DAMAGED

Important Judgment by Judge Crockett—Case of J. Eldon Wilson on Review—A Matter of General Interest—City Can Require Horns to Be Sounded at Corners.

In Chambers, yesterday, in the case of J. Eldon Wilson, on review, Mr. Justice Crockett delivered an important judgment upon the competency of municipal by-laws.

The defendant was convicted before the police magistrate of the city of St. John for failure while driving a motor vehicle in turning a street corner to sound a clear and distinct signal contrary to the city by-law of April 14th, 1915, to regulate street traffic in the city of St. John.

Notwithstanding the conviction, the respondent adds, only one-third of the 200,000 Belgians deported to Germany being permitted to return to their homes.

The war office reports: "Early this morning German troops carried out a successful raid south of Lens, capturing two machine guns."

Charges that Wool Growers Are Hogging Things—Plan to Control Cotton and Wool Prices.

Chicago, Ill., Jan. 9.—Prediction of a radical advance in the price of men's clothing charges that wool growers, not satisfied with an advance in the price of wool from eighteen cents to twenty cents, are already considerable turned on the ground.

The weather turned colder today and a heavy snow set in, making it difficult to move up snow drifts, rendering the movement of traffic still more difficult.

Notwithstanding the bad weather, the British machine keeps on working as enduring great hardships in the north, a bitter and driving snow for a long time, even though it may mean a renewal of intense hostilities.

In the first instance the victim was travelling home on a Montreal street car. She felt a jab in her shoulder and raised an alarm. A man who had been sitting behind her hurriedly jumped up and ran out of the car.

In the second case a girl fell unconscious from a seat in a local theatre. A man offered to look after her but when she awoke she was charged suspiciously, insisted on taking charge of the girl, and after medical examination it was found she had been doped.

She was displaying all the lights and markings required by the Hague convention. She was not and had not been carrying any so-called barred zone, as delimited by the tannetone issued by the German government on January 19, 1917.

THE PREMIER'S RETURNING TO CAPITAL

Sir Robert and Lady Borden Find Hon. Frank Cochrane Much Improved in Health—Premier Will Be in Ottawa Today.

New York, Jan. 9.—Sir Robert Borden, on route from Virginia to Ottawa, spent a busy day in New York today, in consultation with British and American officials.

He had cleared the political atmosphere and he was confident that Canada would continue to do her full duty in the war no matter how long its duration. Referring to the Canadian speeches of Mr. Lloyd George and President Wilson, Sir Robert said he was in entire accord with the principles enunciated, which left nothing more to be said.

See Mr. Cochrane. The Canadian premier has just left the hotel Belmont just after dinner to "clear up some odds and ends" of business before departing with Lady Borden for the Canadian capital.

Lady Borden told a Canadian Press representative that she and Sir Robert had spent a pleasant hour this afternoon in conversation with Hon. Frank Cochrane, former minister of railways in the late Borden cabinet, who has been undergoing special treatment at the Belmont. Lady Borden said Mr. Cochrane was bright and intelligent and apparently much improved in health. He hoped to be able to return to Ottawa this week, but owing to the rigorous weather conditions it was inadvisable for him to defer his departure for a few days.

Sir Robert and Lady Borden left tonight for Ottawa.

THE BILINGUAL SCHOOL QUESTION ONTARIO

Great Deal of Misunderstanding and Ignorance in Maritime Provinces on Subject, Declares Judge Savary.

To the Editor of The Standard: Sir.—There is a great deal of misunderstanding and ignorance in the Maritime Provinces concerning the bilingual school question in Ontario.

The writer learned French when about thirteen in a public school presided over by an accomplished French teacher. If he had used French as the medium of instruction he would have had a better command of the language than he has now. I believe that if the provisions of regulation 17 were extended to all schools in districts where conditions of race and language exist as in those referred to by the words "bilingual taught" and the use of the child's mother tongue as a medium of instruction for four years the French would be satisfied and reconciled and the present depopulation of the province would be averted.

