-ferry service between St. John and Digby was inadvisable because of the tides in the Bay of Fundy.
