

## Make Your Milkers Pay

*Good Health—Good Appetite—and Good Digestion are the essentials of a good milker.*

Dr. Hess Stock Tonic promotes health—makes cows hungry. Remember, it takes a healthy, hungry cow to convert a big mess into pails of milk day after day.

Dr. Hess Stock Tonic produces appetite, aids digestion, conditions a cow to stand the stuffing, cramming process necessary for heavy milking. Dr. Hess Stock Tonic contains the salts of Iron that supply rich red blood so necessary to cows in milk. It contains Laxatives and Diuretics that assist the kidneys and bowels to throw off and carry off the poisonous waste materials that so often clog up the system during heavy feeding.

## Dr. Hess Stock Tonic

Ever notice a cow slack up on her milk—not quite so keen for her mess—apparently not sick? Her system is clogged. This never occurs where Dr. Hess Stock Tonic is fed. Start right—by conditioning your cows for calving with a course of Dr. Hess Stock Tonic before freshening.

There is not a day during lactation that Dr. Hess Stock Tonic cannot be fed to cows at a profit. This is especially true where heavy feeding is the practice. Dr. Hess Stock Tonic is good alike for cattle, horses, hogs and sheep. It makes the ailing animals healthy, the whole herd thrifty. It expels worms.

**IMPORTANT:** Always buy Dr. Hess Stock Tonic according to the size of your herd—five pounds for each cow to start with. Get it from the responsible dealer in your town. Feed as directed and note the results in the milk pail.

25-lb. Pail, \$3.00; 100-lb. Drum, \$10.00

Smaller packages in proportion.

DR. HESS & CLARK, Ashland, O.

Keeps the Dairy and Stables Healthful and Clean Smelling

## Burnbrae Shorthorns

Eighty-three years without change we have been breeding Scotch Shorthorns. The foundations of many of the best herds in America were laid from our farms.

I am in a position to furnish you now with the BEST in FORM and in BREEDING that can be found any place. Twenty-five young bulls, from small calves to fifteen months old. Sixty-three cows and heifers, every one of them bred right, not a plain-looking one in the lot. Every animal that I have sold in two years has been satisfactory; the most of them sold, by letter. I can satisfy you with the best in what you want at a price that will give you a chance, and I will pay the freight to your station. A Grand Champion and the son of a Grand Champion at head of the herd.

Post Office, Telegraph, Telephone and Station is Stouffville, Ont.

ROBERT MILLER :: Stouffville, Ont.

## BRAEBURN SCOTCH SHORTHORNS

150 Head

100 Breeding Females

Herd headed by Nero of Cluny (Imp.)

I have at present twelve young bulls that are now nearing serviceable age. The majority are sired by my present imported herd sire, and we guarantee them as good individually as the get of any other one sire in Canada. They are nearly all roans, and are priced to sell. Can also spare some breeding cows in calf to Nero of Cluny (Imp.).

CHARLES MCINTYRE, Scotland, Ontario  
Brantford 7 miles. Oakland 1 mile. L. E. N. Electric R.R. Cars every hour.

## Walnut Grove Scotch Shorthorns

We are offering choice young males and females from the best Scotch families and sired by Gainford Eclipse and Trout Creek Wonder Ind. If wanting something real good, write, or come and see us. DUNCAN BROWN & SONS, Shedden, Ont., P. M. M. C. R.

## SHORTHORN BULLS BY KING DORA (IMP.)

We have several young bulls by the above sire and from good milking dams. Also a few females bred to this sire. A choice lot throughout, and priced right. We have one Clyde mare, Lady Kinlock (imp.) 12248, safe in foal.

SOCKETT BROS., ROCKWOOD, ONT.

**Scotch Shorthorn Bulls and Females**—I have a nice offering of Scotch young bulls still on hand. The pedigrees are choice, the individuality is good—and the prices are right. If you want one Shorthorn female or a carload, come to Markdale.

THOS. MERCER, Markdale, Ont.

## Questions and Answers

Miscellaneous.

### School Trustee.

Quite frequently I hear it stated that if a person is elected school trustee in a rural section, and refuses to act as such, he is liable to be fined \$5 or more. Is that statement correct?

Ontario.

P. J. W.

Ans.—It is.

### Vendor and Purchaser.

A sold farm to B. A to erect a drive house before B gets possession. A erects drive house but during storm it is blown off foundation and smashed. B paid small amount cash at time agreement was made, balance on gaining possession. Does A have to erect building again.

Ontario.

R. K.

Ans.—We think so.

### Indorser Dying.

If the backer of a note died before the note matures, is his estate, good for the same?

G. R.

Ans.—Yes, provided his executor or administrator be duly notified, in the event of non-payment at maturity, of the fact of the note having been dishonored and that the estate is looked to for payment of the amount of same.

If at the time for the giving of such notice in the regular course probate of the indorser's will has not been granted by the Surrogate Court, nor letters of administration issued, the holder of the note, besides having notice of dishonor, etc., mailed addressed to the indorser at his last residence, ought to give written notice to the executor or administrator just as soon as he learns that there is one.

### Abortion.

What are the symptoms of abortion? What treatment do you advise? S. E.

Ans.—There may be a little straining on the part of the cow and there may be a slight discharge but as a rule the first the breeders knows about anything being wrong is when he finds a dead calf in the stable or pasture. The foetus may be nearly mature or it may be from two months to seven months developed. When symptoms are shown little can be done to prevent abortion. Cleanliness is the first essential. Destroy the foetus and all bedding around it. Disinfect the stalls and thoroughly wash out the cow with a mild disinfectant, as a three per cent. solution of carbolic acid. For external use on cow and stalls, a solution of carbolic, zenoleum or other coal-tar product may be used. It is important that the infected cow be isolated from the herd until all discharge ceases. She should not be bred again for two or three months.

### Rent Money—Board.

1. A rents a farm from B, being the front part and pasture land at the back. B to get pasture rent when rented. A rents pasture land. B wants rent before A can see C for collection. B asks A for rent, A gives B an order to collect. B knows how much the rent was to be. He now tells A he got it all but \$5, and wants to collect from me. Should he have brought the order back to me, and let me collect?

2. B gets A to take off the crop of middle of said land. Asks A to tell him how much he will charge per acre, and how much per day for A's boys to help. A answers letter, and forgets to mention boys' board. B comes down. A's wife mentions boy's board. B says he will make it right for boys' board, as they should be encouraged. He tells A's wife and husband both together twice he will make it right and allow for boys' board. A's wife has hour and date when he agreed to do so. Can A collect for boys' board?

3. In making out the account A forgets some of the work that he had done and sends second account, but mentions boys' board in first account. Can A collect the full amount as B has no receipt?

4. A's wife boards some men for B. A's wife gives itemized account for the men's separate board as that did not go in on farm account. A's wife gave a receipt in full for separate board, up to date the separate account runs to. Does that give him receipt for boys' board?

Ans.—1. Yes.

2 and 3. We think so.

4. No.

## Ring-Bone

There is no case so old or bad that we will not guarantee

**Fleming's Spavin and Ringbone Paste** to remove the lameness and make the horse go sound. Money refunded if it ever fails. Easy to use and one to three 45-minute applications cure.
