OBITUARY

MRS. E. D. CONGER DIES

...has been received in Belleville on Friday, April 28th of Lily...

...Conger is known here and his wife, Mrs. P. D. Conger, was mayor of Belleville in 1869.

...Conger's mother was a daughter of Mr. A. L. Bogart. Mr. P. D. Conger left here in the '70's and went to Toronto establishing there the Conger Coal Company.

HENRY PITCHER

...The death occurred on Friday evening, April 15th, of Mr. Henry Pitcher of Murray township. Mr. Pitcher had a slight attack of influenza, but had recovered so that he was able to walk out. He took a relapse and in spite of the best medical aid all that his family could do died in a few days. He had spent nearly all of his life in Murray, living for 40 years on the farm where he died. He was seventy years old last Christmas and will be greatly missed by a large circle of friends and neighbors.

...He leaves to mourn his loss his sorrowing widow, one son, who with his family, resides at home, one daughter, Miss Edith at home and one daughter, Mrs. W. E. Egan, of Michigan.

...The funeral service was held on April 18th, in the Methodist church at Stockdale. Rev. Patterson officiating, and the remains were laid to rest in the family plot in Stockdale cemetery. The floral tributes were beautiful, among them being a wreath from the family, an anchor from Miss Pitcher's music pupils, and a spray from Miss Gladys Osterhout.

Changes Steamer's Name.

...Kingston—The Minister of Marine and Fisheries has granted permission to John F. Sowards of the Sowards' Coal Company to change the name of the steamer Maplegrove which he purchased from the Canada Steamship Lines last fall, to that of Jed. This change will be made before the steamer starts in the season's work.

Purchased a Farm.

...Consecon—Sherman Chase has purchased from W. K. Beech, Vancouver, the farm on the north shore of Consecon Lake, formerly owned by the late P. V. Beech. Mr. and Mrs. Chase will not take possession at once, but will remain on the Devern farm for this season, which they have occupied for several years.

LATE MRS. DALY

...The obsequies of the late Mrs. Kate Daly took place this morning from the residence of Mrs. Harry Geary, Coleman street to St. Michael's church, Rev. Father Killeen celebrating requiem masses. Interment was made in St. James Cemetery, Father Whelan officiating. The bearers were John Geary, Harry Geary, William O'Sullivan, Timothy Daly, John Smith and William Smith.

SPRINGBROOK

...Mr. Phil McConnell, of Norwood, has returned home after visiting friends here.

...Spring Brook I.O.O.F. No. 429 met in the Orange Hall on Tuesday evening.

...Mr. Charles Laugh has started his summer's occupation in the cheese factory again.

...Mrs. Bob Tanner has spent the last week with friends in Belleville.

...Mr. Newton White, of Stirling, spent the week end at his home here.

...Mrs. Charles Morgan is reported better again.

...Mr. Jim Wilson, who has been visiting his grandmother, has returned to Toronto.

...Mrs. W. Sharpe, of Toronto, and her sister, Miss Ethel Thompson, also of Toronto, are visiting with their father, Mr. T. J. Thompson. Mr. Wes. Thompson is also home.

...Miss Minnie Heath entertained a number of young people on Monday evening. A very enjoyable evening was spent in music and games.

Had Thrilling Experience.

...Pictou—Ormand W. Roblin had a thrilling experience when the steamer Governor was rammed by a freighter and sunk in the Strait of Juan de Fuca. Mr. Roblin was on his way to Pictou to visit his parents and Mrs. Adolphus Roblin, Green Point. He boarded the steamer at San Francisco for Seattle. Roblin was among the last to leave the ship though up at the time of the crash and among the first to know the ship was doomed to go under.

...Pittsburg bootleggers have equipped their cars with armour plates guaranteed to turn aside bullets.

TIGER TIRE FACTORY HERE MUST INCREASE ITS OUTPUT TO KEEP PACE WITH ORDERS

...Tube manufacture is much more simple. The sheets of gum rubber are placed on rolls and cut, wrapped in fabric and placed in a vulcanizer where they are subjected to a temperature of 280 degrees and 45 pounds of steam.

...Discovery of Process. Vulcanization is the basis of the entire rubber industry today. The process was unknown a hundred years ago and the manufacture of rubber goods in the old days was very discouraging. First among the obstacles in rubber manufacture as experienced by pioneers in the business was the tendency of rubber to stiffen in cold weather and soften in the summer, and the offensive odor.

...It remained for Charles Goodyear after ten years of experiment to discover vulcanization. This is the process used throughout the world today. Sulphur mixed with crude rubber produces changes for the better, but intense heat is required to give immunity to heat and cold, and the required elasticity. Vulcanization in the case of some thin rubber goods is possible with chemicals but the sulphur and heat process has not yet been superseded. The method is an expensive one, the labor and appliances used meaning much of the cost of the product. Vulcanization has to be very carefully performed, otherwise the article is imperfect and unsaleable.

...The officers of the company just elected are: Mr. William Seward, president; Mr. R. J. Graham, Belleville, vice-president; directors, Mr. T. B. Pringle, Huntingdon, Que., Mr. John Uglow, Port Hope, Ont., Mr. Mark Smith, Oshawa, Ont., Mr. H. C. Moore, Toronto, Ont., Mr. H. H. Hastings, Toronto, Ont.

