MORE ABOUT NAVIGATION AIDS IN BAY OF FUNDY

Department of Marine Answers First Criticism of Capt. Finlay—Master of the Fanad Head Comes Back and Points Out How Some Real Aid to Navigators Might be Provided.

The following correspondence between Mr. McLean Kennedy, Department of Marine, and Captain Finlay in regard to aid to navigation in Bay of Fundy, sheds further light on the interesting subject:

What Department Says.
Ottawa, 30th December, 1920.
McLean Kennedy, Ltd.:
Sir,—I beg to acknowledge the receipt of your letter of the 21st instant, enclosing newspaper cutting, being letter signed by Capt. Finlay of the S. S. "Fanad Head," having reference to aid to navigation in the Bay of Fundy.

You will observe that the first part of Captain Finlay's letter deals with conditions at Partridge Island and elsewhere when he passed these stations one year ago. You will realize, I am sure, that no machine has yet been devised which is not subject to breakdown and repairs, and it is quite out of the question to maintain duplicate apparatus at all light stations to provide against an occasional temporary interruption for repairs. The lighting apparatus at Partridge Island has a value of perhaps \$20,000. The only means absolutely to provide against interruption would be to have a duplicate outfit and this is obviously unwarranted.

Admits Charge Justified.
With respect to the Larcher Lightship, unfortunate delay occurred as the result of being unable to complete repairs at Yarmouth. It seems that the Marine Railway there was inoperative owing to a deposit of mud and it was expected from week to week that it would be cleared and that the repairs would be made. But finally as the winter season at St. John approached, hope in that regard was abandoned and that vessel was brought to St. John for underwater examination.

Boys Won't Stay Put.
With respect to buoys, your knowledge of conditions will satisfy you that it is quite impossible to maintain all buoys in position at all times. For example, the Superintendent of the Lights, reporting on these matters says: "We have always experienced great difficulty in maintaining these aids, more particularly the Blonde Buoy. The Blonde Buoy is in 18 fathoms of water, with 75 to 90 fathoms of Admiralty test chain, but it generally breaks from its moorings three or four times a year. We have tried and will keep trying every available means to maintain these two buoys in their proper positions."

Other Aids.
I am enclosing a statement showing other aids to navigation in the neighborhood of places referred to by Captain Finlay. A reading of this statement must make it apparent that the Government is taking every reasonable means to make navigation safe. While one aid to navigation, for example, the Blonde Buoy, may be temporarily carried away by storm, there are other aids to navigation in the neighborhood by which masters of vessels may direct their courses. Furthermore, when any particular aid to navigation is not functioning, wireless advice to that effect is sent broadcast twice daily from the Barrington Radio station, so that masters of vessels may prepare themselves to rely upon other aids to navigation in the neighborhood.

Drew Sent For Trial In March

Prisoner Alleged to Have Held up King Cafe Will Also Appear Before Circuit Court.

Three prisoners were sent up for trial before the next sitting of the Circuit Court in March by Magistrate Ritchie yesterday.

George Drew was sent for trial, charged with a very serious offense against Pearl and Evelyn Northrup on December 25. No further evidence was adduced, Drew diagnosed with the reading of that already adduced. When asked if he wished to make a statement he replied: "I have nothing to say at all."

In the case of John Deuchwitz, aged 17, charged with using threatening language to Charles Ackerman, Detective Hildecombe said the accused had escaped from the industrial home where he was serving a four year sentence. He was committed for trial.

George McDonald was sent up on a charge of holding up Charles Johnson in the King Cafe, Prince William Street, and stealing \$70 from the till. He admitted pointing a revolver at Johnson, but denied the charge of stealing.

Thomas J. Bibbe pleaded guilty to drinking in public on the S. S. "Victorian" and having liquor in his possession other than in his private dwelling. Remanded.

A case against Thomas Short, charged with selling liquor illegally, was postponed for judgment.

Two drunken pleaded guilty and were remanded.

Robt. Douglas, charged with trespassing on the C. N. R. property admitted that he drove a team across the main line. He was fined \$20.

