CAMPBELLTON HONORS REV. H. E. THOMAS.

Presented With Address and Handsome Chair on Eve of His Departure For Moncton.

CAMPBELLTON, July 3.-A pleas ant and enjoyable affair took place here tonight, as an expression of appre-ciation of the work of Rev. H. E. Thomas in the cause of temperance, on the eve of his departure from the town. The Campbellton Temperance Alliance, of which Mr. Thomas has been president since its organization, and the W. C. T. U. arranged a lawn social on the parsonage grounds, at which a large number were present. Ice cream and cake were served and a pleasant social time spent, after which the company repaired to the church. Rev. J. W. Keirstead was called to the chair, and after Blest Be the Tie That Binds had been most heartily sung, briefly stated that the object of the gathering was to offer a worthy tribute to a worthy man. Rev. R. J. Coleman, rector of Christ church, was called upon, and address-ed the gathering. He referred in ap-

Several other persons spoke, including some of the ladies of the W. C. T. U., all expressing hearty appreciation of Mr. Thomas' services, and wishing him and Mrs. Thomas every happiness in their new sphere of labor.

This part of the proceedings concluded, the chairman, Rev. J. W. Keirstead, rose and read the following ad-

HALF SICK PEOPLE

Just sick enough to feel heavy-heeled, lasy and listless; to have no appetits, to sleep heddy, to sing and tumbling about sometimes until 2 or 3 o'clock in the morning from one side to the other; restless and nervous, and to have what you eat feel like lead in your stomach; not sick enough to take to bed or call a doctor, but just sick enough to not know what to do. Ninesty-nine times out of one hundred these symptoms are all caused by the stomach, bow-els, liver and digestive organs. Just think for a moment what habitual neglect of the stomach, bowels and liver means; sickness instead of health, nervous and wakeful instead of restral and chearful. Now, all this can be remedied in one night. Smith's Pincapple and Butternut Pills will always work wonders. They will regulate the functions of the liver and bowels, immediately unload the congestion, care the constipation and cleanse the blood of impurities.

Anyone suffering from chronic constipation,

GIRL COMMITS SUIGIDE.

Had Long Talk With Her Lover, Returned to Her Work, and in Few Minutes Drank the Poison.

"Leave me alone; leave me alone," vere the heartbreaking words which broke from May Grass as she sank

downe House, and the man in question is Arthur McLean, mate of the tug Waring. What occurred at that interview is the crux of the whole case, but up to a late hour Wednesday neither Mr. McLean nor the tug

Waring could be located.

Mr. McLean has been going with
the young girl for a considerable time and from the steadiness of their friendship it was judged that the two were practically engaged. Certain it is that the girl had no other companions who occupied the same place in her affections as did Mr. McLean.

No word of disagreement between the two had been noticed, and their long talk last night was judged to be nothing out of the ordinary. Mr. Mc-Lean called quite early in the evening and the two remained together until

in the dining room smelling strongly of this acid. The bottle, however, could not be located last evening.

The girl was taken to the hospital, and died about 1 o'clock this morning without regaining consciousness. The case is particularly sad. Miss Grass was a pretty girl, of a nice diswhose distinguished virtues we must position, and but twenty-one years old. Her parents are both alive and live in McAdam, where Mr. Grass is employed in the C. P. R. shops. Miss Myrtle Grass was almost prostrated by her sister's tragic death, and can account for it in no way.

count for it in no way.

An incident which will bear strict investigation was the conduct of the two men in charge of the ambulance.

These men seemed to be strongly under the influence of liquor, and behaved in a most unseemly manner. They re-fused to carry the patient downstairs, and created noise and disorder of which drunken men are capable. When the girl was placed in the conveyance Mr. ustin, whose solicitude was unbo ed, got inside to go to the hospital and see that everything possible was done for the girl. He called to his boy Jack to go along on the driver's seat. One of the men knocked the lad off the seat and sent him sprawling in the street.

Naturally he did not care to risk another such reception, and Mr. Bustin had to go alone.

Dr. Berryman on his arrival at the house ordered the girl's room to be locked. It was ascertained, however, that no bottle of poison was in there. The yard beneath the dining room windows was also carefully searched, but not sign of a bottle could be found. The girl was unconscious when she arrived at the hospital. Her condition was such that her sister Myrtle was summoned to her side. She was accompanied by Mrs. Bustin, but when they arrived May could not recognize anyone. Her sufferings of course, were terrible, as the deadly acid did its work. The party remained in the hospital until all hope was gone, and then sorrowfully returned to the hotel.

