THE STAR ST. JOHN N. B., MONDAY, JULY 5 1909

EXAMINATIONS TO OPEN TOMORROW

140 Scholars to Take
Part

Examinations to be Conducted
in High School by
Wm. McLean

Preparations have been completed for the holding of the departmental examinations, which will open tomorrow morning at the high school building. There will be examinations for matriculation, normal school entrance, superior and leaving. In all about one hundred and forty scholars will write the examinations.

The are a number of medals in competition in these classes. The student who writes the matriculation examination will be awarded the medal of the high school. The student who writes the normal school entrance examination will be awarded the medal of the normal school. The student who writes the superior and leaving examinations will be awarded the medal of the superior and leaving examinations.

The examinations will be conducted by William McLean. There are thirty-six pupils writing the matriculation examination, thirty-seven normal school entrance, first class; 48 normal school entrance, second class; seven normal school entrance, third class; eighteen superior. The arrangements for the various papers are as follows:

W. S. ENTRANCES AND SUPERIOR.
Tuesday.
9:00—Assignment to seats.
9:30—Practical mathematics; B. and C. history, superior.
9:50 p.m.—English grammar, Latin, superior.
Wednesday.
9:00 a.m.—Arithmetic.
9:30 a.m.—Natural science.
9:50 p.m.—Algebra.
Thursday.
9:00 a.m.—Geography.
9:30 a.m.—French.
9:50 p.m.—Geometry.
Friday.
9:00 a.m.—Greek.

MATRICULATION.
Tuesday.
9:00 a.m.—Assignment to seats.
9:30 a.m.—English literature.
9:50 p.m.—English grammar.
Wednesday.
9:00 a.m.—Latin.
9:30 a.m.—Algebra and arithmetic.
9:50 a.m.—History and geography.
9:30 p.m.—Botany.
9:50 p.m.—Geometry.
Friday.
9:00 a.m.—Greek or French.

LEAVING.
Tuesday.
9:00 a.m.—Assignment to seats.
9:30 a.m.—English literature.
9:50 p.m.—English grammar.
Wednesday.
9:00 a.m.—Latin (Opt.).
9:30 a.m.—Chemistry (Opt.).
9:50 p.m.—Arithmetic and book-keeping.
Thursday.
9:00 a.m.—History and geography.
9:30 a.m.—Botany.
9:50 p.m.—Geography.
Friday.
9:00 a.m.—French.
9:30 a.m.—Algebra.
9:50 p.m.—Physiology.

Much interest is being demonstrated over the examinations. The large crop of candidates makes competition keen and high results are expected. Most of the candidates in the matriculation class are contemplating entering the University of New Brunswick at Fredericton.

LANDS ON TOP OF BUSINESS BLOCKS

Boston Aeronaut is Rescued
From His Perilous
Position

BOSTON, July 5.—The fire department was called out tonight to rescue an aeronaut who had fallen with his balloon on the business blocks on Washington street and was hanging over an alleyway between the seven and five story blocks at the corner of Washington and Milk streets.

An extension ladder was raised by the firemen and Joseph J. Cannon, aged 37 years, of 29 Howard street, was taken down unhurt. The man had made an ascension an hour earlier in a hot air balloon as the closing feature of a church fair in Cambridge. The balloon had floated across the Charles river and Boston common and becoming cooled dropped with its burden just as it crossed Washington street, where the cries of the aeronaut had attracted a large crowd.

MACKENZIE KING EARNED DEGREE

BOSTON, July 4.—Harvard College has conferred the degree of Doctor of Philosophy upon Lyon Mackenzie King, Canadian Minister of Labor, and of the class of 1888. The degree is not honorary, but was earned by hard work. Mr. King having left college before the work was finished in order to take up his duties in the Canadian civil service.

The world's most successful medicine for cholera, cholera, and diarrhoea, is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. It is invaluable for children and adults.

WIRELESS SERVICE FOR ARCTIC REGIONS

Young Man Named Gallant
Drowned in P. E. I.

Cyclone in the West Caused Several Deaths
—Fire Sufferers in Cobalt Suffer
From Exposure.

CHARLOTTETOWN, July 4.—While Alexander C. Gallant and his brother were in their sail boat on Saturday it sank without warning. Alexander was carried some distance away and as he had heavy boots and old clothes on, was unable to reach the boat and sank. His brother, who caught the boat, and held on was rescued in an exhausted condition.

WINNIPEG, July 4.—Despatches show that the cyclone which swept southern Saskatchewan, adjacent to the Manitoba boundary, wrought more damage than was at first thought. In the Gainsboro district, three persons were killed, and nearly half a hundred injured. Near Carleton Place several houses were completely destroyed and a little child killed.

EDMONTON, Alta., July 5.—The great lone land of the Arctic interior is shortly to be connected with the outside world by wireless telegraph if the experiment of the government expert, O. Noh, warrants it. A station will be erected at Peel River, 2,000 miles north of here, and from there messages will be despatched to Esquimaux, whence they will be relayed to Valdez, on the Alaskan coast, and from there through various stations to Vancouver. Mr. Noh expects to be able to open communication without erecting a tower, as there are hills in the vicinity upon which instruments will be placed.

