THURSDAY, May 18, 1911.

The Report of Methodist Schools.

The Report gives 217 as the total of Schools and departments and 217 teachers with 14,395 pupils enrolled. The increase for the year was 12 schools and 239 pupils. In two years there has been an increase of 25 schools and 954 pupils, and in 11 years, since 1900, the increase has been 122 schools and 4,792 pupils, or 62 per cent. respectively. In the same time, salaries of teachers have increased over 100 per cent., the amount paid last year being \$78,208.55. Fees amounted to \$15,572.20, an increase of \$294.85 for the year. Forty-seven teachers fell out of the ranks in 1910, of whom 8 have returned to College for further training and 39 to seek other employment. One hundred teachers obtained grades in the same year, 89 from the Board of Examiners and 11 diplomas for Associate in Arts from the Council of Higher Education.

This is what the Superintendent has to say of The Council of Higher Education. The work of the Council of Higher Education grows rapidly. In 1905 a total of 1,866 entered for the examination—35 for Associate in Arts, 297 for Intermediate, 682 for Preliminary and 871 for Primary. In 1910 a total of 3,736 entered—76 for Associate in Arts, 591 for Intermediate, 1,367 for Preliminary and 1,702 for Primary. Thus in five years the increase was over 100 per cent. As an indication of public appreciation of the work of the Council this growing interest and patronage should count for much. Of the 3,736 that entered in 1910, 3,294 sat—70 in Associate in Arts, 826 in Intermediate, 1,228 in Preliminary and 1,470 in Primary. The Passes numbered 2,073—39 in Associate in Arts, 409 in Intermediate, 797 in Preliminary and 828 in Primary. To accommodate these candidates 130 Centres were established, and 358 schools participated. For the current year there is a large increase over 1910 both in Centres and candidates.

The C. H. E. diploma is increasing in value from year to year. Until a recent date the only diploma from Newfoundland that was valued by universities was that of the London University. Of late years, however, the latter has become of little worth, as the diplomas of the Council of Higher Education are accepted by the institutions of learning patronized by our students. The great Universities of Canada—McGill, University of Toronto, Queen's of Kingston, Ontario, Dalhousie of Halifax, N. S.; Mount Allison, Sackville, N. B.; King's College, Windsor, N. S., and Manitoba University, have agreed to place certain values upon the Intermediate and Associate in Arts diplomas, while the joint Board of the Scottish Universities accepts the Associate diploma for Matriculation in Medicine. Students from a number of our Superior Schools, therefore, may now matriculate into university life without leaving home, and those who take Associate in our Colleges may be accepted as Sophomores in the Arts Course. Thus the work of the Council continues to increase in volume and usefulness.

Among the recommendations and suggestions of the Superintendent are: (1) A summer school for teachers for expert training in the art of teaching; (2) A general system of training to include all schools and all pupils beyond a certain standard; (3) Visitation of schools by the local M. D. say once a quarter; and (4) Hygiene as a class subject for all advanced pupils, while all pupils should be instructed in the principles of health.

SUSU AT HERMITAGE.—The S. S. Susu left Hermitage Cove at 4.30 a.m. to-day.

Fell From Scaffold and Badly Injured.

William Keefe, stone mason, son of Andrew Keefe, while working with ten other masons on St. Patrick's Church, fell from the scaffold this morning and was badly injured about the shoulder and head. He was on a scaffold close up to the eave on the western side of the church doing some pointing work when he stumbled and fell. Fortunately the sloping roof of the ambulatory was only ten feet below him. He fell on his shoulder and slid down the slope to another scaffold at the edge thereof, which stopped his fall and prevented him coming to the ground. He was assisted down the ladder by the foreman and was shortly after able to walk to the carriage on Patrick St., that had been called to take him to his boarding house at Mr. Henry Simms, where the doctor visited him. His arm is not broken but the scapular bone is fractured and will prevent him from going to work for several days.