FOUR FIREMEN ARE KILLED IN THEATRE

Chicago, Jan. 9.—Four firemen were killed and four injured, probably fatally, early today when the walls of a moving picture theatre at Chicago avenue and Leavitt street collapsed while they were fighting the blaze.

He was educated at Cheltenham, Harrow and Trinity College, Cambridge. He was ordained priest in 1864, becoming rector of St. Andrew's, Harrow, in 1868.

C. H. CAHAN, K. C., TO BE MARRIED

Former Nova Scotia Political Leader Will Wed Paris Lady

Montreal, Jan. 9.—Mr. C. H. Cahan, K. C., who was the Unionist candidate against Hon. Rodolphe Lemieux in the last general election, will be married to Miss Juliette Eliza Charlotte Hullin, Paris, France, at St. James' church, on Thursday, January 12. The civil marriage will be performed at the City Hall in the morning.

THE WOMAN BEHIND THE GUN.

She must keep the home fires burning, the little ones fed and clothed. Don't starve or stint the children. The perfect food for children, the food that develops sturdy, stalwart bodies, is Shredded Wheat Biscuit.

The whole wheat grain and milk are the most perfect foods given to man. They are better for children than meat or eggs. Shredded Wheat Biscuit is 100 per cent. whole wheat, nothing added, nothing wasted or thrown away. It is delicious for any meal with milk and fruits and costs but a few cents. Made in Canada.

French would ask for and undoubtedly get under analogous circumstances. The regulation allows that in schools where French had hitherto been taught, that is to say, prior to 1912, the school board may allow certain instructions (therein mentioned) in French reading, grammar and composition.

This rule of the province is a new school, formed by subdivisions of old sections, and says to new French communities springing up in hitherto unsettled portions of the province: "We cannot prevent you from coming here and bringing your religion with you, but you cannot bring your language with you. The magnificent French literature which your compatriots of Quebec have produced is not a sealed book to you. You can only for instance be fitted to enjoy and profit by the English productions in the transactions of the Royal Society of Canada." But what the French especially complain of is that the use of the French as the language of instruction is limited to such a short period of the child's school life that he cannot even learn English.

TO SUFFER FROM HEADACHE

Makes Life Miserable

Headaches seems to be habitual with many people. Some are seldom, if ever, free from it, suffering continually with the daily headaches, the intense pain, sometimes in one eye, sometimes in another, and then over the whole head, varying in its severity by the cause which brings on it.

The varieties of headache most common are sick or bilious headache, nervous headache, the one which constitutes, debility or indigestion and spasmodic headache, and undoubtedly the cause of each must be removed before permanent relief can be obtained.

Burdock Blood Bitters, that has been on the market for over forty years, removes the cause of the headache, and not only does this but also restores the entire system to healthy action and buoyant vigor.

Miss Emily Smith, 204 Bellwoods Ave., Toronto, Ont., writes: "I cannot speak too highly of Burdock Blood Bitters. For two years I was greatly troubled with violent headaches, particularly in the morning. I tried everything to cure me until a friend recommended B.B.B. I tried it, and now I am completely cured."

Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, go by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only way to get rid of dandruff is to dislodge it, then you destroy it entirely. To do this get about four ounces of ordinary liquid castor oil; apply it at night, when retiring; use enough to moisten the scalp and rub it in gently with the fingertips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dislodge and entirely destroy every single bit, and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid castor oil at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy cures dandruff.

FEEL FINE! TAKE "CASCARETS" FOR LIVER, BOWELS

Spend 10 cents! Don't stay bilious, sick, headachy, constipated.

Can't harm you! Best cathartic for men, women and children.

Enjoy life! Your system is filled with an accumulation of bile and bowels, liver and bowels cleansing you ever so gently, early today when the walls of a moving picture theatre at Chicago avenue and Leavitt street collapsed while they were fighting the blaze.

The death was laid indirectly to the recent blizzard. Firemen said that it was impossible to get more than one stream of water into play for some time because of frozen and snow-buried hydrants.
