In reply to your letter of the 12th instant, relative to Indians regularly milking their cows etc. I beg to state that during the time the Indians are living in their houses they milk their cows, and a number make butter, but the majority do not, but use the cream and milk; and as soon as they move into their tents they turn the calves out with the cows, and let them go all summer.

I have the honor to be
Sir
Your obedient servant
Geo. P. Wright
Acty Ind. Agent

The Indian Commissioner
Regina.