Miss Lee Was Seriously Injured

Miss Lee, of Witless Bay, was in the express that was derailed at Cook's Brook last Monday. She was coming from Sydney and had the care of three small children, one only 7 months old. When the car turned over Miss Lee received a kick in the eye with a man's boot. The child was thrown out of her arms but was caught by one of the mail passengers. Miss Lee stayed with her relative, Miss Gathal, Water St., while in the city, and when she left for home this morning had recovered from the effects of her injuries, except that there was a black mark still over her eye.

McMurdo's Store News.

THURSDAY, May 18, '11.
How to protect your furs from the ravages of moths is a pertinent question in Spring. Bell's Pure Fibre Moth Bags solves the problem perfectly. Absolutely moth-proof and dust-proof, light, clean and odorless, allowing you to hang up your clothes without folding or creasing, comparatively inexpensive, they answer all the requirements of the careful housekeeper. When you take the garments out to wear again it is not necessary to "air" them to remove any disagreeable odor, and they are ready at once. If you have any furs, or winter garments that you value, by all means secure one or more of these from us. Prices complete with strong hangar, 25, 40, 50, 60, 70 and 80c., according to size.

Coastal Boats

REDD'S BOATS.
The Argyle left Burin at 7.35 p.m. yesterday.
The Clyde arrived at Lewisport at 8.25 p.m. yesterday for the south.
The Dundee arrived at Port Blandford at 6.50 p.m. yesterday.
The Ethie arrived at Catalina at 8.30 p.m. yesterday.
The Glencoe left Grand Bank at 8.20 a.m. to-day going east.
The Home left Bay of Islands at 6.15 p.m. yesterday.
The Invermore left Port aux Basques at 1.40 a.m. to-day for North Sydney.

BOWRING'S BOATS.

The Prospero left Bonavista at 10.55 a.m. to-day.
The Portia arrived at North Sydney at 9 a.m. to-day and sails again this evening.

Here and There.

CHICKEN WITH TWO HEADS.—A chicken with two heads was hatched out at Mr. Duff's, Mundy Pond Rd., yesterday.

C. L. B. OFFICERS MEET.—The commander and officers of the C.L.B. met to-night to discuss an important matter in connection with the Brigade.

TOWED TO TESSIER'S.—The Nellie Louise was towed up to Tessier's this morning by the D. P. Ingraham to land her cargo of molasses for W. A. Munn.

RUNAWAY HORSE.—A horse took fright on Gower St. last evening and ran up New Gower St. at a wild pace running into George Street. The two shafts were broken and the express was left behind.

IS DANGEROUSLY ILL.—Mr. D. Clatney, Sacristan of the R. C. Cathedral, who was taken suddenly ill last evening is to-day in a precarious condition and fears for his recovery are entertained. Heart trouble is the cause of his condition and he is being attended by Dr. Fraser.

DIPHTHERIA AT WITLESS BAY.—Yesterday afternoon the Health Authorities were advised that two cases of diphtheria developed in the house of Mr. Lawrence Carow, Witless Bay. Two children are ill with it, Dr. Giovenetti is looking after them and the house is quarantined.

BANKERS DOING POORLY.—Burin vessels which arrived here yesterday report that bankers of that place are doing very poorly since taking up the voyage this year, this being mainly due to bad weather. The vessels to-date have only from 300 to 400 qts., whereas up to date last year they had treble this quantity.

THE EXODUS CONTINUES.—By the Florizel this afternoon a number of young men, mostly mechanics, who can't get remunerative employment here, will leave for Canada and the United States. Most of them are clever workmen and will do well abroad. Many others are intending to go away later and most of them will leave here by the middle of June.

Schooners in Danger.

Three schooners coming to St. John's from Musgrave Harbor were in danger of being driven ashore at Elliston (Bird Island Cove) yesterday. They ran in there for shelter the previous evening, and the storm increasing, the crews all left them, fearing the worst. The skipper of one of the schooners, William Guy, telegraphed here to Mr. J. B. Wheeler, J.P., last evening asking whether any assistance could be sent to save the schooners. The storm abated last night, however, and as the schooners' chains held out, the crews went on board, got up their anchors and sailed for St. John's.

