Indiana Man Burled Under Tons of Sand Waits for Rescuers,

Who Must Dig Another Well and Tunnel to Reach the Prisoner.

Sullivan, Ind., Nov. 14. — Under a thin platform of boards, piled high with tons of sand, at the bottom of a 30-foot well on a farm near here, Thomas McPheters is lying awaiting a rescue, which now seems impossible. To see the light of day again the man must sustain life until another well can be dug some distance from er well can be dug some distance from the one in which he is imprisoned and a tunnel cut to connect the two shafts.
All efforts to remove the sand from above McPheters has proved futile, another cave in following each attempt at rescue by this means.

other cave-in following each attempt at rescue by this means.

McPheters at noon Monday completed the work of a well he was digging at Gill's Prairie, nine miles southwest of here, and was removing the timbers when a bed of quicksand forced in the wooden wall, catching the digger and holding him a prisoner. His assistants at the top of the well attempted to remove the sand, but as fast as it was taken out more sand took its place, the heap increasing in depth at every new cave-in.

At first McPheters conversed with his would-be rescuers and gave what directions he could in regard to their work. Finally he failed to answer their questions, and it was decided he had been smothered. Yesterday morning when an investigation was made to learn the chances of recovering the body a faint voice was heard and it was discovered the man was still alive. A small opening through the sand at one side of the well permitted air to reach McCheters. The last desperate effort to reach him was decided on last night and work was begunson the new well, through which it is hoped to rescue him.

TORONTO LIVE STOCK.

Toronto Nov. 13.—There was not much change in the conditions of trade at the western cattle market last week. Business was active in some lines but dull in others. The demand for choice cattle was good, but the supply small. Farmers are not anxitious to ship now. A great many of them have tigd up their cattle, and will leave them for some weeks to get fat. Some cattle will, of course, come forward to fill local wants, and a few exporters will be shipped. Outside of these lines it is not anticipated that there will be heavy offerings for some weeks. Prices of butchers' cattle have stiffened a little, but this is the only change of any consequence in quotations. Receipts were 35 loads, including 450 cattle, al,000 sheep and lambs, 20 calves and 1,600 hogs.

Export Cattle—There is some call for choice exporters, but few are offered; buyers seem will to take all that come at present prices; there is at this season a rush to get good cattle to the other side of the Atlantic, owing to Butchers' cattle—All offering are being taken up and prices are firmer for medium to good cattle; there is a steady demand for the local trade, which is more active now than it was a week ago; choice cattle sell readily and more are wanted; if in fine condition they would sell at \$4 to \$4.40 per cwt.; good are quoted at \$3.50 to \$4; medium at \$2.50 to \$3.25, and comcommon at \$2 to \$2.50; the offerings were comparatively light and only the better grades soid well.
