EDMONTON, ALBERTA, CANADA, FRIDAY, APRIL 3, 1908

250,000 MINERS TO QUIT TONIGHT

Operators Will Result in Close Down of Many Mines.

250,000 union coal miners will lay down their picks and shovels in Missouri, Iowa, Kansas, Oklahoma, Arbansas and Texas tonight and they will not return to work until a contract has been signed by the operators, In addition to these many workers in Indiana, Michigan, West Virginia and Kentucky may cease their labors.

Treaty which as announced some days ago, has been drawn up by Ambassa dor Bryce and Secretary Root, and provides for four members, two from the United States and two from Canada. A treaty of arbitration has also been drawn up by these two diplomats. The treaty will affect the use of water from the Niagara falls and the New Foundland fisheries. It is not yet in shape for presentation, however.

Vancouver, April 1.—Vancouver's died in Vancouver last sumoutcomer evenue for the fiscal year ending today shows an increase of fiftythree per cent. over the previous twelve months. E. B. Smith, superintendent of the Granby mines, says the output will be increased to five thousand tons daily just as soon as the smelter can be enlarged to accommodate the increased tonnage.

Within a fortnight. Messrs. Foley. Kentucky may cease their labors. Illinois miners, it is reported from Springfield, were willing to continue ADOPT POLICY OF work pending an agreement, but the operators decided to close down until

April 15th. It is now thought the miners and operators will have agreed by tonight. This same action will be taken by the Pittsburg district operators There is no question of wage or prin ciple at stake in the move, and, tech-nically, the miners state they will not work because the operators, excepting in Indiana and Illinois, show no real in the shafts will expire at midnight and no provision has been made in

ing has been successful.
