CHESTS OF SILVER GIFTS—LAST EVENING TO GROOMS-TO-BE

The presentation of two chests of silver attended a double bachelor dinner at Barker's, Loch Lomond, last evening in honor of R. D. Harrington and J. Warren Nugent. Both are soon to be married. The chests were presented by several of their friends assembled last evening to honor them prior to the events. Heartiest congratulations were extended and each was made the recipient of a chest of silver, the presentation being made by Wm. M. Ryan. The bridegrooms-to-be responded fittingly.

At the dinner table C. A. Owens presided. The toast list included: "Our Country," proposed by Dr. Cronin, responded to by Glenora H. Allan; "The Legal Profession," proposed by L. A. Conlon, responded to by W. M. Ryan; "The Medical Profession," proposed by Dr. Louis Fleming, responded to by Dr. J. R. Nugent; "The War Veterans," by Leo Harrington, spoken to by J. G. Dryden and Wm. McIntyre; "The Ladies," proposed by Joseph Dwyer, replied to by E. J. Hemmehy, who was master of ceremonies of the dinner. In an enjoyable musical programme, M. T. Morris and Bruce McKinnon took part. The dinner afforded much pleasure to those present, who returned by motor some time after midnight.

VICTORY FOR DIRECT ACTION ON FIRST VOTE IN GLASGOW CONGRESS

Glasgow, Sept. 9.—The proponents of direct action for the enforcement of labor's demands won a victory on the first vote relating to the subject, which was taken by the Trades Union Congress here at today's session. The parliamentary committee's report was referred back to it because it did not express an opinion on direct action, the vote being 2,836 for the motion to refer and 1,378,000 against. The motion to refer the report back to the committee was made by Robert Smilie, the miners' leader.

G. H. Stuart, Dunning, secretary of the Postmen's Federation, who is presiding over the congress, declared that the vote on the motion did not preclude the bringing up later of a definite resolution on the subject.

The vote is regarded as tantamount to a vote of censure of the committee. Among the resolutions adopted today by the Trades Union Congress was one in favor of the policy of free trade. Another resolution pledged the congress to support the unionized actors in their efforts to unionize all British amusements.

EVIDENCE IN GUELPH CASE INTERESTING

Major Hirsch Recalled to Stand—Letters Missing From File

Ottawa, Sept. 9.—The first witness called when the inquiry into the Guelph Novitiate charges was resumed this morning was Major Hirsch, who was recalled by Mr. Ferguson. Questioned as to letters missing from his file, he said that Colonel H. B. Smith, acting D. O. C., was at that time his superior officer and with him he discussed the missing letters.

Mr. Ferguson's question as to what transpired between the witness and Colonel Smith was objected to by Mr. Justice Middleton.

Mr. Newcombe—"Is it not common knowledge now that these letters were removed by Col. Godson-Godson?"

Mr. Ferguson—"I am not going to call to the stand as my witness a man I may be accusing of wrongdoing?"

Continuing Major Hirsch said the letters removed were written on June 6, 1918, but the ones produced in court did not seem to be the same. The letter told him to clean out the Guelph Novitiate but to be particular not to let the people know that anything out of the ordinary was going on. The same night the witness had several telephone calls from MacAuley and was in close touch with him throughout. The time MacAuley telephoned him he seemed to think that everything was going along all right until Captain Hingston, a returned chaplain, interfered.

Hingston, that night, was a guest at the novitiate. Captain MacAuley also reported that the minister of justice had telephoned him to assist in his search and also leave the building. To this Captain MacAuley replied that he took instructions from Major Hirsch.

The witness replied that was right.

Captain MacAuley had been told by witness to hold two or three men recognized as defaulters, take them to a hotel at night and bring them before a magistrate in the morning.

General Ashton telephoned the witness later and told him the minister of justice was very angry about it. The witness replied, "naturally, his own son was taken."

General Ashton also told the witness to tell Captain MacAuley to desist in further action pending additional instructions. These instructions were received later. Throughout the whole incident at Guelph Novitiate that night the witness was in close touch with Captain MacAuley. To the best of his knowledge, MacAuley carried out the instructions given to him.

