At the meeting of the Curlers on Monday night it was decided to do away with the two nights per fortnight skating. But in cases when the weather was too cold or stormy to hold carnivals or hockey matches in the open air rink the Curlers' Rink would be used for such occasions.

Hon. Premier Tweedie who has returned from Montreal, where he was on private business, when asked concerning military drills in the schools, said that, "he had not yet had any conference with Sir Frederick Borden upon the matter but that it would be taken up at the next meeting of the local government."

Rev. Dr. Archibaldagent for Acadia University was in town last week making a personal canvass of the Baptist congregation for subscriptions for the above institution. He secured in cash and pledges the handsome sum of \$885.00. An effort is being made to raise \$2000 to make up the \$100,000 necessary to secure the grant of \$100,000 promised by Mr. Rockefeller.

The promoters of the open air rink deserve the patronage of the skating public of our town. Two nights per fortnight with little or no chance for hockey practice was considered insufficient for lovers of this healthful sport. The Curling Club has met the open air rink half way and if any hockey teams visit our town this season the Curlers' rink will be loaned for the games.
