The different parties from St. John's who had been here to take part in the Memorial Service in St. Andrew's Presbyterian Church on Sunday last, returned to the city again by Monday morning's train.

Mr. J. J. Winter of Briggs is in town to-day on his usual monthly visit to attend to business.

Mr. George Pike, ex-R.N.R., son of Mr. and Mrs. Edward Pike of this town, arrived from St. John's recently and spent a few days here collecting subscriptions to the book that is not long published, containing the history of the Royal Nfld. Regt., which book is entitled "First Five Hundred." He left for Carbonear Tuesday to continue his work in other places. We wish our ex-R.N.R. every success with the sale of this very interesting volume.

Mr. Albert Rogers has been confined to his home for some days past, but he is now on the mend, and hope to see him out again very soon.

The annual Missionary Meeting of the Methodist Church was held here on Sunday night last. Owing to the Memorial Service at St. Andrew's Church being held on the same night, the Missionary meeting did not commence till 8 p.m. Mr. John Trappell presided over the meeting, as in former years. The chief speaker for the night was the Rev. C. H. Johnson, pastor of Cochrane Street, Centennial Church, St. John's, and the sermon delivered by him was indeed of a very high order, most interesting and impressive. Other speakers were Rev. R. J. Power, of St. Andrew's Church, St. John's (who had delivered the address at the Memorial Service), and Rev. F. S. Coffin of the Kirk here. The Missionary report was given by the pastor, Rev. W. H. Browning, and showed things to be on the upward trend, the report being a good one. Rev. Mr. Johnson also preached at the Morning Service, his sermon at that time being very much enjoyed by the congregation.

Mr. Allan Parsons, clerk with Mr. E. E. Parsons, went to St. John's on Monday, to consult one of the doctors at the General Hospital, from whom he had received treatment when in the above institution some months ago. Mr. Parsons returned to town again Wednesday night, and we trust his visit to the city has been very beneficial to him.

During the last few days the town has lost one of its most prominent citizens, in the person of Mr. James Warren, an old and highly respected resident. On Friday, 9th inst., he went out on the morning's train to the city and returned home again in the night, having shown no signs of ill-health; but shortly after retiring he awoke his daughter and her husband, Dr. W. S. Goodwin, who immediately sent for a doctor, but the end was very near and came quite peacefully. He carried on business here for many years as a Carriage Builder, and was quite active, despite his nearly four score years. He possessed many fine qualities, and was greatly admired by all who knew him. In Church work he was ever ready, being a member of the Quarterly Official and Trustee Boards of the Methodist Church here, and by his demise the church loses a faithful member and willing helper in all its interests. The day set for the funeral, Monday, was most unfavorable, yet a goodly number attended to pay their last token of respect to an old and esteemed friend and fellow townsman. The service was at the Methodist Church, and all that was mortal of a just man was laid to rest in the Cemetery on the Hill. He leaves to mourn one daughter, Mrs. (Dr.) W. S. Goodwin, with whom he resided; four sons, Capt. Ernest of England; Percie, Charles and James residing in the United States; Mr. William Warren of this town is a brother. We offer our condolences to the bereaved family.—COR.

Eating Tea-Leaves.

Although tea is our national beverage, it is surprising how very little the average person knows about the drink.

Russians drink tea, not with the addition of milk as we do, but with lemon juice squeezed in, whilst in Germany tea is often flavoured with cinnamon and rum. Perhaps the quaintest form of "tea-drinking" is that practised by the savage tribes in Tartary, Central Asia. The leaves are first boiled in soda, then seasoned with butter and salt, and then eaten.

Many people think that tea taken late at night produces sleeplessness. It does, but if a slice of lemon is added instead of milk, it will induce sleep. In cases of fever, tea taken with lemon and a little sugar, and, of course, no milk, is very refreshing.

A very common error is the belief that by adding a pinch of carbonate of soda, a stronger taste can be obtained. This is not so, carbonate of soda being only useful when the water is hard. A pinch of salt is invaluable for giving flavour at all times.

THE LETTER TO SANTA CLAUS.

I'd filled my pipe and settled down beside the cosy ingle nook. To while away an hour or two and con the pages of a book.

When from another room there came a rustle by that rascal yelled, And this the burden of his plea: "Pa, how is 'locomotive' spelled?"

I answered him and turned to read and of the question thought no more. When suddenly I looked and saw that boy of mine beside the door; "What is it now?" I asked of him, for much the last investigation, "I was just wondering," said he, "just how to spell a 'pair of skates'."

I answered him and sent him off, but back he came again to know. How 'coaster sled' is spelled. And then into his room I watched him go and wondered what was in his mind, and what his interest might be. When he returned and said once more: "Will you spell 'boxing gloves' for me?"

Now these are curious words, thought I, for such a little boy to learn. And it is strange that he should make his spelling such a grave concern; "Say, how do you spell 'watch'?" he cried, and then I tumbled to the cause. The rascal had begun to write his annual note to Santa Claus.

Some Bracelet Watches look well and that's all can be said about them. But a Bracelet Watch that is both attractive and reliable, is something that it is a pleasure to own. Bottomless Ship Sails the Ocean.

A ship without a bottom came into New York Harbor on December 1—

the Standard Oil tanker F. D. Asche, 3,294 gross tons, with Captain McKendall and a crew of 20. With nothing but the ocean where her bottom should have been, she came all the way from the Bahamas. On October 20 the tanker left New York in ballast for Texas City. A hurricane hit her, and on October 26 she was driven scurrying across Stranger Reef. The storm washed her a mile farther into Manatilla Reef, and there she lay while the crew pumped. The pumps worked all night, but the quantity of water in the hold did not diminish. Soon the men learned that, instead of pumping out the hold, they were trying to pump out the whole ocean. The bottom was gone. The wireless brought two wrecking tugs of the Merritt-Chapman Co. What

they did was to put a lot of tanks in the hold and then pump them full of compressed air. The ship floated off and they towed her to New York.
