A National Weekly

Subscription - - \$2.50 a Year.

Editorial Talk

THERE will be those who will examine this number carelessly and indifferently; there will be others who will go through it with wonder and surprise. The latter will ask how it can be done, for this is really a ten-cent issue for five cents. A two-page coloured picture cannot be given every week, but we shall try to give it, or something equal to it, once a month.

Good material is constantly pouring into THE COURIER office and subsequent numbers will contain the best of it. Photographs are arriving from all parts of the world — Japan, China, India and the Isles of the Sea. We do not want our material to be all Canadian, though the most of it must necessarily be so.

C. W. JEFFERYS

Among the Canadian artists who will contribute towards the embellishment of THE COURIER is Mr. C. W. Jefferys, whose article on Winnipeg appears this week. This is illustrated with his own photographs and drawings. He will do some more imposing pieces later. Other artists will be announced later.

The two dollar cash-with-order offer to new subscribers is hereby extended for one week.
