AT CARR'S

83 YEARS YOUNG AND 50 YEARS WED

Mr. and Mrs. William J. Davis Celebrate their Golden Wedding Most Happily Last Evening

Last evening witnessed one of those rare but always intensely pleasing and happy events, a golden wedding, at the home of Mr. and Mrs. Rex L. York, Mr. and Mrs. William J. Davis, parents of Mrs. York, were the couple who received the congratulations and after fifty years of married life they look as happy and congenial in each others company as the picture accompanying this article would indicate. William J. Davis was born at Waterville

and with his wife came to live with their daughter, Mrs. York, who then lived at Somerville where the elderly couple still have their home, directly opposite Hartland. Mrs. Davis in her girlhood was wealthy Whitney and was born at Waterville 72 years ago. She always held a prominent position in her community and is beloved by a large circle of friends. The children of this worthy couple are Mrs. W. H. Hannah of Jacksonville, A. Percy Davis of Los Angeles, Calif., and Mrs. Rex L. York of Hartland. They were married on March 26, 1874, by Rev. John Perry. At the reception last evening there was but one who was a guest at the original wedding. This was J. T. Carr. The happy event of last evening was particularly pleasurable to the fifty guests, which included five grandchildren and two great-grandchildren, which represents four generations.

in 1841, but he lived a great part of his life at Waterville, where he conducted a blacksmith business and carried on farming to some extent. Among his old neighbors he held a high place in their esteem. He was prominent in the work of the United Baptist church of which he was a member and for a long time was deacon and superintendent of the Sunday school. He belongs to the Orange Order and it is very doubtful if he ever voted anything but a Conservative ticket. A few years ago he sold out at

the fact that California is noted for its sunshine, unemployment is a fact that has to be reckoned with about fifty thousand men being idle in that city. Mr. Hand has a responsible position with a lumber company. Theodore Gallagher returned last week from Bangor, where he spent the past winter. F. C. Squires, Woodstock, was a professional caller in town during the week. Misses Josephine and Madeline Conner returned to Mt. Carmel Academy at St. John on Monday. Harold Jamieson, Grand Falls, passed through town Monday en route to Centerville, where he shall spend a few days at his former home. The roads throughout this section are in a very bad state. And the farmers are busy hauling home their fertilizer, while yet sufficient snow remains. The largest single consignment of fine carloads in number, arrived Monday. Indications are that a far greater acreage shall be planted this year compared with that of last year.

SCALDED TO DEATH AT CLEARVIEW

Tragic Death of a Child—Bath Meets a Bridge—Many Newby Bath Items

On Wednesday of last week the death of a child, the three year old daughter of Mr. and Mrs. Clair Smith occurred at Summerfield, death being due to scalds, received when she tripped and fell into a pan of boiling water, which had been placed on the floor, had been before. The heart-felt sympathy of the whole community goes out to the family in their sad bereavement.

Walter Bradley, Grand Falls, manager of McLaughlin's Theatre, was in town on Wednesday last. He was warmly greeted and while in town was the guest of Mr. and Mrs. W. J. Gorman, Church street. He returned to his home on Thursday received word from the Bath side with a horse and sleigh, broke through the ice. Fortunately it was near the shore so that soon after the horse, sleigh and driver were back on terra firma. I. at year Lee Cain of Knoxport had a similar experience and it was only with difficulty that his team was saved. It is hoped that should there be any more such accidents there will be no fatalities.

The sale now in progress at Bohan & Co's store is on account of the stormy weather, which prevailed during the first week to be continued until April 1.

William Mitchell, Holyoke, Mass., has returned to town after having spent the winter with his family.

Elbridge Giberson, Presque Isle, was during the past week, visiting his uncle, Charles R. Giberson, Holmesville.

A. Cohn closed his place of business on Main street and has removed to St. John where he shall continue in the same line of business. He intends to open his store on Prince Edward street. Mr. Cohn was a keen supporter of amateur sport and shall be greatly missed.

On Saturday Leo Kearney received a letter from Edwin Hand, who is now a resident of Los Angeles, Calif. Mr. Hand writes a very interesting letter and states that although California possesses a wonderful climate, still it has its disadvantages, despite

the fact that California is noted for its sunshine, unemployment is a fact that has to be reckoned with about fifty thousand men being idle in that city. Mr. Hand has a responsible position with a lumber company. Theodore Gallagher returned last week from Bangor, where he spent the past winter. F. C. Squires, Woodstock, was a professional caller in town during the week. Misses Josephine and Madeline Conner returned to Mt. Carmel Academy at St. John on Monday. Harold Jamieson, Grand Falls, passed through town Monday en route to Centerville, where he shall spend a few days at his former home. The roads throughout this section are in a very bad state. And the farmers are busy hauling home their fertilizer, while yet sufficient snow remains. The largest single consignment of fine carloads in number, arrived Monday. Indications are that a far greater acreage shall be planted this year compared with that of last year.

