## AROUND THE CITY

## TAX BILLS OUT SOON.

The Mayor said yesterday that he expected that the assessment would be filed and the city tax bills distributed about the first of the week. The discount period would likely end on July 13 or 14, he said, or nearly six weeks ahead of the date last year.

## ON THE SATURDAY

Mrs. Alexander Malcolm, of this city, and son, Charles, are passengers on the Saturday sailing from Montreal today for Glasgow. They left here Thursday night for Montreal to embark on the steamer for Glasgow, where they will remain through the summer, returning home about the middle of September.

## MAY BE OIL DEPOSIT.

John Jenkins of Grand Bay is thinking he may have a deposit of oil on his property. Recently when a workman was digging he came across some earth which gave forth a strong smell of oil and when some of the clay was thrown into a brook particles of oil floated on the top of the water. Samples are to be sent to Ottawa for analysis.

## MUST GET THEM AWAY.

It was announced at City Hall yesterday morning that unless drivers of motor trucks and cars requiring licenses took out their permits before Monday, they would be reported and prosecuted. It was understood that many of the owners delayed securing licenses to wait the result of an appeal to the Mayor to reduce the license fee. The Mayor has informed them that it will be impossible to reduce the fee this year and the matter will have to be taken up next year.

## WILL CLOSE STATION.

A memorandum has been issued by the Department of Marine and Fisheries advising that the radio telegraph coast station on Partridge Island will be closed on July 1. Commercial traffic previously handled through this station will be dealt with after that date by the direction finding station at Red Head. The commercial messages will be received at a radius of 600 miles and the direction finding business to remain at 400 miles after communication has been established first at 600 metres.

## Solution of The Police Dog Mystery

"Carlo," Faithful Chum of Policemen, Gathered in by Catcher.

Carlo, the little black spaniel who has taken it upon himself to patrol the northern division of the city with Police Sergeant McKeown, and who also takes a friendly interest in all the other cops at central station, sprang into prominence yesterday. He had been missing for the past few days and all interested in him were in a quandary as to his whereabouts when it was found he had fallen prey to the dog catcher.

The wheels of the law were turned, and out in motion to secure his release, but justice had to be satisfied, police dog or no police dog. The Police Dog's Protective Association came to the rescue and paid for Carlo's release, and the fine that was struck against him. He was then made an honorary member of the force and granted the freedom of the city. The dog catcher was not to be outdone by the police when he learnt of Carlo's distinguished record, and he presented the dog with a fine leather collar. It is said that Carlo takes his duty very seriously and when other fellows are in bed he turns out regardless of the weather and keeps the police company on their rounds. He has shown a particular fancy to Sergeant McKeown, and it only takes three rings of the sergeant's baton on the nearest telephone pole to bring Carlo trotting to his side.

William Merritt was arrested on a warrant last evening charging him with wilfully breaking a window. Merritt is alleged to have created a considerable disturbance on Sheffield street Thursday night, but managed to evade the police until last night. One drunk was also arrested and two prostitutes passed the night in the cells.

## Enforcement Crew In Deep Puzzle

Coming of Circus Causes Them Anxiety Nearly Stop Performances.

There is always something happening to take the joy out of life. If it isn't one thing, it is something else. Sandy Crawford and his band of Sleuths, looking after the enforcement of the prohibitory law, are always bustling in. They have the disagreeable habit of noting into places where they are not welcomed to see if liquor is being dispensed. They sometimes drop into a man's place of business when the glasses have the smell of barbed wire juice; a very inappropriate time for the proprietor, and make work for the courts. This is a bother some crowd that "Sandy" marshals.

Circus Starts Trouble.

The coming of the circus has sent "Sandy's" troupe on a new quest. They have also become angry at "rebuffs" received. "Sandy" was bound to search the circus when it entered the province. The circus, for the most part, had no objection to being searched, but some made an objection. Because of this objection "Sandy" became angry and was going to spoil the fun for all by not allowing the circus to show here on Monday.

## Elephant Objects.

It develops that the elephants absolutely refused to open up their "trunks" to "Sandy" and the Sleuths all had "long necks." Sandy was puzzled and didn't know how to proceed. He knew he must do his duty, and with the defiance of the prohibitory laws approaching he had to get busy.

He consulted the statute books for information. In a late edition of the *Journal Statutes* he found a "Rescript" by Hon. Chief Justice Lyon, Chapter 137, section IV, beginning with the fifth line, said: "An elephant, when travelling, has the right to protect his trunk at all times, and all times. He can not be forced to open it up except when persons are plentiful, and this is left to the wishes 'of the kids'."

Section VIII of the same chapter sets forth that the Giraffe is a creature in the enjoyment of special privileges and is entitled to carry a "long neck" in its travels, and is immune from mandates of all prohibitory laws.

This "Rescript" relieved Sandy from a tremendous responsibility and he will not attempt to block the circus on Monday.

## Instructors For City Playgrounds

Young Men Have Been Appointed to Position and Will Also Act as Caretakers.

An innovation has been introduced into the city playgrounds this year which is the appointment of young men instructors who will also act as care takers on the grounds. It has been felt that in the past, the boys have not received quite the attention they should and thus this idea has been adopted which it is hoped will systematize the work and prove satisfactory.

Three young men from the Y. M. C. A. and one from the Y. M. C. I. have been selected, all of whom have had experience in teaching or dealing with boys sports. Mr. Crowley, who has recently graduated from College, is the fifth instructor appointed by the Playgrounds Association committee, Mr. J. Haley and Miss Heffer.