An autopsy will be held later to de-termine the cause of death. A careful search was made among the tugboats in the harbor, but the Waring could not be located. Mr. McLean lives with his parents at 217 City

lives with his parents at 217 City Road, but enquiry there only elicited to Mr. Howard the deed of consecration, which was then read by him to supposed to be on board the Waring.

It now appears that while hundreds of theatregoers were watching a sham tragedy of unrequited love and consequent suicide, being played out on the Opera House stage for their edification, and while servous thrills were pulsated to Mr. Howard the deed of consecration, which was then read by him to the congregation.

In this way there was suggested the gratitude which is felt by the Church of England people to the C. P. R. for their kindness in granting the land.

In the evening the rite of confirmation was administered to four candidates.

Twenty-one clergymen and thirteen laymen were nominated for delegates. The following were the clergymen:

Dean Partridge, A. G. H. Dicker, Dr. Raymond, G. A. Kubring, C. F. Wiggins, Arch. Neales, Arch. Forsyth, Canon Roberts, Rev. J. R. deW. Cowie, Canon' Richardson, Scovil Neales, E. B. Hooper, C. P. Hannington, W. H. Sampson, H. Montgomery, R. J. Langford, G. F. Scovil, A. W. Smithers, R.

In each case there was another woman, who was ignorant of the grim tragedy which her betrothal was slowly bringing to a head. Still further the comparison holds. The lover leaves, confident that all is for the best and the heart he lightly passes by. For not until the next morning did Capt. McLeod, the counterpart of Nomon Louard in the tragedy of Madaline, learn of the girl's action.

After leaving May Grass on Tuesday night he went at once to his tug boat and proceeded to Indiantown, where he tied up for the night. In the morning he was told of the sad affair, but did not believe it till he secured a paper. He at once boarded a street oar and went to the Lansdowne house, where he saw the proprietor, Mr. Bus-tin, and asked eagerly for the particu-

THAT HIGHWAY ACT.

BURTON, July 3rd. To the Editor of the Sun:

Sir-Will you allow me space in your valuable paper to say a few words in regard to this new Highway Act? We were told when the machinery of this new law got in motion that we would see an improvement on our roads, something we need very much in this section of the country. Some days ago this machinery was started should have been in the school house, went over the road as fast as they the parish of Burton. There are two overseers with a salary. There are miles of back roads in this parish that must be used in the spring when the St. John river overflows its banks. In some places these roads are closed with bushes so it is almost impossible to get along. Under the old act the roadmas-ters in the different districts would get the men together and fix up bad Tilley: bridges, making all places passable as best they could. But we are denied the past has been left mainthat right now and must put up with hands of the clergy; and what we get until the electorate wakes up to the fact that unless they speak and make a change, before they know where they are they will be shut in

the same opinion as the writer of this epistle there would be a change of and government at the next appeal to the people of New Brunswick.

Four Facts For Sick Women To Consider

Lydia B. Pinkham's Vegetable Compound Has an Unequalled Record of Cures— Mrs. Pinkham's Advice Is Confulen tial, Free, and always Helpful

First.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful menstruation, leucorrhœa, displacements of the uterus, pain in the side, burning sensation in the stom-ach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds clergymen. Rev. Ernest Simonson read the report from the parish of Aberdeen, Rev. Mr. Gillies from Cambridge, Rev. J. E. Flewelling from Canterbury, Dean Partridge from the Cathedrai at Fredericton. All these churges were shown to be in good con.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, all uterine and ovarian inflammation, weakness and displacements, regulating menstruation perfectly and overcoming its pains. It has also proved itself invaluable in preparing for childbirth and the change of life.

THER.—The great volume of unso-licited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give ab-solute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very feolish if ahe does not take advantage of this generous offer of assistance.

Rev. Canon Richardson reported for St. John. The past year in the church had been one of progress. The attendance had perhaps been better than ever before. Between the years 1900 and 1904 the contributions to the church increased from \$1,810 to nearly \$2,600 The work of the Sunday school, though perhaps the most important, was the least satisfactory.

Rev. Mr. Sampson reported for St George's. He referred to a handsom Ludlow. He referred to some of the stained glass window lately placed in needs of the church there.
