

Dorset-horns.

(From stock imported by the Hon. Mat. Cochrane.)

are excluded. Percussion caps, fireworks, matches, and similar articles will only be accepted in the form of imitations, and on condition that they contain no inflammable matter.

Exhibitors of unhealthy products, or of products which may cause inconvenience, must conform at all times to any measures which may be prescribed by the Commission in the interest of public health and safety.

Spirits or alcohols, oils and essences, corrosive substances, and such as are liable to injure other exhibits or inconvenience the public, will only be accepted provided they are contained in such vessels of convenient size, shape and material, as may be approved by the Commission.

17. *Unsuitable Exhibits.*—The French executive reserve the right to remove at any time any article which they may deem objectionable or unsuitable for exhibition.

18. *Opening and Closing Exhibits.*—All show-cases, machinery, and exhibits generally, must be uncovered and properly cleaned each day previous to the hour at which the Exhibition is open to the public. They must not be again covered until the closing of the building.

19. *Attendance of Exhibitors.*—All exhibits must be on view on every day on which the Exhibition

is open. If exhibitors or their representatives do not wish to be in attendance at the Exhibition, the Commission will be prepared to undertake the superintendence of the exhibits, but in that event the Commission will not be responsible for any loss, damage, or accident, however occasioned.

20. *Removal of Exhibits.*—No exhibit may be removed before the close of the Exhibition without special permission from the French executive. This rule does not apply to articles which exhibitors may be authorized to manufacture in the Exhibition.

#### MOTIVE POWER.

21. *Motive Power.*—Motive power will be provided free of charge under conditions which will be communicated to the exhibitors.

22. *Foundations and Connections.*—The Commission will provide at their own expense all necessary foundations, connections with the water, gas, electric, and steam mains, as well as exhaust-pipes, drains, etc., and also provide pulleys (which must be made in halves), or any intermediate gearing that may be necessary to convey power from the main shafting.

(To be continued).