New material is to be used in the instruction in the autumn. Twelve teachers have completed the training course held recently and the young men instructors also attended the excellent lectures given.

## H. J. Rodgers Gets New Appointment

Now Maritime Representative of Firestone Tire and Rubber Co.

H. J. Rodgers, who recently severed his connection with the Dunlop Rubber Co., has been appointed Maritime representative of the Firestone Tire and Rubber Co. of Hamilton, Ont. Mr. Rodgers will make his headquarters in St. John, with complete charge of sales, organization, etc., and all matters pertaining to this company's interests in the Maritime Provinces. The Firestone Tire and Rubber Co. are an exceptionally large organization, their products are known all over the continent, and they enjoy the reputation of being the largest exclusive manufacturer of Pneumatic Automobile and Solid Truck Tires in the world, their Akron plant maximum capacity being thirty-six thousand three per day.

The Canadian plant is an exact duplicate of their No. 2 Akron, Ohio, plant, and will be the most modern equipped plant of its size on this continent. In securing the services of Mr. Rodgers to manage their interests in the Maritime Provinces they are fortunate in having a representative who has had years of experience in the tire and rubber business, and who enjoys a large connection with the automobile and garage dealers throughout the Maritimes.

Mr. Rodgers has recently returned from their Hamilton and Akron plants, and feels very optimistic for the future of Firestone Tires in this country. He will remain in St. John for some time before completing the Maritime sales organization.

## CHILD DEAD.

Friends of Mr. and Mrs. George Riley of St. John street, will sympathize with them in the loss of their infant child, Gregory, who died yesterday morning. The funeral will take place this afternoon.

## Netherwood's Fine Program Enjoyed

Closing at Rothery's Yesterday Attended by Many—Excellent Showing Made.

Netherwood closing is an occasion which is always looked forward to by the many friends of this splendid school. Yesterday's programme seemed to surpass even the many excellent ones of previous years, and Miss Gausson, the principal, Miss Stoddart and the staff, were highly congratulated upon the fine showing made by the pupils.

The graduating class of eight received certificates. Not only these young ladies with their pretty gowns and bouquets of flowers, but the entire school assembled upon the platform or moving about the lawn, made a delightful picture.

Particularly praised for their poetic conception, artistic costumes and graceful execution, was the dance of the stars and moon, in which Miss Ethel Powell gave the moon dance. The solo girls' numbers were greatly admired, as were the fancy Welsh dance and the precision of the wand drill.

Netherwood colors, yellow and white, were evident in the daisy chain decorations of the room and on the wands and balls used in drills and game.

The programme consisted of: Piano solos by Miss P. Richardson and Miss Burwash; a violin solo by Miss M. Lunan; a song by Miss Lella Bouillon; two selections by the Glee Club of the school under the direction of Mr. Ford, and two songs by the school.

Miss Holt's pupils in drawing received much praise for their good work.

Miss Matson's classes showed originality in illustrating historical events. Under Miss Armstrong's tuition, some clever examples of free hand work, illustrating Hawaiian, were shown.

In the evening a meeting of the Old Girls' Association was held at the residence of Mrs. F. R. Taylor. The following officers were elected: Miss Mary Armstrong—President, Mrs. Crowfoot—Vice-president, Miss Katherine Skelton—Secretary, Miss Isabel Jack—Treasurer.

## Assault Charge Was Dismissed

Police Magistrate Censured Officer and Defendant—Evidence in Theft Charge.

A charge of resisting and assaulting a police officer, Policeman Lindsay, preferred against Frederick Hayes for an incident that occurred on the East End grounds some few days ago, was dismissed by Magistrate Ritchie in the police court yesterday morning.

The magistrate said a charge of resistance could not be preferred against the accused, as he was not under lawful arrest. While reprehensible, Officer Lindsay for unnecessary violence, he at the same time censured Hayes' conduct, which, he said, was not above reproach. E. J. Henneberry appeared for Hayes and J. A. Barry for Lindsay.

It is said that an action may be brought against the officer by the defendant. The chief of police stated yesterday that Lindsay would be retained on the force, and no notice taken of the matter.

Several witnesses gave evidence in the case of Harry Brittain, charged with the theft of a pair of rubber boots from D. Bassen's store, Charlotte street.

According to the evidence, the accused disposed of the boots at Isaac's second-hand store under the assumed name of Frank Carney. The case was further postponed.

Frank Lewis, George McArthur, Frank Carson and F. E. Williams, reported by the police for not fencing vacant lots in various parts of the city, agreed to have the matter attended to immediately.

Jeremiah McIntyre, the Market Slip fish merchant, was reported for selling fish without a license. As the city council is awaiting a report as to whether or not he is within his rights, the magistrate decided to allow the matter to stand over until next Thursday.

## Schedule For The Military Camps Out

Time, Place and List of Administrative Officers Issued by Headquarters.

The schedule of the militia camps, which are to be held throughout the province during the months of June and July has been announced at military headquarters. The drawing for a quilt, donated by the ladies of the L. O. B. A. of Sussex was held and the quilt was won by ticket No. 985. The sum of \$110 was realized by the drawing and will be devoted to the St. John Protestant Orphan's Home.

**THOUGHT IT GOOD WORK.**

C. E. W. Dowdell, one of the most prominent engineers in the maritime provinces, and chief of the federal public works office, Halifax, was in the city recently and inspected the manufacture and installation of the new pipe between Manchester's Corner and Spruce Lake. He was accompanied by the city engineer, Mr. Dowdell was greatly pleased with the inspection and stated that he had never