PROF. CURRIER HANGS HIMSELF TO BEDPOST

Taught History at Tech For 30 Years—Despondency Said To Be Cause of His Act

Winchester, Mass., Sept. 9.—Professor Charles Francis Currier, aged fifty-seven years, professor of history until recently at Massachusetts Institute of Technology for thirty years, an authority on American and European history, constitutional law and municipal and town government took his life by hanging himself to a bedpost in his room at his home, 1 Webster street.

Professor Currier had been a sufferer from mental illness for several years and had recently been under treatment at a sanitarium. The protracted mental infirmity caused his mind to give way and produced a state of despondency which his friends say led him to take his life.

Professor Currier's wife, Mrs. Florence M. Currier, found his room door locked on Saturday morning and on receiving no response to her calls, asked assistance from the neighbors. The police were notified and entrance to the bedroom of Professor Currier was effected from the piazza. The body was found hanging by a stout rope over the head bedpost.

CORN AND OATS WERE DOWN TODAY

Chicago, Sept. 9.—Sharply lower prices in the corn market today resulted chiefly from the unexpected bearish showing of the government crop report. The general selling which took place, however, was due more or less to prospects of a nation-wide strike of stockyard and packing house employees. Reports that owing to labor troubles freight was piling up in eastern ports tended likewise to weaken the corn market.

Opening prices, which ranged from 3-4 cent to 5-12 cent lower with September at \$1.61 to \$1.62, and December \$1.27 to \$1.29, were followed by a further decline in September and by moderate rallies in December and May.

Oats declined with corn. After opening 1 cent to 2-8 cents down, including December at 71 to 71-54 cents, the market displayed little power to rally.

Provision were down. Selling, however, was not aggressive.

FOR VOCATIONAL EDUCATION OF RETURNED MEN

Important Matter Taken Up At Meeting of Government in Fredericton

Fredericton, N. B., Sept. 9.—The provincial government continued its session here this morning. The session will continue this afternoon until the departure of the C. N. R. train for Woodstock as Premier Foster and Hon. J. F. Tweeddale will go to Woodstock for the St. John Valley Exhibition there tonight. They will return tomorrow morning when the session will be resumed.

A delegation waited upon the government in connection with vocational education for soldiers. The delegation was composed of Dr. C. C. Jones, chancellor of the U. N. B., Dr. W. S. Carter, chief superintendent of the St. John Valley Exhibition, and Mr. F. Peacock, director of vocational education. Major Caldwell and G. A. Boate, representing the federal authorities.

The delegation was heard in connection with the proposition to erect a building in connection with the U. N. B. for the education of returned soldiers, the dominion government to bear a proportion of the cost of equipment and building.

A committee was appointed to prepare a tentative plan of the building and equipment and costs. The delegation had been made by the shareholders of the Carquet and Gulf Shore railway to dissolve the legislation enacted by the legislature of New Brunswick at its last session concerning the railway. The legislation empowered the provincial government to call upon the railway to make certain necessary repairs and improve the train service.

Hon. J. F. Tweeddale has been appointed acting provincial secretary during the absence of Hon. Robert Murray in the west.

The appeal division, supreme court, met this morning with Chief Justice Sir J. D. Hazen, Judge White and Judge Grimmer presiding. Common motions were heard.

In Edson M. Wilson, appellant, and Chas. B. Wilson, respondent, A. R. Slipp, K. C., moved for leave to enter time to file factum. Leave to enter time to file factum till Oct. 1 was given.

In the City of St. John vs. F. Fred Belyea, L. P. Raymond moved that a time be fixed for hearing. The case stands till next sitting.

In the King vs. Edgar Barcham, D. Mullin, K. C., moved for leave to appeal. Judge Armstrong of the St. John county court having refused to reserve.

Argument was not finished when court took recess.

MAY WITHDRAW TREASON CHARGE IN GAILLAUX CASE

Paris, Sept. 9.—(Havas)—Various reports were in circulation today regarding the case of Joseph Gaillaux, former premier, who was under arrest for more than a year for charges of having had treasonable dealings with the enemy. Several of the newspapers report that the commission of inquiry of the high court, which has had the case under long investigation, has decided to issue a decree sending the ex-premier before the courts as was recommended not long ago in a report by the attorney-general.

