THE REPORTER

ATHENS, ONT., MAY 6, 1891

LOCAL SUMMARY.

ATHENS AND NEIGHBORING LOCALITIES BRIEFLY WRITTEN UP.

As seen by our Knight of the Pen.—Local Announcements Breviter Noted.

WANTED.—Boarders, apply Man. A. Bennett, 1514 Minard's Liniment cures Dandruff. No liquor can now be legally sold in Morris town.

Our young people are talking up a picnic for the 24th. The Methodist Board of Trustees met on Saturday. Sheriff Robinson of Brockville was in town on Friday.

A twelve year old girl was married last week in Carthage, N. Y. Some more "Gipsies" were in town last week.

Have you seen the New Dress Goods being sent out to all the lodges in the two counties and it is expected from encouragement received from a large number of them that a large proportion of the lodges will meet here, with the usual quota of visitors, who will be well pleased to see the celebration arrangements so neatly made.

The new order of Foresters have a membership of 18 already. The girls of the town are out hunting May flowers.

Some of our citizens have planted potatoes. Send 25c and get a trial of the Rex for three months.

The Refrew merchants have decided to close their stores three evenings in the week at six o'clock. Ask to see our Bargains in Ladies' Taffeta and Pure Silk Gloves.

G. W. BEACH. Snow fell last night and is falling again to-day. This in May seems rather out of place.

Don't forget the parlor social at W. H. Taplin's to-morrow (Wednesday) evening. A good program and refreshments will be provided.

The Michigan & Canada Tunnel Company has been organized to construct a tunnel under the Detroit River at Detroit and Windsor.

A fly young man comes into the Reporter office sometimes. He must have a very poor memory for he always forgets when to go away again.

May day passed comparatively quiet throughout the labor world, the authorities taking special precautions to quell any disturbances.

Come and see what we can do for you in Men's and Boys' Clothing. G. W. BEACH.

Inspector Seath visited the Athens high school professionally last Thursday. There was a half holiday for some of the scholars in consequence.

John Washaway having sold out his business here went to Montreal last Wednesday, where he will enter into the holy bonds of matrimony.

Over 60 protestants have already been entered against elected members in the recent elections, about equally divided between the two parties.

Mr. Peter White, member for North Renfrew, was elected speaker in the House of Commons by a narrow majority. This is the seventh parliament of federated Canada.

A new story was commenced in the Reporter last week called "The Doctor." It is by a standard author and will be one of the best stories that has appeared for some time.

A Jack the Ripper murder has been committed in New York, and the smart detectives who laughed so much at the London police have as yet failed to find the murderer.

Governor Hogg, of Texas, has three bright children, two girls and a boy, whose names respectively are said to be Ima Hogg, Ora Hogg and Moore Hogg. These names were bestowed by Governor Hogg himself.

D. Dowley, auctioneer, will sell at Lake Florida on Tuesday next May 11th at 10 a.m., the farm stock consisting of 11 cows, 4 yearlings, 7 calves, 2 horses, 21 pigs and hogs, grain implements, etc., belonging to Charles A. Kinneid. See bills for further information.

Two young men, badly troubled with inertia, sat down on the wire fence opposite this office last Saturday evening, and left the wire badly out of shape. Some people seem to have no regard whatever for other people's property.

The second nine of the high school base ball club has given the Duluth club an invitation to play them at the school grounds on Saturday. We hope it will be accepted, for a good day's sport may be looked for.

Our young friend, Arthur Robeson, who had an attack of the mumps, has suffered a relapse and is lying very ill. It is to be sincerely hoped that he will soon be restored to perfect health, and back again in his store on Main street.

Some people think that a one-cent stamp attached to a piece of cardboard will go through the mails in the form of a post-card. This is a mistake as a cent is charged in any instance receiving a note in the form referred to.

Notices are posted up around town informing the citizens that they must have their yards, etc., cleaned up by May 16th. This is most essential to the sanitary condition of the town and the Chief of Police should strongly insist on its being attended to.

