M'GILL REQUIRES INCREASED FUNDS

The Montreal University's Growth is Stunted for the Lack of a Sufficient Endowment to Carry on the Work.

Montreal, Dec. 26—The annual report of the Governor, Principal and Fellows of McGill University for the current year contains some very important statements as regards that institution's present position and future policy.

"If very little new ground," says the report, "has been broken, that already occupied continues to be cultivated with conspicuous success. It cannot be too clearly emphasized, however, that McGill's potentiality of growth is in the meantime nullified by lack of adequate financial support. During the past year practically no progress has been made in the vital matter of further endowment. With a normal deficit of over $50,000 in the annual accounts, it is every hard struggle to maintain existing operations. Opportunities of development must be allowed to pass.

"If the appeal for financial aid now being formulated by the board of governors should again prove relatively successful, there will be nothing for it but retrenchment and curtailment along the whole line."

"A general feeling exists that the university ought to do more, wherever it possibly can, to encourage student activities. The campus is not large enough and with the growth of the undergraduate body it will become at least relatively smaller as the years advance.

"One of the obvious disadvantages of an urban site for a great university is that it cannot expand. Most of the colleges at Oxford, with an average of only 150 residents, each have three or four times as much space available in their playing fields as McGill can put at the disposal of its 1400 men students.

"Posterity will blame us if we fail to take advantage, up to our means, of every opportunity that offers for securing new ground, with additional facilities for athletics, as near as possible to the university."

Since the failure of the Relief Fund Movement, started in 1906, the annual deficit of the university—then foreseen to be inevitable—has gone up by leaps and bounds.

"The university of Toronto now enjoys an annual income of about $756,000, provided by a generous Legislature. From the Quebec Government McGill receives only $3000 annually.

"The board of governors will, in due course, after announcing the subscriptions of larger donors, issue a statement to the general body of citizens appealing for help."

EXPLAINING TO POPE.

Prince Maximilian Goes to Rome to Explain Personally an Article He Wrote.

Rome, Prince Maximilian of Saxony, a Jesuit and brother of the king of Saxony, has arrived for an audience with the Pope and meanwhile is busy in-tying himself to all callers. The object of his visit is personally to explain to the Pope the authority for his famous article in an ecclesiastical periodical on union of the Orient and Roman Churches.

It is his desire to prove that he was in no way rebellious against the Roman church, that he did not criticise his superiors and that modernising the Orient did not enter into his argument. The Prince is professor of canon law at the Swiss University of Friedburg.

REVOLUTION EXPECTED.

Belief That the Alleged Filibusterer Hornet is Heading for Honduras.

Puerto Cortes, Honduras, Dec. 26—That a revolution is pending seems certain. Although so far Honduras continues quiet there is an undercurrent of unrest. There is a belief that the Hornet is headed for this city.

The excitement, however, is confined to the native element entirely, as the Americans here are confident that the United States S.S. Tacoma, now in the harbor, will protect their interests.

Commander Archibald Davis has notified the officials here that he will not permit fighting within the city and if there is any disturbance he will land marines to protect foreign property.

WORLD-WIDE HUNT FOR KIDNAPPERS

New York Police Throw Out Dragnet For Escaped Sicilians Who Are Wanted on Kidnapping Charge.

New York, Dec. 26—Circulars asking for the arrest of Rosario Castelli and his wife, Giovanna, and of Vito Sorisi and Leonardo Arena, on a charge of kidnapping, were sent broad cast over the world yesterday by the police department. These are Sicilians who escaped the police when they rescued 8-year-old Giuseppe Longo and arrested a band of supposed kidnappers in a tenement at 339 East Sixty-third street a week ago. The same band is believed to have kidnapped Michael Rizzo, who was found wandering in East One Hundred and Seventh street the following night. Both boys were stolen from their homes in Brooklyn on November 19 of this year.

The circular has photographs of Sorisi and Mr. and Mrs. Castelli, the former being from a proof found in his room, which had begun to blacken from the light.

