

THE
THIRD ANNUAL REPORT
OF
St. George's
DISTRICT VISITING SOCIETY,

JANUARY 1st, 1843.

THE Visitors of ST. GEORGE'S DISTRICT VISITING SOCIETY having terminated another year in the relief of the Poor of this Parish, rejoice in the opportunity which is afforded them of bearing favorable testimony to the little Institution which now claims the patronage and support of the Public.

Since the formation of this Society, (now two years,) the Visitors have had cause to bless the Giver of all Good, for the means placed at their disposal, and for the various and interesting opportunities afforded them, of administering to the relief and comfort of the sick and afflicted, and only regret that their limited funds have compelled them in many instances to be less liberal than they could desire. Still a large amount of good has been effected, and the necessities of the Poor have not only been investigated and relieved, but many cases of fraud detected and exposed.