The Athens vault has paid for itself. It cost over \$500. There have been enough bodies put in it, which at \$5 apiece, has paid for the building, etc., and some money in the treasury. At a meeting of the trustee board it was decided to reduce the vault rent to \$2.50.

Wm. Robertson of Prince Edward County has just been sentenced to three months imprisonment, for fraud in connection with the bull-lees on swindle. Verily those who hasten to make rich at the expense of their neighbors do soon come to grief as their evil deeds will follow them.

Corwall Standard.—Our census takers are meeting with some queer cases. One of them tells a good story of finding a man and wife aged respectively 27 and 28, whose daughter is claimed to be 14. But this is beaten by another enumerator, who found a mother of 23 with a son of 15. Talk about Southern climes and early marriages. How does that strike you. Minard's Liniment for sale everywhere.

The Athens Planning Mill, East Door Factory re-opens to-morrow. Mr. Bobt. Clark is in charge of the establishment and would be pleased to see any one requiring any work done at the mill.

By an oversight we omitted to mention the return of Mr. Isaac Sherman, who lately returned from Syracuse to Athens, his native home. He is engaged in refitting his old homestead which he will no doubt make as pleasant as any in Athens. Mr. Sherman proposes to engage in business here and we welcome all such men.

Gannaque had a test fire alarm last week, with the most satisfactory results. The hose men were attached to their hose, and called for water in three minutes after the alarm had been rung, and had a stream of water playing in six minutes and the hooks had their wagon on the ground, placed a ladder to a building, and had men on the roof in five minutes. Not one of the men knew that the test was to be made.

At a meeting of the Orangemen of this district held on Saturday evening of last week it was decided to hold the annual 12th of July celebration in Athens this year. Invitations are being sent out to all the lodges in the two counties and it is expected from encouragement received from a large number of them that a large proportion of the lodges will meet here, with the usual quota of visitors, who will be well pleased to see the celebration arrangements so neatly made.

The annual meeting of the Athens Mechanics' Institute will be held in the lecture room of the high school, on Monday evening next, the 11th inst. at 8 o'clock. The officers of the past year will present their reports, after which a staff of officers will be elected to serve for the ensuing year. The meeting will be open to members and to becoming members.

We trust there will be a good turnout, not only of the members but of those who have not yet identified themselves with the Institute, who should assist the management government, which is given according to the amount of cash received for membership. The number of books now on the catalogue nearly 1000 and it is proposed to add to the number as fast as the finances will permit.

A man who was afraid of thunder started into a hollow log as a place of safety during a thunder storm. The thunder rolled and the rain poured down in torrents, and the old log began to swell up, and the poor fellow was wedged in tight he could not get out. All his past sins began passing before him. Suddenly he remembered he hadn't paid his newspaper subscription, and he felt so small that he was able to "jack right out."

"Did you go about much in Florida?" asked a gentleman of an acquaintance who had just come up from that State. "Well, yes," was the reply. "I went to the St. Johns River, cut over the country, and shot gators on the Withlacoochee, fished for bass in Tala Apopka, sailed on Thonotassas, skipped over to Okonlokathee, yanked by the shore of the Weohyakophy, tracked the Sugar Cane fields on Topelakajee, sailed on the tortuous Kijimimee, and have also captured lapron on the Calocochakoyee, Lockapeeka, Hatchucucha and Eantookatchee before I left the State."

Our road commissioners should get to work at our sidewalks at once, as there are several very bad places, especially at the corner of Main and York streets. One lady got a bad fall a few evenings ago in front of the Mulvena block, caused by a loose plank. There is a great many places that need repairing and lots of others that can only be remedied by paving up an entirely new walk.

The front of N. C. Williams' and Brook DeWolfe's lots needs new plank as well as portions of the walk in front of the high school property. Nearly the whole length of the sidewalk on the south side of Main St. should have a new plank and the residents should show the same enterprise that their neighbors across the street did when they put down (many of them, entirely at their own expense) a sidewalk that is a credit to this village. We understand several of them are willing to contribute liberally towards putting down a good 12 foot walk in front of their places of business. The crossing between the streets at Carley's corner needs attending to at once as that crossing is a disgrace to the village. A couple of very nice stones were put down under Mr. Nash's supervision, a few years ago, which if continued would be what is absolutely required as that crossing is used the most of any in the village.