Some of the journals add to this the report that the charges of treason against M. Gaillaux are to be quashed, not only the political charge itself but against the interior safety of the state. Certain newspapers go so far as to say that this would be equivalent to a veiled discharge, as the accusation would be covered by the Amnesty Act, thus rendering pleading useless.

IN WALL STREET

New York, Sept. 9.—Aside from nominal recessions in United States bonds and several of the popular oils, leading stocks moved to substantially higher levels at the opening of today's market. Shipping and equipment made initial gains of one to two points, but these soon were eclipsed by a ten point jump in Crucible Steel, and brisk rallies in Mexican and Pan-American Petroleum. Motors and their specialties also contributed to the strong undertone. Before the end of the first half hour Crucible extended its lead to seventeen points. Baldwin Locomotive meanwhile advanced seven, with a sharp rebound in United States Steel and affiliated shares.

'Noon Report.

The first uprush of prices accompanied rumors of a favorable turn in the labor situation. United States Steel rose 11-2 points and additional early features of strength included Bethlehem Steel, Republic Iron, American Locomotive, Marine Preferred, American International, Studebaker, General Motors, United States Rubber and American Woolen. Reactions soon set in heavy profit taking being attributed to traders who disliked the sensational movements of Crucible Steel. That stock fell back eight points and reversals elsewhere ranged from 1 to 3. Oils and steel equipments led another rally at noon.

MONEY, MONEY, WHO'S GOT THE MONEY, THE CHAMBERLAIN ASKS

Lots of Them Have it and They Are Handing Over Large Quantities in Return for Tax Receipts—Tomorrow is Last Day to Save the Discount

The crowd of citizens who are forcing their way into city hall with intention to register a protest against the size of their tax bills or to pay their bills, or to do both, is greater today than ever, although the money is flowing into the city treasury in a steady stream. Every one of them sighs and says that the taxes are high this year, but they all have the cash to meet their assessment.

All classes are represented in the line that stretches from the lobby into the chamberlain's office, and circles around the wall a step at the time until each is separated from the toll the city demands. The wealthier citizens pay their taxes early because the discount saving amounts to a tidy sum, and the poorer citizen does the same because he cannot afford to pay the extra five per cent.

Respective of race, religion, wealth or social standing, the population of St. John is divided today into two classes—those who can pay their taxes early enough to save the discount and those who will spend the next few months dodging the constables.

Occasionally a dodger is caught. One of the latter class who has wasted his substance in riotous living, who has succumbed to the temptation to buy a new car or a beef-steak or something equally expensive and who cannot dig up enough legal tender to satisfy the chamberlain stands for a moment at the entrance to city hall and watches the constables and the rest of the folk who are equally eager to get their hands on the money as they stand prepared to unrelentingly pursue him to the end of the earth. The constables are a few yards of the long green with the air that indicates that there is lots more where that came from.

Tomorrow the scene will be repeated in a grand finale of money splashing enthusiasm, when those who have resisted the temptation to pay before, and they can no longer resist the lure of the five per cent, when those who scraped together the last dollar of the needed amount are juggling their wads and when the thoughtless realize that Wednesday is the last day on which they can get under the wire.

Then comes the open season for delinquents, when the constables are armed with authority to bring in the game and the man who has not had his name written in the hall of fame with the rest of the moneyed class places around with the air of a frightened jack-rabbit every time one claps a hand on his shoulder. The constables are a kindly lot but they have families of their own to support, and a duty they are sworn to perform. The citizen who does not want to contribute to their support or go to jail will borrow the money from a friend or rob a bank or otherwise get the coin and hand it over to the civic representatives before four o'clock tomorrow afternoon.

25,000 Longshorem Quit I. L. U. In New York—Move to Oust Grand Lodge Chiefs by Shopmen's Council

New York, Sept. 9.—More than 25,000 men have withdrawn from the International Longshoremen's Association and organized the River Front and Marine Workers' Association at this port, because they are dissatisfied with the leadership of the I. They followed him to the Globe office, where they halted for a minute or so, and "boomed" the Globe. They resumed their march up Yonge street, continuing their shouts against the Globe, and finally dispersed without having engaged in any violence.