OTTAWA, Ont., July 4.—Her Excellency Lady Grey and Captain Newton, A. D. C., are ill with scarlet fever at Government House. Both patients are making favorable progress. The disease was contracted during Lady Grey's visit to Toronto, on which she was accompanied by Captain Newton. It developed on the return journey on Thursday.

COBALT, Ont., July 4.—Suffering was intense last night among many of the homeless who preferred to spend the night sitting beside the remains of their belongings to taking refuge in shelters provided. The relief train arrived from Toronto at ten o'clock, and conditions are much better for tonight. The feeling against the city is becoming more intense, and this morning two celestial beings lost their lives at the hands of some infuriated Syrians who lost their effects in the fire.

NORTH STONEY, N. S., July 4.—According to reports from the chief Banks a new phase of the fisheries trouble has arisen that is likely to have serious consequences if persisted in. It is well known, a large fleet of fishing schooners from France annually come to the banks to engage in fishing, and as the problem of securing bait is frequently a serious one, the practice has been resorted to by a number of captains of these vessels, of boarding other craft, notably Newfoundland and Canadian vessels, and forcibly taking bait from them.

Their practice, according to the reports received here, to watch until the crews leave the vessels, and then to go to the vessels, overawe the skipper and the cook, who are the only persons in the vessel, and terrorize them till they allow the removal of the bait required. In several cases, however, the Frenchmen have met with resistance and been driven off the vessels they tried to plunder.

From the Text
(Tribune).
"Here, Benny," said Mr. Bloom-bumper to his young son, as the latter started to church, "are a shilling and a penny. You can put which you please in the contribution box."

Benny thanked his papa, and went to church.
Curious to know which coin Benny had given his papa asked him, and he replied, "Well, papa, it was this way. The preacher said the Lord loved a cheerful giver, and I knew I could give a penny a good deal more cheerfully than I could give a shilling, so I put the penny in."

BUSY DOCTOR
Sometimes Overlooks a Point
The physician is such a busy man that he sometimes overlooks a valuable point to which his attention may be called by an intelligent patient who is a thinker.

"About a year ago my attention was called to Grape-Nuts by one of my patients," says a physician of Cincinnati. "At the time my own health was bad and I was pretty well run down, but I saw at once that the theories behind Grape-Nuts were sound and that if the food was all that was claimed, it was a perfect food."

"So I commenced to use Grape-Nuts with cream twice a day and in a short time I began to improve in every way and I am now much stronger, feel better and weigh more than ever before in my life."

"I know that all of this good is due to Grape-Nuts and I am firmly convinced that the claims made for the food are true."

"I have recommended, and still recommend, Grape-Nuts to a great many of my patients with splendid results, and in some cases the improvement of patients on this fine food has been wonderful."

"As a brain and nerve food, in fact, as a general food, Grape-Nuts stands alone."

Look in places for a copy of the famous little book, "The Road to Wellville." "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

FROM DIANA'S DIARY.

As an Amateur Hawkshaw, Miss Dillpickle Gets on the Trail
of a Kidnapped Chee-Id.

By FRED SCHAEFER.

AFTER GLANCING FURTIVELY AROUND, HE CAUTIOUSLY EMPLOYED HIS BAG.

Ah, the scent grows stronger. I nearly found Chesteron Quince today. The crooks who stole him better beware. I was moaning along hither to see what I could find, when I saw a man going through an alley with a big gunnysack. He was a beetle-browed man with a damaged forehead, just such a man as you'd suspect of being a suspect. I was disguised in an electric blue raincoat and a white veil, so I had no trouble following him without him knowing I was Diana, the Demure Detective.

For many blocks I trailed him, my eye glued on the gunnysack. Perhaps the kidnapped child was in it. Sometimes I wanted to leap on him and pull his hair and scream. But that, I was afraid, would arouse his suspicions.

At last he reached an unfrequented spot. After glancing furtively around and seeing only me and several other parties, he cautiously emptied the sack. It was trash from some house-cleaning!

I accumulated four blisters on my feet for following that man, and nix on the reward thing.

I now surmise that young Chesteron is hid in some house. But not in a hotel. All the detectives are hanging round the hotels, smoking, looking black cigars in the lobbies during the impatient, nervous longings, for one thing, anything, to happen.

(Continued.)

LITTLETON, Mass., July 4.—Morris Gahlan used the fact that he lost his life by drowning while sailing on Long Pond today by the capsizing of his boat. His two companions, a young man and a young woman, were rescued by swimming. Gabriel left a widow and one child.

BOSTON, Mass., July 4.—George H. Grannis, a New York attorney, died last night at the Hotel Vendome, while on his way to the city to spend the summer. Attorney Grannis was 70 years of age.

EXETER, N. H., July 4.—Austin C. Coakley, the 16 year old son of Plumming Inspector Dennis H. Coakley, of Exeter, Mass., was killed today while stealing a ride on the Boston-Portland Express. It is believed that young Coakley leaped from out between two cars and had his neck broken when he struck an obstruction.