...The officials in charge of the local plant are: Superintendent of plant, M. Davis; factory office manager, C. E. Roach.

...Tour of the Plant. To the outsider the process of tire manufacture is much of a mystery, but a visit to the plant gives a fair impression of the work of tire building. The visitor is first shown the store room, where large quantities of raw rubber are kept. The raw article has little in common with the tire that rolls along the streets. It is rolled into sheets and baled.

...Next to the store room is the mixer. Here the dozens of chemicals that go into the make-up of commercial rubber are rolled into the raw rubber, and the composite mass comes from the mixer quite a different looking article from that which left the stock room. The formula used in the synthesis of rubber is a business secret.

...Treatment of Rubber. Before the gum is rolled into the fabric both rubber and fabric have to be dry and a "hot box" is required for this. Otherwise in the process of vulcanization the moisture would cause bubbles which would destroy the value of the tire.

...The plant is equipped with a thoroughly stocked chemical room, adjoining which is a laboratory for experimentation. This is at present used as a first aid room.

...The main portion of the plant where the gum is rolled and later pressed into the fabric, is equipped with very powerful machines. The gum and fabric pass between heated rollers which are operated by electricity. These machines also roll the rubber into thin sheets out of which the tire treads are constructed.

...Tire Building. The rubber sheets and the fabric are carried to the cutting and making-up room where they are cut and placed in lots for the tire builders and finishers. The fabric ranges from three to seven ply according to the class of tire. The smaller tires are built by machine, the operation looking very simple, but with the larger the work is performed by hand, fold after fold of the fabric being put on over a form. The side wall is then adjusted and after the tread has been placed, the tire is ready for the vulcanization.

...Curing or Vulcanization. The curing process is very interesting. The tires are placed in heavy prints. These are carried by chains attached to a track above and placed in the curing pots, a dozen moulds going into each pot. The pots are closed and under hydraulic pressure and steam the tires are vulcanized in an hour and twenty minutes. The process of vulcanization hardens the rubber, the chemicals uniting with the rubber in one mass. Were it not for the hardening process of vulcanization, tires would not stand the wear of the roads.

...Two pressures are used for curing—1500 pounds and 200 pounds to the square inch.

FIRST HEARD OF BELLEVILLE IN CALCUTTA, SAYS PREACHER; KILTIES BAND PLAYED THERE

...It was in far away Calcutta, that the Rev. Dr. Hastings a well-known Missionary of the Reformed Episcopal Church, first heard of Belleville, he told a meeting in Emmanuel Reformed Episcopal Church last evening, when he spoke on his work in Lalitpur, India. The Kilties Band of Belleville, the famous organization that girdled the globe, happened to visit Calcutta and the name of Belleville was indelibly impressed upon Dr. Hastings by this incident.

...The missionary last evening gave an illustrated lecture on the progress of missions in India. His study of the customs and religions of the Indian Empire was interesting and instructive.

...Rev. George Marshall occupied the chair.

ORGANIZE PIPE BAND HERE SCOTS HELD FINE CONCERT TO AID NEW ORGANIZATION

...Camp Rob Roy, Sons of Scotland, put on a high class and successful Scottish entertainment last evening in the I.O.O.F. Temple in aid of the new Scottish pipe band, which is in process of formation. Nearly two hundred enjoyed the song and story. Rev. A. S. Kerr, chief of the camp, occupied the chair and put through a delightful programme. He delivered a short address of welcome to the guests. The Bridge Street symphony orchestra won golden opinions with their numbers. Pipe Major Albert Johnstone rendered several bag pipe numbers with all the art of the skilled piper.

...Among the numbers on the programme were: Songs, Miss Lobb; comic songs and sketches, Mr. Edwards; songs, Mr. James Booth; readings, Miss Phyllis Stewart; song, Mr. McIntyre; Hawaiian Guitars solo, Mr. Barringer; songs, Mr. H. C. McKay; song, D. G. Blocker; comic numbers, Mr. Browning.

...The orchestral numbers were: Stella of this city, two sisters, Mrs. J. J. Frost, of Belleville and Mrs. Bander of Marinette, Wis., and two brothers, Fred and Thomas of Simpson, Sask.

...Mrs. Ford passed away three years ago.

...The family have the sympathy of the entire community in their bereavement.

...Gone to Oil Fields. Ottawa—Ed. M. Phillips, Ottawa, formerly of Brockville, left the Capital with a party of men in charge of O. S. Finnie, for the oil fields of Fort Norman, in the Peace River district. He expects to be absent six to eight months or possibly for a period of two years.

...To Cut Pine Block of Timber. Port Hope—Messrs. C. Jonas Thornton and Arthur Allen, of Ontario, have taken the contract from Mr. Cody, of Aurora, to cut between two and three hundred thousand feet of lumber in the block of timber east and north of Newtonville. This is said to be the finest lot of timber in the County and Mr. Thornton intends moving his machinery into the bush and commence operations at once.

...HOGS WORTH \$12. The decline in hogs which started two weeks ago, has been continued. Today Messrs. Empey & Wallbridge shipped a number from Belleville at the rate of \$12 per cwt. which is a dollar less than a week ago.
