MOSEY MUD TUR TLE SPEEDS UP.

"Here's comes Mosey Mud Turtle," you to give them to me fifty cent

"Well, I declare!" said Mister Bags. "All right," said Mister Bags. "I "The would be a good one to send after trouble. He's so slow he'd never bring it back. I wonder what he wants."

"All Fight," said Mister Bags. "If make it a dollar and a half."

"Thank you," said Mosey. "If you'll put them on, I'll skate home."

HIS SLUGGISH LIVER MADE HIM FEEL DROWSY AND TIRED ALL THE TIME

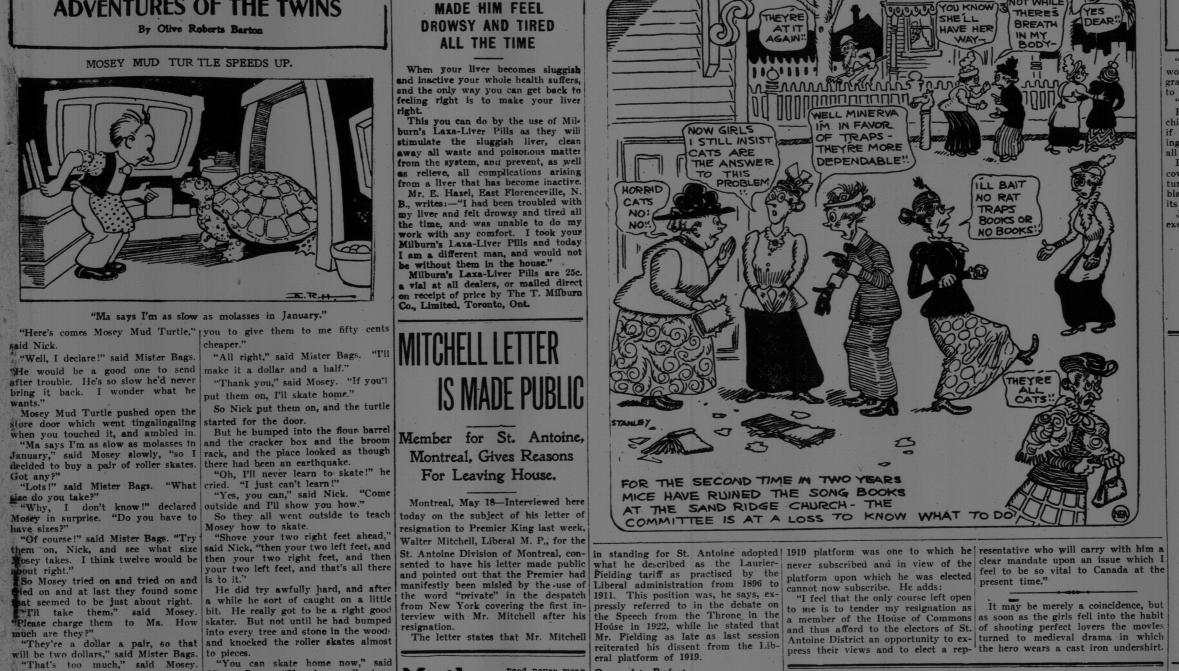

When your liver becomes sluggish and inactive your whole health suffers, and the only way you can get back to feeling right is to make your liver right.

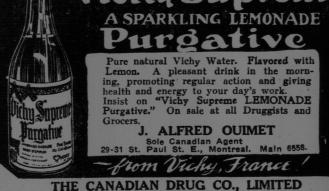

This you can do by the use of Mibburn's Laxa-Liver Pills as they will stimulate the sluggish liver, clean away all waste and poisonous matter from the system, and prevent, as well as relieve, all complications arising from a liver that has become inactive.

Mr. E. Hazel, East Florenceville, N. B., writes:—"I had been troubled with my liver and felt drowsy and tired all the time, and was unable to do my work with any comfort. I took your Milburn's Laxa-Liver Pills and today I am a different man, and would not be without them in the house."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**Baby and Exercise** 

"Going to be an athlete!" Mr. Mann would announce as the new baby grabbed his fingers and bravely sought to pull itself up.

"Gotta keep it exercised."

He did not realize that the normal child will get all the exercise it needs if left to its own accord Its squirmings and rollings and wrigglings are all the exercise it needs.

Each day the baby should be uncovered in a room of fitting temperature, and allowed to roll about on a blanket and kick its feet and throw its arms about.

Just before the morning bath this exercise habit can be encouraged—

after the baby is a month old, however. Care should be taken that the child is not chilled and if there is any shivering or sign of cold, a cover should immediately be procured.

When the child is able to stand the an exercise aid. After the first year there is no reason why play should not supply all the exercise needed.

The one thing to look after when this age is reached is that the child be watched on stairways and around fires.

The play spirit will keep any norma child well exercised.