Stomach Trouble Due To Thin Blood

It Usually Disappears When the Blood is Made Rich and Red.

Thin blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach becomes weak, and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition than the use of Dr. Williams' Pink Pills for Pale People.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens the nerves, stimulates the muscles, and awakens to normal activity the glands that supply the digestive fluids. This is shown by an improved appetite, and soon the effect of these blood-enriching pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are vigorous instead of irritable and listless. If your appetite is flicky if you have any of the distressing pains and symptoms of indigestion, you should at once take Dr. Williams' Pink Pills and profit by the better condition in which they will put your blood.

These pills are sold by all dealers in medicine, or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

referred to Notice of Mariners, published by the Marine Department of the British Board of Trade and not to Canadian Notice to Mariners. It should be obvious that Canadian Notice to Mariners are only of use to masters and officers of ships who happen to be in Canadian ports at the time, or subsequently, and can impart no information to people in ships en route from United Kingdom or more distant countries, and ample time should be allowed for publication and distribution to foreign ports before alteration of character of lights and fog signals is made.

Wifeless a Help.
I am pleased to note that wireless advice sent out now from Barrington Radio station. This is a recent innovation and one to be highly commended. I am not aware that a Notice to Mariners has yet been issued giving G. M. T. and were length of such messages. If this has not been done, it should be at once attended to, so that ship masters can instruct operators to listen in.

I further suggest that when any light or other aid to navigation ceases to function properly the Department of Marine should at once notify all ships, without waiting till the schedule time. A 12 hour interval is a very long one in the Bay of Fundy and the presence from Cape Sable to Shucre, but it is essential to safe navigation that these aids are maintained properly.

Yours sincerely,
(Signed) W. J. FINLAY, Master.

RESTORED HAPPINESS IN COUNTLESS HOMES

Restoring happiness—keeping many homes from being wrecked, mental, the reliable nerve and blood remedy, has been of first aid importance to countless men and women. Acting as a general stimulant, it nourishes the blood, fortifies every organ of the body, brings health and strength within a short time after starting treatment. To create a completely healthy nerve structure, to liberate a free flow of the life-giving blood, at all drug stores. Price 50c a box. For sale by J. Benson Maloney and E. Clifton Brown.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-Lives."

Little Bras D'or C. B. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-Lives.' In a week the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous."

ROBERT NEWTON.
60s. a box, 6 for \$2.50, trial size 30c. At all dealers or sent postpaid by Fruit-a-Lives Limited, Ottawa.

OBITUARY.

Dennis McIlwain.
Houlton, Me., Jan. 26.—Dennis McIlwain, the oldest man in this place, died early Sunday morning at the Madigan hospital, where he had been for several weeks for treatment.

Mr. McIlwain was born in Newcastle, N. B., Dec. 30, 1828, and has been a resident of Houlton for fifty-four years. Up to within a short time he was very active and was a familiar figure on the streets. He had many friends with whom he enjoyed a quiet talk. He is survived by one son, Frank, and two daughters, Mrs. Geo. Hammon of Houlton, and Mrs. Ira B. Ruth of Houlton, besides great grandchildren.

Funeral services were held Tuesday afternoon from the home of his sons, daughter, Mrs. Willis Lowry, Highland avenue, and were conducted by Rev. Thomas Whiteside, pastor of the Methodist Episcopal Church, burial being made in Evergreen cemetery.

Miss Harriet Williams.

Gagetown, N. B., Jan. 26.—The death took place on Thursday last, at the home of Mr. and Mrs. Samuel Van Wart, Pleasant Villa, of Miss Harriet Williams, at the advanced age of 95. The deceased had been in a semi-conscious state for some time, death being due to old age.

Miss Williams, who was of Loyalist descent, was a sister of the late Hon. John Williams, M. P., and of Fred Williams, at one time wealthy and prominent Queens County lumbermen. She had outlived the other members of her family and saw many changes in her lengthy life. She did much to help others and although alone in the world in her old age, was bright and cheerful until her last illness.

