BEEF INSTEAD OF BOOKS.

"Carnegie ought to buy beef instead of books. If he had given his work men more wages in the past he would not have so much money to give away row, and his former employes would be in a better condition."

This is the tribute paid to Mr. Carnegie by Ben. Tillett, president of the London Dockers' Union, who is in this country at present as the fraternal delegate to the recent convention of the American, Federation of Labor.

Mr. Tillett spoke at Hull House, Chicago, the other night, to an audience composed principally of trade unionists. The address was devoted to the growth and development of the social reform movement in England. Several comparisons were made between England and America. "The working people of your country," he said, "are not making use of half the opportunities are a hundred times greater than in my own country." This is the tribute paid to Mr. Car-
