-The Brock-Avenue Verdict. TORONTO, Aug. 28 .- Luther B. Willsie,

printer and ex-Salvationist, was sentenced by Police Magistrate Denison yesterday to five years in Kingston Penitentiary It was proven that the prisoner mar ried Sadie Walker at Owen Sound Oct. 5, 1985, and that he deserted her a few months ago and came to Toronto. Five months since he met Miss Emma M. Mahon at the Agnes-street Methodist Church, and on Aug. 1 was married to her by Rev. J. P. Lewis, Willsie called a number of witnesses in an endeavor to prove that Miss Mahon knew he was a married man, but the witnesses swore that they did not believe she was aware of the fact. Miss Mahon also testified that Willsie represented himself as a single man. The two wives were in court when sentence

was pronounced and No. 1 fainted. At the Police Court yesterday eight of the ferry captains were charged with running their boats faster than six miles per hour. It was agreed that one captain from each of the two companies should plead guilty and the charges against the others were withdrawn. A fine of \$10 without costs wa thereupon inflicted.

Nancy Stedman, aged 60, the woman who it is, alleged attempted to poison her grand son with a slice of bread on which Paris green had been sprinkled, was committed for trial by G. W. Ormerod, J.P., yesterday. The family resided at Woodbine-avenue. Mr. E. F. B. Johnston, ex-Deputy Attorney-General, representing Superintendent Tait of the Ontario and Atlantic Division of

the Canadian Pacific Railway, made application before Mr. Justice Street yesterday for leave to serve notice of motion to show cause why a writ of certiorari should not issue for the purpose of returning all papers in connection with the inquest on the late Patrick Dowling, one of the victims of the Brock-avenue accident, with a view to quash the verdict. His Lordship granted the application, which is return* ble on Tuesday next.

A big leak has been discovered in the 4foot wooden conduit across the bay, by which three-quarters of a million gallons of bay water is being daily pumped into the city's supply. Men are engaged repairing it.