One of our young men was made the victim of a practical joke last Tuesday night. Four of his friends had made it up beforehand to work ghost scare and selected him as the victim. Accordingly he was invited to partake of the hospitality of his friends, and during the evening they engaged in a game that passed away the time. At a given signal from one of the players, deep groans and sighs were heard issuing from the next room, all was consternation and alarm at once. Someone extinguished the light and all sought a place of hiding.

The "victim" took refuge among some floor sacks at the farther end of the building, and the place was as still as a grave in a tree. The moans and sighs continued. Suddenly the door opened and a man dressed in the garb of those supposed to be of another world advanced slowly into the room. The "victim" crouched farther into his place of hiding, and the specter after muttering some blood curdling sighs, withdrew. Then the young man took courage to examine things, the lamp was found upside down, and half the oil on the floor, the chimney at the other end of the room. To keep up appearances it was thought best to break up the meeting and each wended his way homeward. As the victim was passing one of the church yards, again he was startled. "Something" again arose in a garb of white, and with the leaden reward being \$500 in gold. Send ten cents in stamps or silver for a sample copy of OUR HOMES and complete rules governing the competition. Address OUR HOMES PUBLISHING CO., Brockville, Ont. H841

Referring not long since to an incident occurring on a railway train, in which two young ladies won, at a game of cards, all the money a young gentleman had, goes on to say: "Gambling in one form or another has become one of the crying evils even in the home. This is not true of homes of the best class, but it is true in circles which are purely fashionable, are deemed exclusive, and the members of which have unlimited money. It is but a day or two since a very sensible bachelor, who has had his choice of society for many years, said that there was a time when one might go to make a call of an evening, carrying with him only enough money to pay for his car fare and cigars, but that today, in certain sets, a man must have twenty-five or fifty dollars in his pocket or run the risk of being 'frozen out' of the evening's game by the very girl he had called to see. Another man, not a week since, spoke in the intervals of a game he was playing among his male friends, of the success of his wife at the same game, and told, as if in one breath, that if he should lose all he had in his pocket, he would be sure to find that his wife could supply all his needs. Is it not about time to call a halt on gambling, all along the line, when everyone, from the errand boy who takes his employer's bill to the woman of fashion who wins the money of her guests, is corrupted by it? This is fashionable society for you. Think you the church, which has protested against card playing, has been in error? Even if the secular press cries out against it.—The Detroit Free Press.

It is always a pleasure for us to note the success of Leeds County boys and especially those who have by their own unaided exertions attained to enviable positions in other lands. This week a bundle of papers received from an old friend in Kansas makes honorable mention of a former well known resident of this village. Mr. George B. Landers left this village about 15 years ago, with only a few dollars in his pocket, but with a lot of pluck and determination he started out west to seek for the golden Eldorado, that had been the day dream of his youthful fancy. He drifted from one place to another, but unlike the legend of the "rolling stone gathering no moss," he managed to pick up a little filthy lucre here and there, until in 1883 he finally located in the State of Kansas, where he purchased a farm of 600 acres of the choicest land in Blaine township. At that time the larger part of the County was government land and unoccupied. He had to haul lumber 45 miles and it cost him \$40 per thousand. He cultivated 400 acres and has never had a total failure of crop, nor a year when he had to sacrifice any of his stock because of the scarcity of feed, and has handled cattle every year since he commenced farming. Last year he bought 8,000 head of cattle from two speculators and after pasturing them for a time, sold them in lots realizing a net profit of \$20,000 on the investment. Mr. Landers told the press representative that he never had a better section for raising cattle than where he is now located. Last season he shipped 3,500 head of cattle to the packing companies of Colorado and will also supply them this season. Another and later paper than the one from which the above extracts were taken says that Mr. Landers has just leased for a term of 6 years a tract of 6,000 acres of land which now gives him the largest ranch in the state, comprising 18,000 acres of fine grazing land, all fenced and cross fenced. Another paragraph in the same paper gives an account of the opening of a new bank in the town of Anthony, Kansas, of which Mr. Landers is president and principal shareholder. Another Athens boy who is deserving of special mention is Wm. Giles B. A., who on Friday last May 1st received his diploma of D. D. from the University of Penn. He proposes practicing his profession in Montreal. At the examination held in April his average percentage exceeded 90 per cent thus entitling him to honorable mention by the faculty.

