HILMI PASHA

CONSTANTINOPLE, Feb. 14.—The constitutional regime has passed through a severe crisis which has resulted in the downfall of the aged grand vizier, Kiamil Pasha, and the complete triumph of the Young Turk party or committee of union and progress, which has virtually imposed upon the sultan a ministry of its own nominees headed by Hilmi Pasha.

The committee has publicly repudiated any intention of overthrowing the sultan or installing a military dictatorship, but the crisis and its outcome are regarded as not boding well for the stability of the throne or the success of the parliamentary government.

CONSTANTINOPLE, Feb. 14.—The sultan has accepted Kiamil Pasha's resignation as grand vizier and has charged Hilmi Pasha, minister of the interior and formerly inspector-general of Macedonia, with the formation of a new cabinet.

AMINOSITY IN ENGLAND TOWARDS GERMANY HAS ALL DISAPPEARED NOW

BERLIN, Feb. 13.—Chancellor Von Buelow is most hopeful of good results from the recent visit to Berlin of King Edward, and in this connection he today expressed himself as follows:

"The conversations between English and German statesmen held while the King was here have evoked sincere satisfaction on the German side and they justify the firm expectation that by the visit of His Majesty the King the confidence in the loyalty of both England and Germany and the understanding of the political attitude of both countries will be strengthened."

"I hope that public opinion, both here and in England, will follow the example of honest and pacific aims and sincere reciprocal understanding given by the rulers and statesmen of both countries."

"The discussion of the Balkan question revealed a far-reaching agreement both in regard to the endeavors of Great Britain and Germany for the preservation of peace and in the attitude of each government there is nothing on the horizon over which they can quarrel."

The endurance of the Anglo-German re-approachement, it is recognized, largely depends upon that between Germany and France, for in recent years the differences between Germany and Great Britain arose largely from Germany's supposed hostile attitude towards Great Britain's new-found French friends.

A Great Reception

LONDON, Feb. 13.—The reception London gives King Edward and Queen Alexandra never lacks enthusiasm, but the welcome their majesties received this evening on their return from Berlin was more remarkable than ever.

At the station to meet them were the Prince and Princess of Wales, Frederick, Duke of Wales, and Foreign Secretary Grey, while on the road to Buckingham Palace great crowds cheered enthusiastically.

The King, who was not looking so well as usual and was closely guarded by the police, had a few minutes' animated conversation with Sir Edward Grey, both of them showing

plainly their great satisfaction at the happy result of the sovereign's short stay in Berlin. The visit certainly has had a wonderful effect upon the minds of the British public and antagonism against Germany seems to have disappeared. Berlin's cordial reception of the King has paved the way for this, and communications have been given out by the British and German officials in which mutual satisfaction is expressed relative to the aims and foreign policies of the two governments.

How Long Will It Last

All this has been so sudden that the question is already being raised as to how long it will last. Diplomats who have been watching the situation closely are optimistic. They point out that British and German interests do not clash in any part of the world, that the bitterness between the two nations really arose out of jealousy over the affairs in the near east, the present cockpit of Europe.

DELAY NOW IN TRADE REVIVAL

Financial Experts Convinced

WEEK ON WALL STREET

Stagnation Reflects Growing Torpor of Speculative Spirit

NEW YORK, N. Y., Feb. 14.—The semi-stagnation in the stock market of last week reflected the growing torpor of the speculative spirit and the determination to await the clearer outline of the business future before entering on further stock market commitments.

The extreme dullness of trading proved not incompatible with a firm tone, from which it was inferred that owners of stocks were content to hold them for lack of opportunity to market them on favorable terms while awaiting a revival in business and speculative activity. The tenacity with which stocks were held and the small floating supply in the market which is a consequence, make the bear element timid about extending itself on the short side of the market. Such strength as last week's market showed, which contributed largely to the demand from the bears to cover short commitments, made the week before on a supposition that a pinch in the money market might follow the heavy depletion of the cash reserves of the clearing house banks, and also that the anti-Japanese agitation in California might afford subject for disturbance of the markets. As these suppositions were shown to be groundless the bears covered their shorts and prices rose. The transfer of cash from the clearing house banks to the trust companies' vaults, while it depleted the margin of the surplus reserve in the official figures, was so substantially by removing the dependence of the trust companies upon their deposits in the banks for their ultimate reserve requirements, that confidence in the position was correspondingly enhanced and credits accorded with corresponding freedom. Instead, the demand for credits is so meagre with prospect of continuance of this condition until more active trade shall develop and the forces of replenishment of reserves so confident.

The same confidence in the future of the market is reflected in the fact that the clearing house banks, which are the custodians of the banks, that any feeling of anxiety over money market conditions is prevented.

Financial opinion has settled down to an acceptance of a period of delay in trade revival. Returns from practically all departments confirm the halt in activity. The iron and steel business is held up pending the completion of the review of duties on imports. MISSOURI SWEEP BY TERRIBLE WIND STORM

New York Firemen Injured In Spectacular Fire

Celebration of Discovery of Lake Champlain

Menell's Health Is Good—Arrested by Wireless.

NEW YORK, Feb. 14.—Five firemen were injured, two seriously in a spectacular and perilous fire, which destroyed the sheds of the Pratt Oil Works, a subsidiary of the Standard Oil at the foot of North 12th Street, Brooklyn, late tonight.

The men were injured by the collapse of one of the walls of the blazing building.

BURLINGTON, Vt., Feb. 14.—The Roman Catholic diocese of Vermont has officially appealed to the clergy of that denomination throughout Vermont, New York and adjoining states, to assist in the celebration of the centennial anniversary of the discovery of Lake Champlain the first five days in July. New York is asked three days and Vermont two days for the observance. The Vermont celebration will conclude the programme and the little village of Isle La Motte, on the island of that name has been selected as the place for the culminating exercises. On this island is located the chapel of St. Anne, which is the scene of pilgrimages from all parts of New England each year.

VICKSBURG, Miss., Feb. 14.—The most severe storm of wind and rain experienced here in years prevailed for a half hour this afternoon, causing a property loss estimated at \$10,000. The office of the Vicksburg Herald was unroofed and a number of business houses sustained minor damage. Several negroes are reported to have been injured when their cabins were demolished.

CHESTER, Mass., Feb. 14.—His father lying in bed with a bullet hole in the right temple was the sight which met the eyes of the seven year old son of Arthur J. Bronson, when the boy went to the man's room to awaken him at the usual time today. Bronson had committed suicide some time during the night. Continued illness following an operation