Sorisi, who is also known as Rappa and Colorino, was born at Borgetta, Province of Palermo. He is 23 years old, five feet seven and a half inches in height and of slender build, weighs 150 pounds and his chestnut hair and mustache, grey eyes and an aquiline nose. His wife is 23 years old, five feet five inches tall, with rosy complexion and dark hair and weighs 135 pounds.

Arena, alias "Ronna," of whom no picture is shown, is 23 years old, five feet seven or eight inches in height, with a tan complexion, dark hair and smooth shaven face. He weighs 160 pounds and is said to have two moles near his right eye.

The clue which led to the rescue of the Longo boy and the capture of the band was given by an anonymous letter to William J. Flynn, second deputy police commissioner, after the police had worked for three weeks unsuccessfully. It said that the two boys had been taken to the East Sixty-third street address and might still be there.

A raid was made by Policeman Miceli and Carrone, Black Hand experts of the department and five other policemen, disguised as laborers. They were accompanied by Nicholas Rizzo, a brother of Michael Rizzo and a playmate of Giuseppe Longo, who, peering over a transom, saw the latter in a room on the second floor. The policemen, after a struggle and chase, arrested seven men and two women, but in the confusion the quartette now wanted escaped capture or were not there at the time.

Michael Rizzo was found the following day, his captors having apparently become frightened by the arrests of the preceding night.

Both boys said that they were decoyed from the street near their homes by men who invited them to see a moving picture show. The Longo boy had been kept in the room in which he was found since the night of his abduction, but Rizzo, according to his story, had been taken to several different places.

A ransom of $15,000 had been asked of the parents under dread of death to the boys unless the money should be paid.

December 24th.

Gimli, Man., Dec. 25—There is apparently no foundation for the report of eight teams and eight men being drowned in Lake Winnipeg. This report was probably incorrectly circulated owing to the fact that a party of eight teams while crossing the lake had one team break through the ice but which was soon gotten out.

FRUIT IS THE SAFETY VALVE

That Regulates the Body

"Fruit-a-tives" Is The Only Medicine Made of Fruit Juices.

"The Creator, in His wonderful economy, has always constructed with a purpose. He has distributed fruit all over the earth and has caused them to mature at a time when the solid and carbonaceous foods are not needed by the body. The latter only clog the vital machinery resulting in disease, whereas the juicy, stimulating properties of fruit keep the vital forces properly balanced and regulated."

GEORGIA HORTICULTURAL SOCIETY.

Unfortunately for those who live in Canada, fresh fruit is expensive and—in many localities—almost impossible to get. But everyone can obtain "Fruit-a-tives", the famous tablets made of fruit juices. "Fruit-a-tives" contains the juices of apples, oranges, figs and prunes—and is the greatest cure in the world for all troubles of Stomach, Bowels, Kidneys, Liver and Skin. In case of disease, and in preventing disease, "Fruit-a-tives" is far superior to fresh fruit.

50c. a box, 6 for $2.50, trial size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

RAILWAY ACCEPTS THE RESPONSIBILITY

Seven Bodies Have Been Identified by Scraps of Clothing, Buttons, Etc. and Twenty Other Persons Are Missing and Probably Dead.

Kirkby Stephen, England, Dec. 26—An inquest into the disaster which befell the Scotch express Saturday near Hawes Junction was held today near the spot where the train was ditched and burned.

The solicitor for the railway expressed the company's regret for the accident but accepted full responsibility for it. He said it was due to the momentary forgetfulness of a signalman.

By the aid of scraps of charred clothing, buttons, keys, etc., seven bodies of victims have been identified, but the evidence today indicated that twenty other persons are missing and probably were utterly consumed by the fire after the train was derailed.

BAN PLACED ON PRODUCTIONS.

This Did Not Interfere With big Attendance in Ancient Capital.