Those of our citizens who failed to attend the entertainment given by the pupils of the high school on Friday evening last missed a rare treat. The entertainment commenced promptly at 8 o'clock, Dr. S. S. Cornell occupying the chair. The room was comfortably filled every chair being occupied. The numbers as given on the printed program were all called and every part was carried out. To particularize would be invidious, as every one taking part did their part well. We may be allowed to say however that the amateurs not connected with the school do not properly come under the above head as they simply gave their time and talents gratuitously, to help fill in the program. Miss Bertina Pierce, a little lady of 11 years, executed a very difficult selection on the piano, in such a manner as to receive a hearty applause at the close. Miss Leah during the past winter, very kindly consented to sing one piece entitled "That is Love" which was rendered in a superior manner, eliciting a hearty encore to which she graciously responded.

MESSES. G. C. RICHARDS & CO. Gents.—Having used MINARD'S LINIMENT for several years in my stable, I attest to its being the best thing I know of for horse flesh. In the family, we have used it for every purpose that a liniment is adapted for, and being recommended to us by the late Dr. J. L. R. Webster. Personally I find it the best ally of neuralgia pain I have ever used.

R. TRITS, Proprietor Yarmouth Livery Stable.

6506 FOR A NEEDLE. OUR HOMES, a thirty-two page monthly magazine, devoted to home building, home furnishing, house decoration, fashions, general literature, etc., is the best publication of its class in America. The publishers in order to increase the circulation of their magazine, offer large cash rewards to those of their subscribers, or intending subscribers, who correctly answer the following question: "Where in the New Testament are the words, 'a needle,' first found? Cash daily and weekly rewards, given while the competition lasts. The publishers will give away thousands of dollars among those correctly answering the question. The leading reward being \$500 in gold. Send ten cents in stamps or silver for a sample copy of OUR HOMES and complete rules governing the competition. Address OUR HOMES PUBLISHING CO., Brockville, Ont. H841

Chief Justice Galt gave judgment on several applications to quash local option prohibition by-law. He held in the first place that the act was bad next that the Ontario Government had no power to bestow upon municipal councils the authority to allow the people to vote upon a prohibitory measure. He maintained that as it was well established in law that all questions affecting trade and commerce were exclusively within the jurisdiction of the Dominion Government, that the Dominion Government was out of its province in passing such a measure as the Local Option Act. It was ultra vires. So he quashed all the by-laws with costs.

And now the time is right when the thrifty household will expend five of his good hard dollars in the seed store. Then as the sun warms and the busy little weed makes him bend his back he will lay in a \$75 crop of rhubarb and scotch for next winter. Before the balmy days of June begin to shorten, he will have police court suits with each and sundry of his neighbors, boasting the ownership of poultry energetic enough to hustle for their living. And finally, as the white, hop front of autumn settleth on the limp, green grass, he will harvest sixty cents worth of soragay cabbage and some green tomatoes, which the milkman will scornfully reject as a gift of his bovine.

Music Lessons.

A few pupils who wish to get instruction in Music will be given lessons on the piano at very reasonable rates by applying to

MISS BERTHA LOVERIN.
Athens, April 14th, 1891.

The People's Column

Advertisements under this heading will be inserted at 25 cents for 4 lines or under, or one cent per word for more than 4 lines. The number of words exceeding 25, and ten cents for each subsequent line. The number of lines inserted should always be plainly stated on the copy. Advertisements under this heading will be inserted at a special rate in this column. We would also advertise without mention THE REPORTER as being the source of their information.