Supreme Court.

(Before Chief Justice.)
In re Judic. Act, J. A. McNelly vs. Charles R. Thompson, et al.
Upon motion the case is set for Friday, June 9th, 1911.

Train Notes.

The west bound express arrived at Port aux Basques at 1.05 a.m. to-day. The incoming express left Clarendville at 8 a.m. and arrived at St. John's at 1.45 p.m. to-day.
The local train arrived from Carbonear at 12.30 p.m., bringing 50 passengers.
The local train at 8.45 this morning took out Rev. Fr. O'Reilly, Messrs. Pike, Hutchings, Gosse, Penny, Davis, Tapp, Barnes, Hearn, White, Lewis, O'Sourke, Woodford and 40 others.

I cured a horse of the Mange with MINARD'S LINIMENT.

CHRISTOPHER SAUNDERS, Dalhousie.

I cured a horse, badly torn by a pitch fork, with MINARD'S LINIMENT.

EDW. LINIEF, St. Peter's, C. B.

I cured a horse of a bad swelling by MINARD'S LINIMENT.

THOS. W. PAYNE, Bathurst, N. B.

Here and There.

LOADING ONE.—There are now three steamers at Bell Island loading ore.

TEMPERATURE.—Along the line to-day the temperature is 32 to 50 above.

MAY COMPROMISE.—Rumor has it in certain circles to-day that a Water Street business establishment is trying to tide over difficulties and it is thought it will succeed.

RAILWAY LABORERS.—About 40 laborers arrived from Conception Bay to-day and detained at Waterford Bridge where they will go to work on the Trepassy Branch Railway.

DIED AT KELLIGREWS.—Messrs. Bridget Lacey died at Kelligrews this week. Her father, Mr. Edward Nugent, has got a bad case of cancer and is not expected to recover.

DIED AT KELLIGREWS.—Mrs. A. Fenherne and R. Herman, of Selly Cove, T.B., caught several codfish there of large size for this early season. This is the first appearance of cod in the place.

GUARD RAILS WANTED.—Laborers who work on the city wharves complain that they are often sent to the roofs of high buildings to spread fish. When the wind blows with force there is great danger of the men being blown off as they approach the edge of such roofs, and to guard against such an occurrence guard rails should be put on stores and other buildings where men are employed.

THREATENED TO BEAT HER.—Because she laughed (while passing them) at a remark made by her two sisters who were coming down Water Street in her company yesterday, Mrs. Bart Evans, of Barter's Hill, was followed by two disreputable females and called the most insulting names, while they threatened to beat her also. They imagined that Mrs. Evans was laughing at them, but she was not. Her sisters had to fly and the ears of the three females were assailed with horrible language.

Marine Notes.

The Ameriana left Liverpool at midnight for this port.
The schr. Emma F. Whidden sailed this morning for Bayfield, N. S., and will run from there in the cattle trade during the summer.

The schr. Nellie Louise, Captain Burke, arrived here from Barbadoes to-day after a run of 27 days during which she had fair weather mostly. She has a molasses cargo for Bowring Bros. Mr. Dugald Munn went by the vessel for the round trip.

The Bella-Rosa is loading fish oil at Bowring's South Side premises for Hamburg.

The Dunure is loading fish for Brazil at Bowring Bros.
The Galatea, Capt. Parsons, arrived last evening at Oporto in the very quick time of 12 days. This is Capt. Parsons' first trip in the vessel.

The Amethyst sailed for Montreal this afternoon.
The Gaspe cleared to-day for Pernambuco taking 5,540 qts. fish shipped by Jas. Baird, Ltd.

The Florizel sails at 4 p.m., taking as additional passengers Mr. Lent, Mrs. Dr. Macpherson and child and 45 in steerage.

The schr. Annie E. Larper, to A. S. Rendell & Co., with coal from Sydney, arrived here this morning after a 3 days run.
The Adventure is due here from Sydney to-night.