She died here at an early hour on Tuesday afternoon, 11 o'clock, at her home on Saturday afternoon, Rev. H. T. Buckland, Rector of the parish, officiating. Interment was made in St. Stephen's churchyard.

Mrs. D. A. MacKendrick.

Woodstock, N. B., Jan. 26.—Many friends will regret to hear of the passing to her eternal rest, of Mrs. D. A. MacKendrick, which occurred at her home here at an early hour on Tuesday morning, Jan. 21st, 1921, following a long illness of heart disease.

Mrs. MacKendrick was taken ill in May, 1919, and throughout her long illness her bright spirit and wonderful courage were the marvel of her relatives and friends. Her condition was greatly improved by the use of the famous Dr. Williams' Pink Pills for Pale People, which she began to take in August, 1920, and she never recovered in the least from the shock of her death. Although she suffered intensely from the last three months, she endured her sufferings with infinite patience, and was ever more concerned for the welfare of those in attendance upon her than for her own.

She was interested in the joys and sorrows of her friends and acquaintances, and very broad-minded in her outlook upon life, and beyond everything a devoted wife and perfect mother. She was a member of St. Paul's Presbyterian Church, and of absolutely steadfast faith.

Mrs. MacKendrick was a daughter of the late Rosewell Wheeler and Elizabeth Caird, and was born at Pembroke, Charlott County, Nov. 12th, 1826. She was married to Donald Alan MacKendrick, Gordon MacKendrick Clarke, Harold, Gertrude, Mary and Helen Helen Clark.

Her remains were taken to the home at 230 Oxford Monday afternoon, and the funeral services at St. Paul's Presbyterian Church at 3 o'clock, with Rev. Gordon Prince of Kivimac, and Rev. S. R. Prince, pastor of the church, as officiating clergymen; and the church choir in attendance. The floral tributes were very beautiful and very much appreciated by the relatives. The pallbearers were: W. S. Sutton (ex-M. L. A.), J. Rankin Brown, Dr. M. McLean and Thomas W. Baker, and interment was in the family lot in the Methodist cemetery.

Trans-Canada Hikers Arrive At Moncton

Moncton, N. B., Jan. 26.—The trans-continental hikers, Sid Carr and Charles Burkhman, who are on a seven months hike from Halifax to Vancouver, reached Moncton on Tuesday evening at 7 o'clock, and left later for Salisbury. Both hikers were in the best of spirits making a call upon city clerk Colonel S. Boyd Anderson, and Chief of Police L. S. Hutchinson.

STRUCK NEW COAL SEAM.

Sydney, N. S., Jan. 26.—A steam drill crew employed by the Dominion Coal Company in boring operations, struck a few feet of the new seam of coal at a depth of 165 feet of a spot near Renfro Mine today. No immediate development is anticipated.

Want Large Grant For Kindergarten

But One Ratepayer Appears Before Council to Urge Greater Economy.

The members of the common council heard one appeal yesterday morning for increased spending on money and one for the exercise of rigid economy until such times as money was easier and prices had declined.

Mrs. H. H. Pickett, Mrs. W. F. Hathaway and Mrs. F. E. Holman appeared on behalf of Free Kindergarten Association and asked that grant of \$5,000 be given the present year for their work and this would do away with the necessity for the holding of a tag day. Mrs. Pickett said there was needed for the present year to carry on the work of the five kindergartens the sum of \$5,000 and they felt was only treating the association fairly to grant this amount in view of the great amount of good which was being accomplished.

What Work Costs.

Five teachers and a supervisor were employed, the sum of \$3,400 being expended in salaries. It was the aim of the association to have the kindergartens incorporated in the public schools and they could be taken over at any time.

Mrs. F. E. Holman read a resolution of the common council passed in 1914 endorsing the taking over of the kindergartens by the school board and stated the board of school trustees had promised to support legislation to that end but when the matter was brought before the legislature they did not do it. It was the intention to appear again before the provincial government and ask that this be done.

Against Vocational Schools.