ST. LOUIS, Mo., July 4.—A serious fire, five fatally, and thirty seriously injured and close to one hundred hurt, broke out in the city of St. Louis at midnight tonight. The most serious accidents were due to the explosion of a gas cylinder, and the explosion of a gas cylinder.

DETROIT, Mich., July 4.—The drowning of four men brought a Fourth of July fishing excursion to a sad ending on the Detroit River today. The men were taken to the hospital, but the middle of the river and some of them attempted to change places in the boat, overboard.

PORTLAND, Me., July 4.—The thirty-foot motor boat Katherine M., owned by William H. Dugan, was contained in a collision with the ferry boat, the nine men, who were returning from Long Island, was struck near Peck's Island tonight by the ferry boat, the accident caused the death of one of the occupants, was thrown into the water and had his head injured by the fall. He was taken to a hospital and was unconscious for a short time. John F. Greene was also thrown into the water, but was not injured. Six of the men jumped aboard the Swamscott, which was sent for and the ambulance called out.

Dr. Barry was soon upon the scene and found his patient suffering from the effects of the burning acid, but in no way in a critical condition. The would-be suicide would not be taken to the hospital.

OTTAWA, July 4.—An official report of the crop conditions in Manitoba, received yesterday by the department of agriculture, from Dr. Saunders, director of experimental farms, states that crops throughout the province are looking very well and under favorable weather conditions are making rapid growth.

Dr. Chase's Ointment is a certain cure for all kinds of skin diseases, such as eczema, psoriasis, and other skin ailments. It is a powerful and effective remedy, and is used by thousands of people all over the world. It is a true and reliable medicine, and is a must for every household.

KAISER WILL SAIL NORTH

Not to Abandon
Summer Trip

Three Persons Are Named
as Successors to
Von Buelow

BERLIN, July 3.—In spite of the internal political situation Emperor William has decided to take his customary summer cruise in Northern waters, which it was recently reported he would forego. There is nothing in the situation that he cannot deal with by telegraph. He will leave for the North after visiting the King of Sweden at Sassenitz July 6, where the two monarchs will inaugurate a new telegraph line between Sweden and Germany.

Opinion in the higher political world is settling upon one of three persons to succeed Chancellor Von Buelow. These are Dr. Bethmann-Hollweg, Minister of the Interior, and Vice-Chancellor Baron von Rheinbaben, Prussian Minister of State and Finance, and Count von Wedel, Governor-General of Alsace-Lorraine. The report sent to America that Count von Schwarzenstein, the Ambassador to Japan, have been mentioned as possible successors to Von Buelow appears to have originated solely for American consumption. There is no knowledge of such a rumor in responsible quarters.

The Duchy of Cornwall is managed by a council of eight members, of whom the principal is known as Lord Walcott of the Stannaries. The present holder of this office is Lord Halifax of Burslem. Among former holders have been Sir Walter Raleigh and the late Prince Consort. Richard Brinsley Sheridan was at one time Receiver-General of the Duchy, and the great Lord Erskine was a former Attorney-General.

Thus, by inheritance and by ritual, by history and association, the duchy remains a great English institution, a royal estate.

SUNDAY BRINGS USUAL NUMBER OF FATALITIES

Premature Celebration of July 4th Adds to
the Excitement and the List
of Deaths.

HUNTING FOR BANDITS IN A WILD COUNTRY

RAINY RIVER, July 4.—The hunt for the bandits who robbed the Bank of Nova Scotia branch here was vigorous today. The two companies sent yesterday on the trail as soon as possible, a rough and dangerous country north of here where the robbers are believed to have their camp and where the difficulty of following them is so great that few can appreciate it who have not been to Maine to spend the summer. The bandits was lost in Muskoka Friday night and although Indian trackers have been searching, they have not been successful in securing further traces. However, bloodhounds have been telegraphed for and will be placed on the trail as soon as possible. Several expert detectives have also arrived to direct the pursuit. The international boundary and railways are being closely guarded.

The Gallivan with whom the bandits made their headquarters while in town is being closely watched also, as some of the authorities are not satisfied that he does not know more than they do about these elusive guests. Today he reported to the police that his house had been burglarized last night and a quantity of provisions stolen and gave the police a list of the stolen goods. This is the danger which constantly faces the police in the pursuit of the robbers. The robbers are thought to have planned carefully and to have a camp somewhere secluded in the woods where they may remain in hiding for a considerable period. If they do not know the country well, escape in woods would be impossible, as none can venture in there in safety without guides. This is the danger which constantly faces the police in the pursuit of the robbers. If they do not know the country well, escape in woods would be impossible, as none can venture in there in safety without guides. This is the danger which constantly faces the police in the pursuit of the robbers. The robbers are thought to have planned carefully and to have a camp somewhere secluded in the woods where they may remain in hiding for a considerable period. If they do not know the country well, escape in woods would be impossible, as none can venture in there in safety without guides. This is the danger which constantly faces the police in the pursuit of the robbers. The robbers are thought to have planned carefully and to have a camp somewhere secluded in the woods where they may remain in hiding for a considerable period.
