WATER STREET. JEWELRY STORE. ST. JOHN'S.

70th Anniversary of St. Andrews Church.

Yesterday was one long to be remembered in Presbyterian circles. The annual Thanksgiving Day services took place and the event was a memorable one because it was also the 70th anniversary of the opening of St. Andrews' Church. The services were held at the Kirk, they were of an inspiring and special character. In the morning the ceremonies were most impressive. The rendition of the anthem: "What Art Thou" by the choir was very fine. The organ voluntarily (offertory in G.) was excellent. Miss Strang sang the solo: "Far from My Heavenly Home," and rarely has she ever heard to such good advantage. Rev. J. S. Sutherland, who conducted the services, preached a learned, impressive and instructive sermon on "The Days of Old." He held the close attention of his hearers all through his discourse as he dealt with St. Andrew's Church from its inception seventy years ago down to the present time. The evening services were equally imposing. The choir rendered "The Earth is the Lord's" and the organ voluntarily (Grand chœur in D). Mrs. King sang the solo, "O God, Our Help in Ages Past" in beautiful voice. The Pastor, Mr. Sutherland, gave a very fine and able address on "A New Song." At all the services Thanksgiving collections were taken up. The entire ceremonies, morning and evening, were exceptionally solemn.

The ladies of the Missionary Society have much pleasure in announcing that His Excellency the Governor and Mrs. Davidson have kindly consented to open their annual Christmas sale, on Wednesday next at 3.30 o'clock. They hope for a generous patronage from the congregation, as they are making an extra effort this year to have everything bright and attractive. The work table, under the able management of Mrs. Skinner and Mrs. Butler, will be filled with useful and pretty Christmas gifts. The fact that the cake and pudding table is in charge of Mrs. R. H. Anderson and Mrs. Sime, and that Mrs. J. B. Mitchell and Mrs. Hector McNeil are looking after the candy sale is a sufficient guarantee that these departments will be quite up to the usual excellent standard. The centre of attraction, however, particularly for the children who are specially invited to be present in the afternoon will be the toy table, which will be in charge of Mrs. Sheriff and Mrs. Hanlin. Afternoon teas will be served. At 8 o'clock a Grand Concert will be given, the excellence of which is guaranteed, when it is known that Miss Strang has kindly agreed to take charge of the programme. Mrs. D. Baird with her fine band of helpers, will be ready to serve the partridge supper at 9.30 p.m.

The Station Agent

Have you ever sat and waited for a railway train belated, have you hung around the depot half a day? Then you've marked the angry patient marching round the station agent, and have ceased to wonder how long he'll stay. All the times he's before him and denounce him and implore him, and they ask the same old thing a million times; and the agent, still politely, gives the information rightly, in an effort to deserve his meagre dimes. Forty million times he answers all the snorters and the prancers, and he never groans or whimpers over his task; there are fat and fussy strangers, there are sour be-whiskered grangers, and they all have silly questions they would ask. There are women with their babies, there are gents who have the rabies, and they gather round the agent in a ring; there are jays of all descriptions throwing fits they call conniptions, and they all have fool questions they would spring. And the agent answers patiently, answers patiently and sanely—I admire the station agent for his pluck! In his place I'd rise in judgment, seize the nearest wet elm bludgeon, and among the question springs run amuck.

ANNIVERSARY SERVICES.—The Anniversary Services of Cochrane St. Sunday School will be held next Sunday.

STOP Coughing.

How often do you awake during the night and have an attack of "Coughing"? Don't you find that the cough is caused from a tickling sensation in the throat? What is the cause of this tickling sensation? It is because you contracted a cold in some simple way and did not trouble about it. The cold has developed to a "cough," and now you must try and obtain some remedy to stop this "cough." If you do not do this you are making a great mistake. A mistake which is often the cause of regret for the rest of your life.

If you have a "Cough or cold" try a bottle of Stafford's Phoratoric Cough Cure; also mix equal parts of Stafford's Liniment and Camphorated Oil in a saucer, warm slightly saturate a piece of thick flannel with some, and apply to chest and throat. You will find relief at once.

The large quantity of these two preparations having been sold this year prove them to be genuine. Prepared only by DR. STAFFORD & SON, St. John's, Nfld., Manufacturers of "Three Specialties": Stafford's Liniment, Prescription "A," Phoratoric Cough Cure.

