ST MARY'S COLLEGE, MONTREAL

PROSPECTUS.

THIS College is conducted by the Fathers of the Society of Jesus.

Opened on the 20th of September. 1848, it was Incorporated by an Act of Provincial Parliament in 1852, after adding a course of Law to its teaching department.

The course of instruction, of which Religion forms the leading object, is divided into two sections, the Classical and the Commercial Courses.

The former embraces the Greek, Latin, French and English languages, and terminates with Philosophy.

In the latter, French and English are the only languages taught ; a special attention is given to Book-keeping and whatever else may fit a youth for Commercial pursuits.

Besides, the Students of either section learn, each one according to his talent and degree, History and Geography, Arithmetic or higher branches of Mathematics, Literature and Natural Science.

Music and other Fine Arts are taught only on a special demand of parents ; they form extra charges. There are, moreover, Elementary and Preparatory Classes for younger students.

nes, we presume few could give an intelligent answer. Nevertheless, the aversion is well founded.

All mineral substances, when taken into the stomach, are cumulative in their nature-that is to say, they remain either partly or wholly in the system and accumulate with each additional dose, until in many cases the result is death. For example, arsenic although known to be a deadly poison, yet in certain parts of Switzerland is extensively used by the mountain guides as a means of giving them, vulgarly speaking ' long wind.' But although it is thus beneficial for a time, the ultimate result is always death.

It therefore becomes evident that the popular dislike to mineral medicines is well founded, and it is doubtless in a great measure to the entire absence of any mineral substance that the wonderful success of

BRISTOL'S SARSAPARILLA

in this country is to be ascribed. It is prepared from the best quality of the Sarsaparilla Root, with which are combined other cleansing, purifying, and healing roots, barks, leaves, and balsamic gums—the whole, without doubt, making the best depurative and most valuable medicine known to the faculty.— The preparation of this great remedy is carried on under the personal supervision of the most scientific chemists and pharmaceutists, and none but the choicest ingredients are ever allowed to enter into its composition. The result is, that its action is always uniform and reliable. Its effects upon the

BLOOD AND HUMORS

is to purge and purify them of every atom of disease and to instil into the general system a degree of vigorous, natural life, that enables even the weakly and fragile to throw off and resist the attacks of disease. All old sores and eruptions of a scrofulous or syphilitic nature, all ulcerous diseases, Salt Rheum, Carbuncles, Boils, Blotches, or Pimples are SPEEDILY HEADED

and removed, and a new elasticity and vigor given to the body that is indeed most agreeable,

In every case when there is reason to suspect the blood and humors of being impure or vitiated from whatever cause, Bristol's Vegetable Sugar-coated Pills should be used in conjunction with the Sarsaparilla, as they carry off the depraved matter, and a complete cure more speedily ensues. For Sale at all the principal Drug Stores.
