**Valuable Farm At Auction.**

**THE** Subscriber has received instructions to sell at Public Auction, on Monday, the 24th day of September at 11 o'clock, A. M., that splendid Farm, adjoining the Glenelg Bridge on the Digby-quash River, owned and occupied by Mr. WILLIAM POMEROY, and known as the ELM FARM; containing by deed 180 acres, but allowed to be 200. The farm is in a high state of cultivation, and under a substantial cedar fence, with abundance of Cedar.

On this farm there is one of the best intervals on the River, it cuts a large quantity of Hay, and is capable of being so improved as to cut much greater quantity. There is on the Farm a good dwelling House, a new Barn 80 feet by 30, and all the necessary outbuildings.

**At the same time and place:**

Will be sold,—all the farm stock and implement of husbandry, viz: one first rate Horse, three Cows four Heifers, two Calves, and nineteen Ewes and Lambs, all of the most approved breeds—a full bred Yorkshire Bull only four years old, bred from the stock of Mr. Edward Pleasant, two Waggon, Cows, Ploughs, Harrows, Cultivators, together with the Harness, and a variety of other articles.

—ALSO—

20 Tons of Hay, a large quantity of Oats, and other growing Crops.

**THE TERMS OF SALE,**

for the Farm, will be as follows:—Ten per cent. to be paid on the day of sale, 30 per cent. on the delivery of the deed, 10 per cent. on the first day of November, and the remainder in two equal annual payments from the day of sale, with interest, to be secured by bond and mortgage on the premises. For the Stock, and Farming Implements, 10 per cent. on the day of sale, and the remainder by approved endorsed Notes, with interest, and all articles purchased, and not paid for, on the day of sale, will be re-sold at the expense and risk of the purchaser.

**NEW PROSPECTUS OF THE Scientific American VOLUME THIRTEEN.**

TO MECHANICS, MANUFACTURERS, INVENTORS, AND FARMERS.

In announcing the Thirteenth Annual Volume of the Scientific American, which commences on the 12th of September, the Editors and Publishers embrace this opportunity to thank their numerous friends and subscribers for the encouraging and very liberal support hitherto extended to their journal, and they would again re-assure their patrons of the determination to render the Scientific American more and more useful, and more and more worthy of their continued confidence and good will. The undersigned point to no past as a guarantee of their disposition to always deal justly and discriminatingly with all subjects of a Scientific and Mechanical character which come within their legitimate purview.

Having entirely discarded the system of employing third parties to obtain subscribers, the Publishers of the Scientific American, propose to offer

**ONE THOUSAND FIVE HUNDRED DOLLARS IN CASH PREMIUMS.**

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858; said premiums to be distributed as follows:—

For the largest list, \$300; 2d, \$250; 3d, \$200; 4th, \$150; 5th, \$100; 6th, \$90; 7th, \$80; 8th, \$70; 9th, \$60; 10th, \$50; 11th, \$40; 12th, \$35; 13th, \$30; 14th, \$25; 15th, \$20.

Names of subscribers can be sent in at different times and from different Post Offices. The cash will be paid to the orders of the successful competitors, immediately after the 1st of January, 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit Twenty six cents extra on each year's subscription to pre-pay postage.

**TERMS.**—Single Subscriptions, 2 Dollars a year, or 1 Dollar for six months. Five copies for six months, 4 Dollars; for a year, 8 Dollars; Ten copies, for Six Months, \$8; Ten copies for Twelve Months, \$15; Twenty Copies, for Twelve Months, \$28.

For all Clubs of Twenty and over, the yearly subscriptions are only \$1-10.

The new volume will be printed upon fine paper with new type.

The general character of the Scientific American is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work, and all interest which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 500 to 600 finely executed Engravings, and Notices of American and European Improvements, together with an Official List of American Patent claims published weekly in advance of all other papers.

It is the aim of the Editors of the Scientific American to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combating and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

**HOUSES, LANDS, MILLS,**

And Privileges at the outlet of the DIGBYQUASH RIVER.

INCLUDING one handsome commodious MANSION HOUSE, and Out Buildings, with Grounds tastefully arranged and ornamented with forest trees, only a few rods from the salt water, with from twenty to two hundred acres of Land, Saw Mills, Elgers, Trimmers, Lath Machines, Wharves, Shipyards, Stores, Mill-Leaves, Smith Shop, several privileges on the River and large Brooks near by, suitable for various kinds of Machinery. Several small FARMS, with the Buildings, including three Islands under cultivation near to the same, with certain tracts of Cleared and Wilderness LANDS, which will be divided into lots to suit purchasers. There is an abundance of excellent Clay for Bricks near the shore, which, with the sale from the Mills, may be cheaply burned, and would find a ready market.

The above offers an excellent opportunity for those wanting Machinery, or those of any description on a very desirable stream for lumbering—where schooners and Boats can be loaded at the mills or wharves—those engaged in Shipbuilding, Shipping and Boasting—working at the Mills, for Mechanics, Brickmakers, Fishermen, and Farmers, who want to be near the sea shore on account of Measures and convenience to market, to secure their object.

Terms very liberal (it being desirable to build up the village), to be made known upon application (if by letter post paid), to