Thanksgiving Turkeys Came High.

New York, Nov. 27.—Thanksgiving Day feasting began as early as one o'clock this morning, with the opening of the Bowers' Mission's bread line, with food enough on hand to satisfy the needs of 3,000 hungry vagrants. The work of the various charitable organizations continued throughout the day very close to the programme carried out in previous years, notwithstanding that high prices for foodstuffs made the work more expensive than ever. At least half a dozen dinners at each of which from 1,000 to 3,000 persons were to be served, were provided, and in addition to this work of the regular philanthropic organizations it appeared that an unusually large number of private benefactors had arranged to help the unfortunate in some way or another. In many ordinary households the dread sceptre of the high cost of living dethroned the traditional turkey, the retail price of which had risen on the eve of Thanksgiving to thirty-five cents a pound, for the best grades, and from 25 to 30 cents a pound for cold storage fowl.

Although it had been predicted that the arrivals of poultry which were larger than for several years, would show that the turkey was holding its own, the total receipts are said to show about twenty-five tons less in turkey arrivals than in other years.

According to retail dealers, the shortage is due to the fact that storage warehouses are holding the birds already killed for the Christmas and New Year's trade, and the farmers are keeping their stock for another month, so that the turkeys will be fatter and command higher prices.

Healthy and Unhealthy Lighting

Gas, it may be said, vitiates the atmosphere. True. But it also helps to purify it. Its purifying power is greater than its vitiating power. Electricity does not vitiate, nor does it purify. Hear what three eminent men have said:—
Such evidence has lately been adduced to show that gas is more useful than the electric light in promoting efficient ventilation of air. It is for this, amongst other reasons, that gas is being frequently substituted for the electric light. The latest example is, perhaps, the Society of Medical Officers of Health, which has recently installed gas on its premises, after experience with the electric light.—Dr. Jamieson B. Hurry.
He would merely add that no member who had experience of their meeting room under the old conditions could deny the improvement that had taken place since gas had been substituted for the electric light and the new system of heating and ventilation had been installed.—Dr. Reginald Duffield, before the Society of Medical Officers of Health.
I have in my mind's eye, at the moment, a hall which, in the old days, was lighted by gas, and in which a large audience could, with comfort, sit through an hour's lecture, or with pleasure through a three hours' dinner, but which with the march of civilization, had its illumination changed from gas to electricity, the latter been employed with all the latest refinements to effect the lighting under the best conditions, with the result that any large gathering within its walls leads to a state little short of asphyxiation.—Vivian B. Leves, Professor of Chemistry at the Royal Naval College, Greenwich.—Nov. 8, 11.

Milk Farms Inspected

The dairies visited last week by Health Inspector O'Brien, with a few exceptions, show a decided improvement as regards cleanliness. The officer visited seventy milk farms, cow sheds and dairies, and ten slaughter houses at Torbay, while those at Mundy Pond, Blackmarsh and Pennywell Roads and Upper Pleasant Street were also examined.

THE EASTERN TRUST COMPANY.

The business of the The Eastern Trust Company is to administer Trusts. In this work it specializes, and it does no other. But no kind of trust is foreign to its scope or beyond its power to administer efficiently. The Eastern Trust Company never speculates. It invests. It depends for its prosperity upon the efficiency of its management of its clients' business and upon the security of its investments. The Eastern Trust Company executes the office of executor or administrator with unexampled efficiency, and its usefulness in this field is becoming rapidly more availed of. For instance:—In St. John, New Brunswick, where it has quite lately established a branch, the estate of James Ready, of Fairville, which has been sworn to under \$651,200.00, is being administered by The Eastern Trust Company as one of the joint executors of Mr. Ready's will. In Halifax, Nova Scotia, again, The Eastern Trust Company has just been chosen to administer the estate of Captain William Fleming, which is valued at more than half a million dollars. The Company now administers many estates which is value amount to several millions of dollars. Particulars will appear in later advertisements. The Eastern Trust Company can execute this function of executor or administrator as efficiently in Newfoundland as it can in Nova Scotia, Quebec, or New Brunswick. The Eastern Trust Company requires commodious offices on Water Street. Apply to

HERBERT KNIGHT, Law Chambers, Manager for Newfoundland.