Quebec, Dec. 28—Despite the ban placed on the Montreal Musical Society grand opera productions in this city their opening last night here was a pronounced success. The auditorium theatre was crowded with a capacity house which included ministers, judges, government officials and the elite of the society of the Ancient Capital. It is stated that Archbishop Begin did not absolutely interdict the performance but strongly advised good Catholics to stay away. Manager Lamontagne states that this advice has had no apparent effect and that the prospects for the season are excellent.

SUCCESS DUE TO HIS WIFE.

Sinks Holes for Oil and Would Have Abandoned the Wells But She Would Not Let Him Give Up.

Pittsburg, Pa., Dec. 26—Joseph C. Trees, head of an oil company which has sold its Louisiana oil bearings for $4,000,000 declared today all his success was due to his wife. According to Tree's own statement he had drilled eight or nine fourteen years ago, all of them dry, and had decided to work as laborer for the rest of his life as it would take him all the time to pay the debts he had incurred in sinking the eight dry holes, but his wife would not let him give up. His next move resulted in strike.

TWO THOUSAND TEAMS TO HAUL SUPPLIES

Great Preparations Are Now Being Made for Next Season's Construction at the Grand Trunk Pacific Railhead West of Edmonton.

W. J. Webster, immigration agent for Edmonton, returned on Saturday evening from a trip to Edson, Entwistle, and points on the Grand Trunk Pacific, west.

Mr. Webster reports great activity at Edson and other points near the end of steel. As soon as sufficient snow comes there will be two thousand teams hauling supplies into the mountains for next year's work. At present there are hundreds of men engaged on the round-house and station at Edson. The round-house will accommodate twelve engines, while the station is to be the largest on the line, west of Winnipeg. Steel has now advanced to mile 48 and will reach Prairie Creek in fifteen days.

Malcolm McCrimmon, contractor on the G.T.P., will freight west from the end of steel. Other contractors will outfit at various points along the line.

Mr. Webster was much interested to note the progress on the roads being driven through to Grand Prairie.

"From Edson, I drove out twelve miles on the new road and found it very good. The provincial government, who are building the road, are putting a ferry across the Athabasca at its junction with the Baptiste, a bridge over the Baptiste, and another over the Little Smoky. The Big Smoky will be crossed by a ferry near Grande Prairie. The people from Grande Prairie started an agitation for this wagon road, but the government had to come to their assistance.

At the ferry over the Athabasca, the Edson road and the Medicine Lodge road unite, and run north towards Sturgeon Lake and Spirit River. The distance from Edson to Grande Prairie is only 165 or 170 miles and from Medicine Lodge, the same or a little less. "I have spoken with several people who have been over the road and though they say there are some bad hills for the first thirty or forty miles, between the Baptiste and Spirit River there is a level road with good land all the way."

Mr. Webster was charmed with the weather at Edson. "They got the chinooks there you know, and at present have no snow. We could see the mountains quite plainly and the pass where the mountains dip down to form the valley of the Athabasca. It was a very beautiful sight.

The Department of the Interior have erected recently an immigration hall of Entwistle—quite a commodious structure, 72 x 33 ft., two stories high. It is the intention of the Government to build one at Edson or some other point west, but nothing definite has as yet been done. Things are in a very formative stage and a site has not yet been chosen.

HAD A NARROW ESCAPE.

London Policeman Grappled With Armed Robber.

London, Dec. 26—A striking example of the disadvantage of unarmed London policemen in the pursuit of burglars occurred today when Policeman Haytread was fired at four times by a robber. When the policeman grappled with the lawbreaker the latter pressed the muzzle of his revolver to the policeman's forehead and pulled the trigger. The failure of the cartridge to explode thereby saving the policeman's life.

Graham-White Abandons Contest.

Although the weather so far has remained fine and open, work is beginning to get scarce.

The curling rink is finished, but it is not yet ready for use. The same it ican not yet ready for use. The same applies to the skating rink.

A dance was held yesterday in the large dining room of Klein's hotel. The dance was given by Mr. Rathay and was well attended.