Mayor Schofield asked the attitude of the delegation with respect to vocational education and was informed they were in favor of such training, but not as it was conducted in St. John at present. They contended it should start with the kindergarten and go along as a part of the curriculum, paying particular attention to the boys and girls who left school at the present time between the fifth and eighth grades.

The delegation were assured their plea would be given every consideration. John Flood then placed his view as a property owner and builder before the council on the subject of the 1921 assessment.

He thanked the mayor and commissioners for giving the citizens an opportunity to place their views before them while making up the appropriations for the year. He advocated the holding down of all expenditure for this year, and until such times as the cost of doing the work had fallen considerably. He thought all paving should be held over for a year at least and he also expressed his views against all grants for the present year. The citizens themselves had to practice economy and the city officials should do the same.

Real Estate Hurt.

The rising tax rate was hitting real estate hard and at the present moment he was paying twenty-five per cent of the gross rental received from his property in taxes as against three per cent on personal property and income. This was one of the principal reasons why there was no building going on in the city and a halt should be called.

Mayor Schofield called the attention of Mr. Flood to the fact that practically all the increase over last year was coming from sources over which the common council had no control—the school board, general public hospital and board of health. Mr. Flood was not disposed to question the increase in the school board, but he did not think they were well enough and school buildings had to be provided for the children.

He was asked about trade schools and vocational education and said they were all right but should not be conducted at the expense of the taxpayer. The person receiving the benefit should pay for it. Personally, he favored the apprentice plan.

Commissioner Jones asked in regard to grants and Mr. Flood expressed the opinion that the right way well be cut out for this year.

STOLE COUNTY FUNDS.

Marion, Ohio, Jan. 26.—Two bandits early today entered the office of the county treasurer in the court house here, knocked Treasurer S. E. Ferry unconscious with the butt end of a revolver and escaped in an auto with \$14,000 in cash.

TO BE TROUBLED WITH Constipation

The Cause of Many Ills.

If you do not feel well and go to your family physician, one of the first things he will do is ask you to hold out your tongue. The reason for this is that the condition of the tongue shows the condition of the stomach and bowels.

If you allow your bowels to become constipated you will have bitter attacks, acid headaches, coated tongue, foul breath, heartburn, water brash, etc., and these troublesome plagues which cause so much annoyance and misery.

Keep your bowels moving regularly and you won't be sick.

In Milburn's Lax-Liver Pills you will find just the remedy you require for this purpose. They are purely vegetable and do not grip, weaken or sicken.

Mr. J. S. Harris, Box 994, Halifax, N. S., writes:—"For two years I suffered with constipation. I could not get my bowels to move and hardly anything would give me even temporary relief. One day my uncle induced me to try Milburn's Lax-Liver Pills and even brought me a trial. I tried them without much faith, but I soon found they were doing me good, and after using the second trial I was relieved of my trouble."

Milburn's Lax-Liver Pills are 25c a trial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Branch of W. I. At Upper Gagetown

Started With a Membership of Thirty—Plan Improvements in Public Hall.

Special to The Standard.
Gagetown, N. B., Jan. 26.—On Wednesday afternoon a meeting of the ladies of Upper Gagetown was held in the Temperance Hall to organize a branch of the Women's Institute. Miss Hazel McCull, supervisor of N. B. Women's Institute, came down from Fredericton for the purpose of organizing the branch and gave a most interesting address on the history of the Women's Institute in Canada, and their many and varied services to the country. Her address was heard with much appreciation and at its conclusion the meeting proceeded to elect officers for the new branch, the ladies giving the following results:

President, Mrs. F. Mont. Belyea; 1st vice-president, Mrs. John Clowes; 2nd vice-president, Mrs. Daniel Boyd, Burton; secretary treasurer, Mrs. George Currier; directors, Mrs. Ashley Estabrook, Mrs. W. S. Coover and Miss Lily Helen, Burton; auditors, Mrs. Frank H. Estabrook and Mrs. Berkley Thompson.

The Upper Gagetown Institute, which takes in the area from Coy's
