## Work and Fair Wages for All

The Conservative Party will bring back that prosperity the King Government, by its disastrous policies, took away from us.

The Conservative Party guarantees permanent employment for Canadian workmen at a fair wage, by maintaining a stable and reasonable tariff which will benefit industry without injuring the consumer.

The Conservative Party guarantees steady protection for and development of the agriculturist.

**FRANK BOYES**  
official Conservative Candidate  
in East Middlesex

Farming under a Conservative Government will again be a profitable business, because the Conservative Party will never sacrifice the farmers of East Middlesex and the rest of Canada to put more money into manufacturers' pockets, as the Liberal Government has done.

The Conservative Party battled for years to rescind the disastrous New Zealand Order-in-Council. Vote Conservative and you vote for a party that carries out its pre-election pledges.

**Vote Against the King Government**  
**Vote for Boyes and Prosperity**
