AND POULTRY TRADE

Return of Mr. John Sanders From England.

OTTAWA, Dec. 4.—Mr. John Sanders, of Kemptville, who was sent to England a month ago to enquire into the prospects of building up an export trade in ponitry with the mother country, returned to-day. He was joined here by Dr. Ferguson, M. P., of Leeds and Grenville. Mr. Sanders is naturally anxious to have the result of the mission known to the public, but, as his report has not yet been presented to the Government, he was not at liberty to give any answer. He could say, howeyer, that the actual condition of things in England was most favorable for the establishment of a remunerative trade with England in eggs and poultry of good quality we can send will be welcomed. The prices obtainable will also pay shippers well. The egg trade with England in the past has been expired to England have proved most acceptable to the people. Before Mr. Sanders of him. AWFUL DEATH OF A LINEMAN,

Smoking, Burning Body Lies for Ten Minutes on the Wires.

Ten Minutes on the Wires.

57. Louis, Dec. 3.—Albert Julius, a lineman, was instantly killed by an electric light wire in front of No. 372 Manchester road at 10.40 a. m. Julius was at work on a pole making a connection. He is thought to have mistaken a live wire for a dead one and took hold of it. In a flash the electric fluid had done its deadly work. Blue fismes two feet long darted from his hand. His body writhed like that of a snake. He groaned and then he fell into the network of wires below him. There the smoking, sizzling, burning body remained until Foreman James Boland climbed up and brought him down, fully ten minutes afterward. Julius was 23 years old, married, and had four children. He was an employe of the Missouri Electric Light Company.

A GIRL BURNED TO DEATH.

A GIRL BURNED TO DEATH.

Her Clothing Caught Fire and She Leaped From an Upper Window.

New York, Dec. 4.—While all the members of the family were absent from the house Lena Doesch, 15. a domestic in the employ of Charles Samuels, No. 394 Bergen street, Brooklyn, accidentally set fire to her dress while raking the kitchen stove. She ran screaming through the rooms of the second story flat, and epening a rear window, jumped from it to the ground.

rear window, jumped from it to the ground.

Other occupants of the house, who heard the girl's screams, reached the Samuels' spartments in time to see her leap. Persons in the first flat saw leaves descent and subdued the flames as the lay on the ground. An ambulance surgeon who was summoned found that the girl was terribly burned about the face, neck, arms and legs. She was unconscious. He hurried her to the Seney hospital, where she died soon after admission.

An Engineer Killed.

An Engineer Killed.

Montreal, Dec. 4.—The switchman at the Grand Trunk station at Lachine this morning mistook the western express for the Lachine suburban train and switched it onto the wharf line. Before the mistake was discovered the engine of the express train had jumped the wharf into the river. The cars, with the exception of the baggage car, which is hanging half way between the top of the wharf and the water, remained on the track. Engineer Joseph Boise was killed. The escape of the passengers on the train was miraculous. There was a blinding snowstorm at the time of the accident, and to this fact is attributed the switchman's error in sending the train eut on the wharf. The same cause prevented the engineer from discovering their whereabouts until too late to stop: The dead driver was a native of Sociland. He resided in this city, and whereabouts until too late to sop. The dead driver was a native of Scotland. He resided in this city, and leaves a wife and six children. Among the passengers were George A. Birge, Hamilton; Robert Acheson and Mrs. Acheson, Stratford; James Stoddart and Miss Stoddart, Toronto; and Mr. Leonard, Quebec.

Broke His Wife's Arm

Broke His Wife's Arm.
TORONTO, Dec. 4.—James McFarlane, who lives in the rear of 435 Queen street west, went home last night the possessor of a large internal load of stimulant. He had not been long in the house when he began to evince dissatisfaction with the domestic arrangements. His wife did not take his remarks meekly and he proceeded to enforce his ideas with a chain. This was quickly broken over his wife's head, but not yet satisfied, McFarlane seized a stick of cordwood, and after a few strokes broke his wife's wrist. The police were notified by a neighbor, and arrested McFarlane, while the woman had to be taken to the hospital in the ambulance.

NORTH SYDNEY, Dec. 4.—A heavy gale raged here to-day, doing great damage to shipping. Telegraph and telephone lines are down, and full reports of the disaster are not yet to hand. The schooner Dairy was driven ashore at North Sydney and the crew saved by a line made fast to the foremast and held by a crowd on shore. Several vessels were badly chafed at the wharves. An American schooner, ashore near Lingan, has broken up. The Maggie Millar, Bella May and Corsair, ashore at Gabarus, will likely be a total loss.