Tomorrow afternoon and evening at Woodstock there will be a meeting of all interested in the organization of a fishing, hunting and forest conservation association. This will be particularly for the protection of the streams and woods from poachers and also to protect the forests from fire. The Observer would suggest that this new organization be under the charter of and a branch of the New Brunswick Tourists and Resources Association and it is possible that either G. A. Allen, the secretary, or C. C. Avar, the president, may be present at tomorrow's meeting. Such an organization as is projected is really needed, but the Tourist Association also requires support in this county and their aims and objects are identical. The cost of membership in the Tourist Association is \$1.00 per year and it is doing magnificent work. The Observer has in his possession some mighty interesting facts concerning poaching on the lower Miramichi and regrets that before the Woodstock meeting it is not possible to prepare the forcible article which can be made from the facts at hand.

The Observer desires to secure the service of a woman capable and willing to clean its front offices, preferably on Saturday after three o'clock.

TO ORGANIZE FISH AND GAME CLUB

NO CHANGE IN POTATO GRADES

Prompt Action of Shippers. The Observer and T. W. Caldwell, M. P., all Work to Farmers' Advantage

The Root and Vegetable Act as concerning Potato Grades will not be changed. This is directly the result of the strenuous protest sent forth in letters by St. John valley potato growers and vigorous protest voiced by the Observer in its latest issue. G. E. McIntosh, fruit commissioner, has sent to the dealers along the line the following letter:

"I have your letters of the 13th and the 15th instants in regard to my request for your views on the proposed amendment to the Root Vegetables Act, concerning potato grading. I appreciate your suggestion that the present potato grades Canada A, Canada B and Canada C should not at this time be disturbed. There is however, under consideration the addition of a Fancy Grade in which the diameter of potatoes of the round varieties shall not be less than 2 1/4 inches and the potatoes of the long varieties, 2 inches. Although such a grade would not be extensively used, the British Columbia potato growers are most anxious to have it as it will provide a grade required in the sale of baking potatoes.

"Thanking you for your kind consideration and prompt reply to my request for your opinion in the above matter.

G. E. MCINTOSH.

The following press despatch came from T. W. Caldwell, M. P., this morning:

"I learned shortly after my arrival here for the session that the Fruit Commissioner, who has the administration of the Potato Grading Act, proposed to introduce some amendment to the above Act; one of them being to make our Grade A correspond with American fancy grade, in which the minimum size would be 2 1/4 inches and not over 30 per cent in any package should be of this minimum size. This was one of the features of the original potato grading act when it was presented to the house two years ago, and I had a very strenuous fight at that time to have this and a number of other possibly more objectionable features cut out of the bill.

"On learning that this was to be re-introduced this session I immediately went to Mr. McIntosh, the fruit commissioner, and told him that I would oppose the proposed change to the utmost, as I believed that it would work untold injury to the potato producers of New Brunswick. I also gave him the names of all the potato shippers on the St. John river and asked him to write a number of them and ask their opinion with regard to the proposed change and I am pleased to see by a late issue of your paper that they have replied to him promptly and vigorously in opposing the change. I also wrote to the number of representatives of the Horticultural Council and herewith will give you extracts from some of their letters. The following is from F. W. Bishop of Paradise, who was one of the representatives here:

"Referring to your letter re change of minimum sizes in potatoes there is apparently some misunderstanding as to the potato industry, and I understood these larger sizes to be a special grade of potatoes. Mr. Foster and I have each wired Mr. McIntosh that the growers here would seriously object to any change in the minimum size for Grade A and Grade B potatoes, but would not object to a fancy grade with minimum sizes as stated by you."

The following is a telegram from W. B. Gilman of Fredericton, another member of the Horticultural Council, who was in Ottawa when the proposal was supposed to have been made by that body:

"Do not know reasons for recommendations of changes if potato growers are full consulted. Advise you see T. W. Caldwell, M. P. In fact I have not been able to locate any member of the horticultural council who was present in Ottawa who will admit to recommend the proposed change. I also have a letter from A. G. Turner, secretary of the New Brunswick Fruit Growers' Association, as follows:

"At the request of W. B. Gilman, Fredericton, I enclose copy of a night letter received this morning by him in reference to proposed changes in the Root and Vegetables Act and copies of his telegrams to you and Mr. McIntosh. The constitution of the Canadian Horticultural Council provides for one representative of the fruit growers to the provinces of New Brunswick and Prince Edward Island combined. Mr. Gilman is that representative and presumably that is the reason why this night letter has been sent to him. The constitution provides for one representative of the vegetable growers for the three maritime provinces but at the present time I do not think that such a representative has been named for the coming season. The fruit growers are not the people to pass upon these questions and there is no organization of the general potato growers of New Brunswick other than the newly formed seed potato association to whom this letter can be referred, we think it should be placed in your hands" said A. G. Turner.

"I would through your columns request that a number of the leading potato growers as well as shippers should write to Mr. McIntosh their views on this matter, and I would be glad if they would forward me a copy of their letter to the fruit commissioner as it would materially strengthen my hand if this matter should come up in the house."

T. W. CALDWELL.

A Globe Trotter

His first order came from Montreal, followed a few days later by one from New York, asking that five pounds of Moira Chocolates be placed on board the Andania at Halifax, to accompany him to England. Moira hopes to hear from him when he reaches Luxor and at other points in

his progress.

Col. Laurie, too, when setting sail on the Andania took along about 25 lbs. representative to English friends of the high quality of your products.

We can't all enjoy a world tour. But we can all enjoy what adds to its attractions.