The R. M. S. Mongolian arrived at Halifax at 9 o'clock this morning.

Business is Business.

Goldenberg, with a gold chain, met Abraham with a brass one.
"Dot is no goot?" exclaimed Goldenberg. "Vy do you not get on?"
"Ah," replied Abraham sadly, "ve haf not all your luck, mine friend!"
"Luck? It is not luck. It is business—goot business. If you wish to learn my business, come mit me to my second-hand clothes shop, and I vill sell you a cheap liddle stock to start with."

"Orlight—orlight!" answered Abraham, his eyes shining greedily. "You are a goot friend."
"But his eyes did not shine with greed next morning, unless it was for his goot friend's blood.
He rushed angrily into Goldenberg's shop.
"Lie!" he shouted. "You sold me zis coat for ten shillings, and it is only worth two-and-six!"
"Here you are, you see," replied Goldenberg. "You half learnt ze business already!"—Answers.

PROPERTY BOUGHT.—At the auction of Mrs. Carey's place, Salmonier Road, at C. O'Driscoll's rooms to-day, Mr. F. J. Morris, K.C., bought it for \$1,500.

DIED.

This morning, after a long and tedious illness, Julia, daughter of the late Colin Stevenson, and wife of James Stowe, aged 60 years. Interment will be at Harbor Grace.

BROKEN-DOWN SYSTEM.
It is a condition of affairs which does not exist in any other country. It is a system of broken-down men, broken-down women, broken-down children, broken-down families, broken-down communities, broken-down nations. It is a system of broken-down men, broken-down women, broken-down children, broken-down families, broken-down communities, broken-down nations. It is a system of broken-down men, broken-down women, broken-down children, broken-down families, broken-down communities, broken-down nations.

VITAL STRENGTH & ENERGY.
The most important of all the human qualities, and the one which is most easily lost, is vitality. It is the power which enables us to resist the forces of disease and decay, and to maintain our health and vigor. It is the power which enables us to resist the forces of disease and decay, and to maintain our health and vigor.

THERAPION No. 3.
This is a new and powerful medicine, which is the result of the latest scientific discoveries. It is a powerful medicine, which is the result of the latest scientific discoveries. It is a powerful medicine, which is the result of the latest scientific discoveries.

THE EXPIRING LAMP OF LIFE.
Lighted up afresh, and a new existence imparted in place of what had so long seemed worn-out, faded, and valueless. This wonderful medicine is purely vegetable and innocuous, and is suitable for all constitutions and conditions, in either sex, and it is difficult to imagine a case of disease or derangement, whose main features are those of debility, that will not be speedily and permanently benefited by this powerful and life-giving essence, which is destined to cast into oblivion all the morbid influences of disease, and to restore to the human system the vitality and vigor of youth.

THERAPION is sold by all chemists and druggists throughout the world. Price in England, 4s. 6d. The characters should see that the word "THERAPION" is on a red ground, and that the name "THERAPION" is on a white ground, and that the name "THERAPION" is on a white ground.

Therapion may now also be obtained in Drages (Tasteless) form.

Are Your Eyes Weak?

How you may know when Glasses should first be used and those in use abandoned:

- 1st—If you are obliged to move small objects further from the eye in order to see distinctly.
- 2nd—If you find it necessary to place the light between the eyes and the object.
- 3rd—If, when considering a near object, it appears to have a kind of mist before it.
- 4th—If the letters of a book run together, or seem blurred or double.
- 5th—If the eyes are fatigued by close exercise, and you are obliged to relieve them by rubbing or closing them.
- 6th—If black spots appear before the eyes or seem floating around them.

If you observe any of the above signs of distress, it indicates that the "accommodating muscles" of the eyes are no longer able to alter the shape of the lens so as to focus rays of light coming from different distances. A contest with failing sight is hopeless and properly fitted glasses will relieve you.

We make no Charge for Examining the Eyes and we Guarantee Satisfaction.
