1000 pts of hemoglobin needed weekly

At the blood donor clinic held at the U of A last year, students gave 1691 pints of blood. The Red Cross hopes to do even better at the donor clinics which will be held here beginning next week.

According to clinic officials his is a bad time of year for maintaining blood supplies as regular donors are often caught up in the pre-Christmas rush and don't find the time to come in to the clinics.

One thousand pints of plood are needed each week and often there is an even greater demand in an emergenty situation, when a patient may need many pints of one particular blood type. A recent example of this occurred in Calgary when a patient took 150 pints of blood for a liver ransplant.

The Red Cross will be unning two donor clinics on ampus. one in the Purple ounge at the north end of HUB hall from November 24-28 and

another in room 142 of SUB on weekdays from November 24 until December 5. The SUB clinic will run from 10 a.m. - 1 p.m. and from 3 - 5 p.m. daily and the HUB clinic will be open from 2 - 5 p.m.

Donors must be between the ages of 18 and 65 and in good health. You can not donate if you are pregnant or if you have hepatitis, rheumatic fever or any heart, kidney or ulcer conditions.

The clinic organisers wish to remind everyone that donors can give blood every three months and urge hesitant first-timers to go take a look at the set-up before dismissing the request out-of-hand.

MARGARETRANDALL

author, "Cuban Women Now"

will give an address:

11-12 Noon

"The Family Code"

in Physics Building V-111

Margaret brings with her a wealth of knowledge and understanding of women both in the Third World and within the North American women's movements. She has been living in Cuba for the last five years, working closely with the Federation of Cuban Women and the Book Institute. The research for her book Cuban Women Now took her to outlying corners of Cuba and her talks with women from all walks of life have provided a panorama of the life of Cuban women within the Cuban revolution, one of the best views we have of the prospects of liberation for women within

Cuban socialism. She has closely monitored the controversial Cuban Family Code, the newest and possibly most progressive piece of legislation concerning women, in the world. It effectively legislates that sexism and chauvinism are illegal.

A prolific writer and poet M.R. has published numerous books, and poems. In September and October 1974 she travelled to the Democratic

Republic of Vietnam and the liberated zones of the Republic of South Vietnam, invited by the Vietnam Women's Union.

Other talks:

3:30 PM

Education of Women in Cuba in Multi Media Rm. 2-116, Education Bldg.

8:00 PM
